[57] CLAIM

Boswell

The ornamental design for a soldering iron tip, substantially as shown and described.

Attorney, Agent, or Firm-Edward D. O'Brian; K. H.

DESCRIPTION

FIG. 1 is an isometric view showing the top, the front

and one side of a soldering iron tip embodying the new design of my invention;

FIG. 2 is a front elevational view thereof;

FIG. 3 is a bottom plan view thereof;

FIG. 4 is a rear elevational view thereof;

FIG. 5 is a side elevational view thereof illustrating the side which is not visible in FIG. 1;

FIG. 6 is an isometric view of a modified view showing the top, the front and one side of a modified soldering iron tip embodying the new design of my invention;

FIG. 7 is a front elevational view thereof;

FIG. 8 is a bottom plan view thereof;

FIG. 9 is a rear elevational view thereof;

FIG. 10 is a side elevational view thereof illustrating the side which is not visible in FIG. 5;

FIG. 11 is an isometric view of a further modified view showing the top, the front and one side of a modified soldering iron tip embodying the new design of my invention;

FIG. 12 is a front elevational view thereof;

FIG. 13 is a bottom plan view thereof;

FIG. 14 is a rear elevational view thereof;

FIG. 15 is a side elevational view thereof illustrating the side which is not visible in FIG. 11;

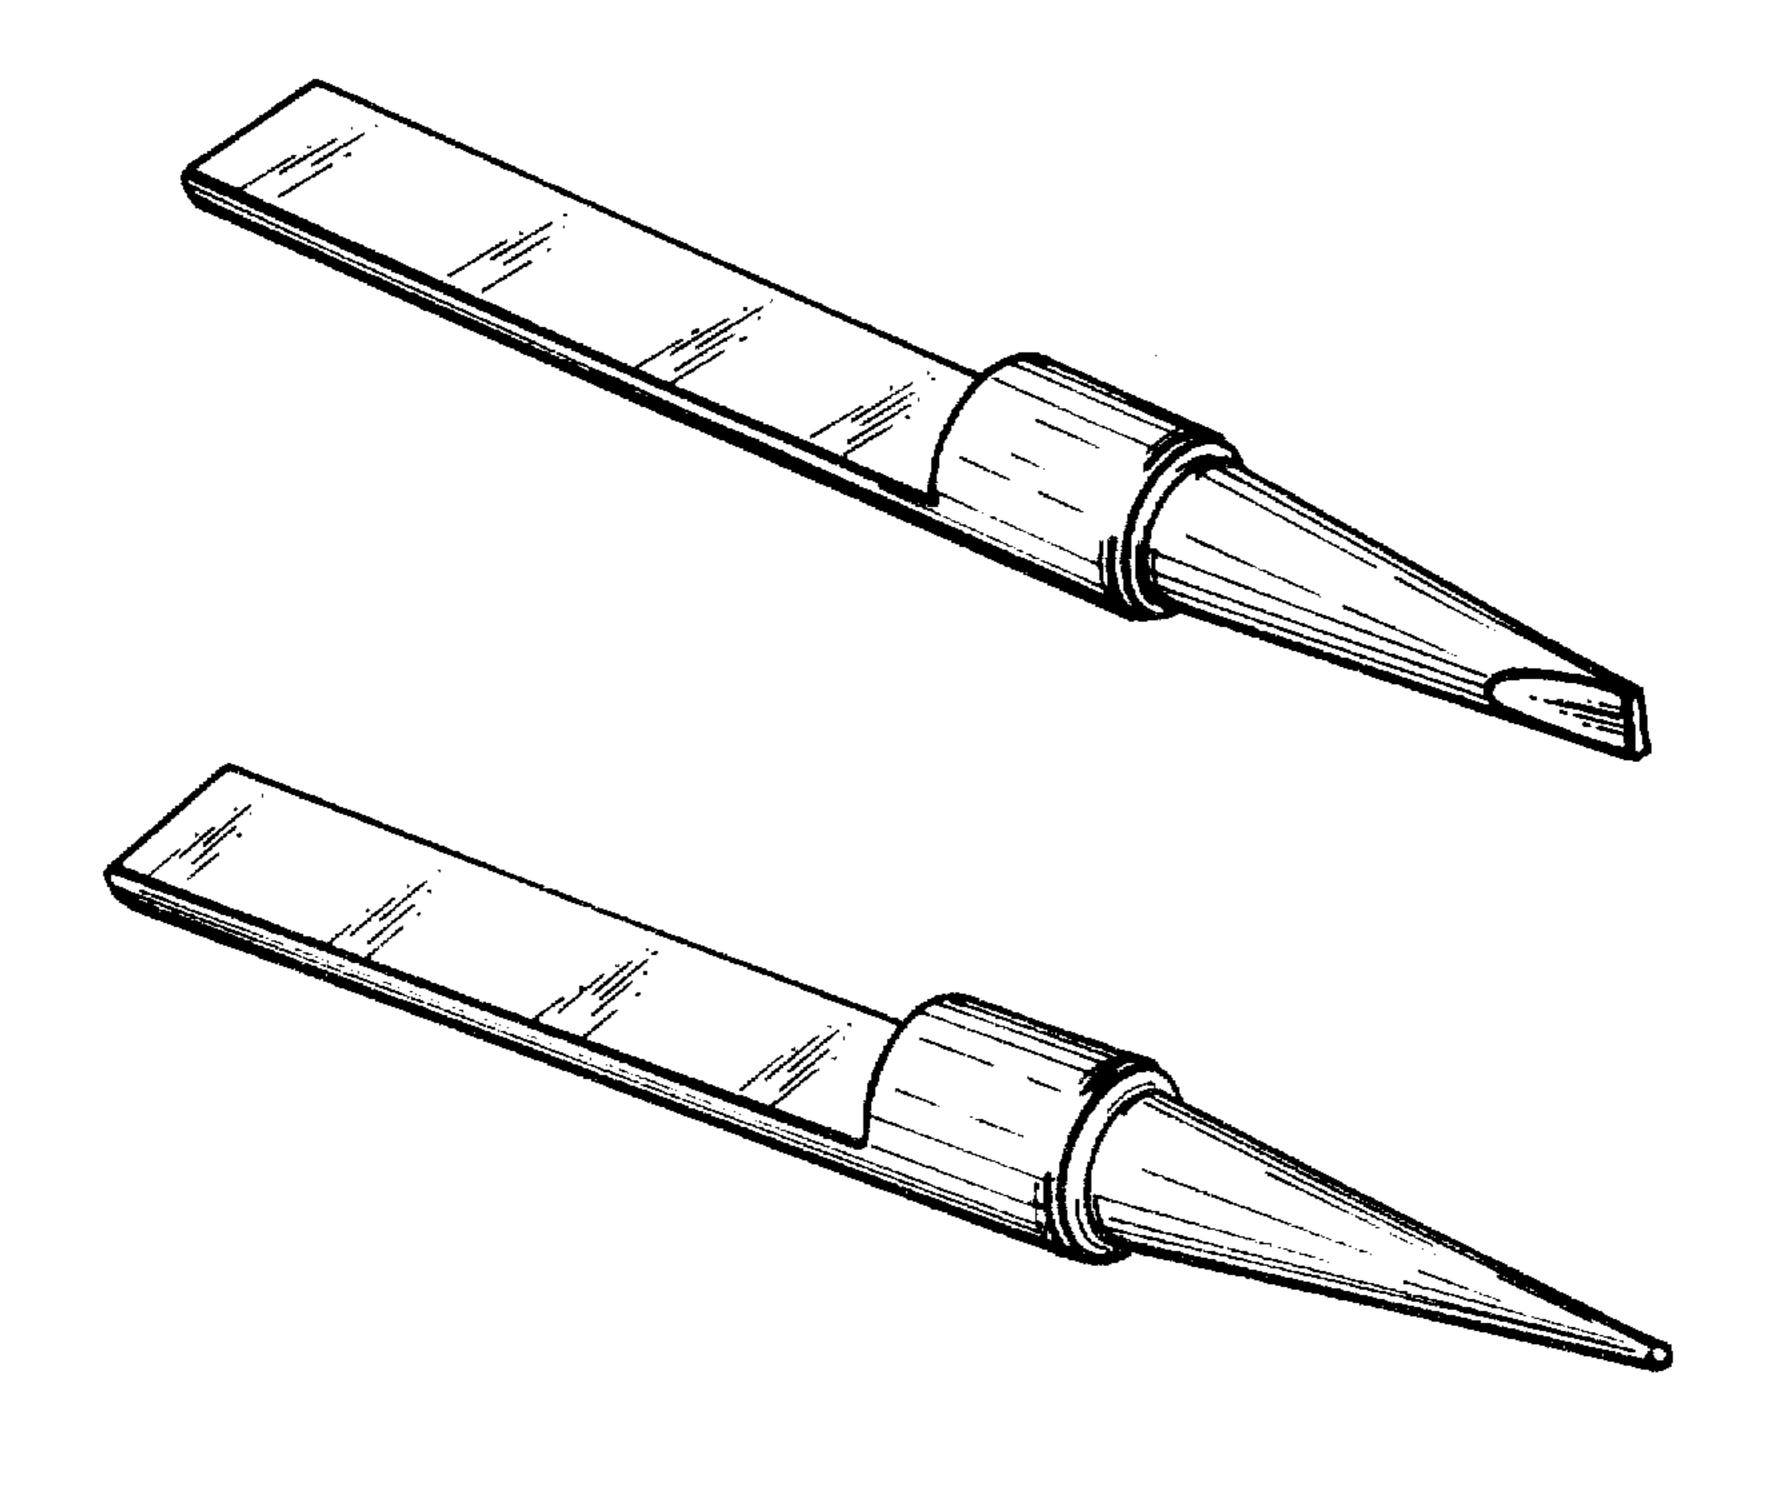

FIG. 16 is an isometric view of a still further modified view showing the top, the front and one side of a modified soldering iron tip embodying the new design of my invention;

FIG. 17 is a front elevational view thereof;

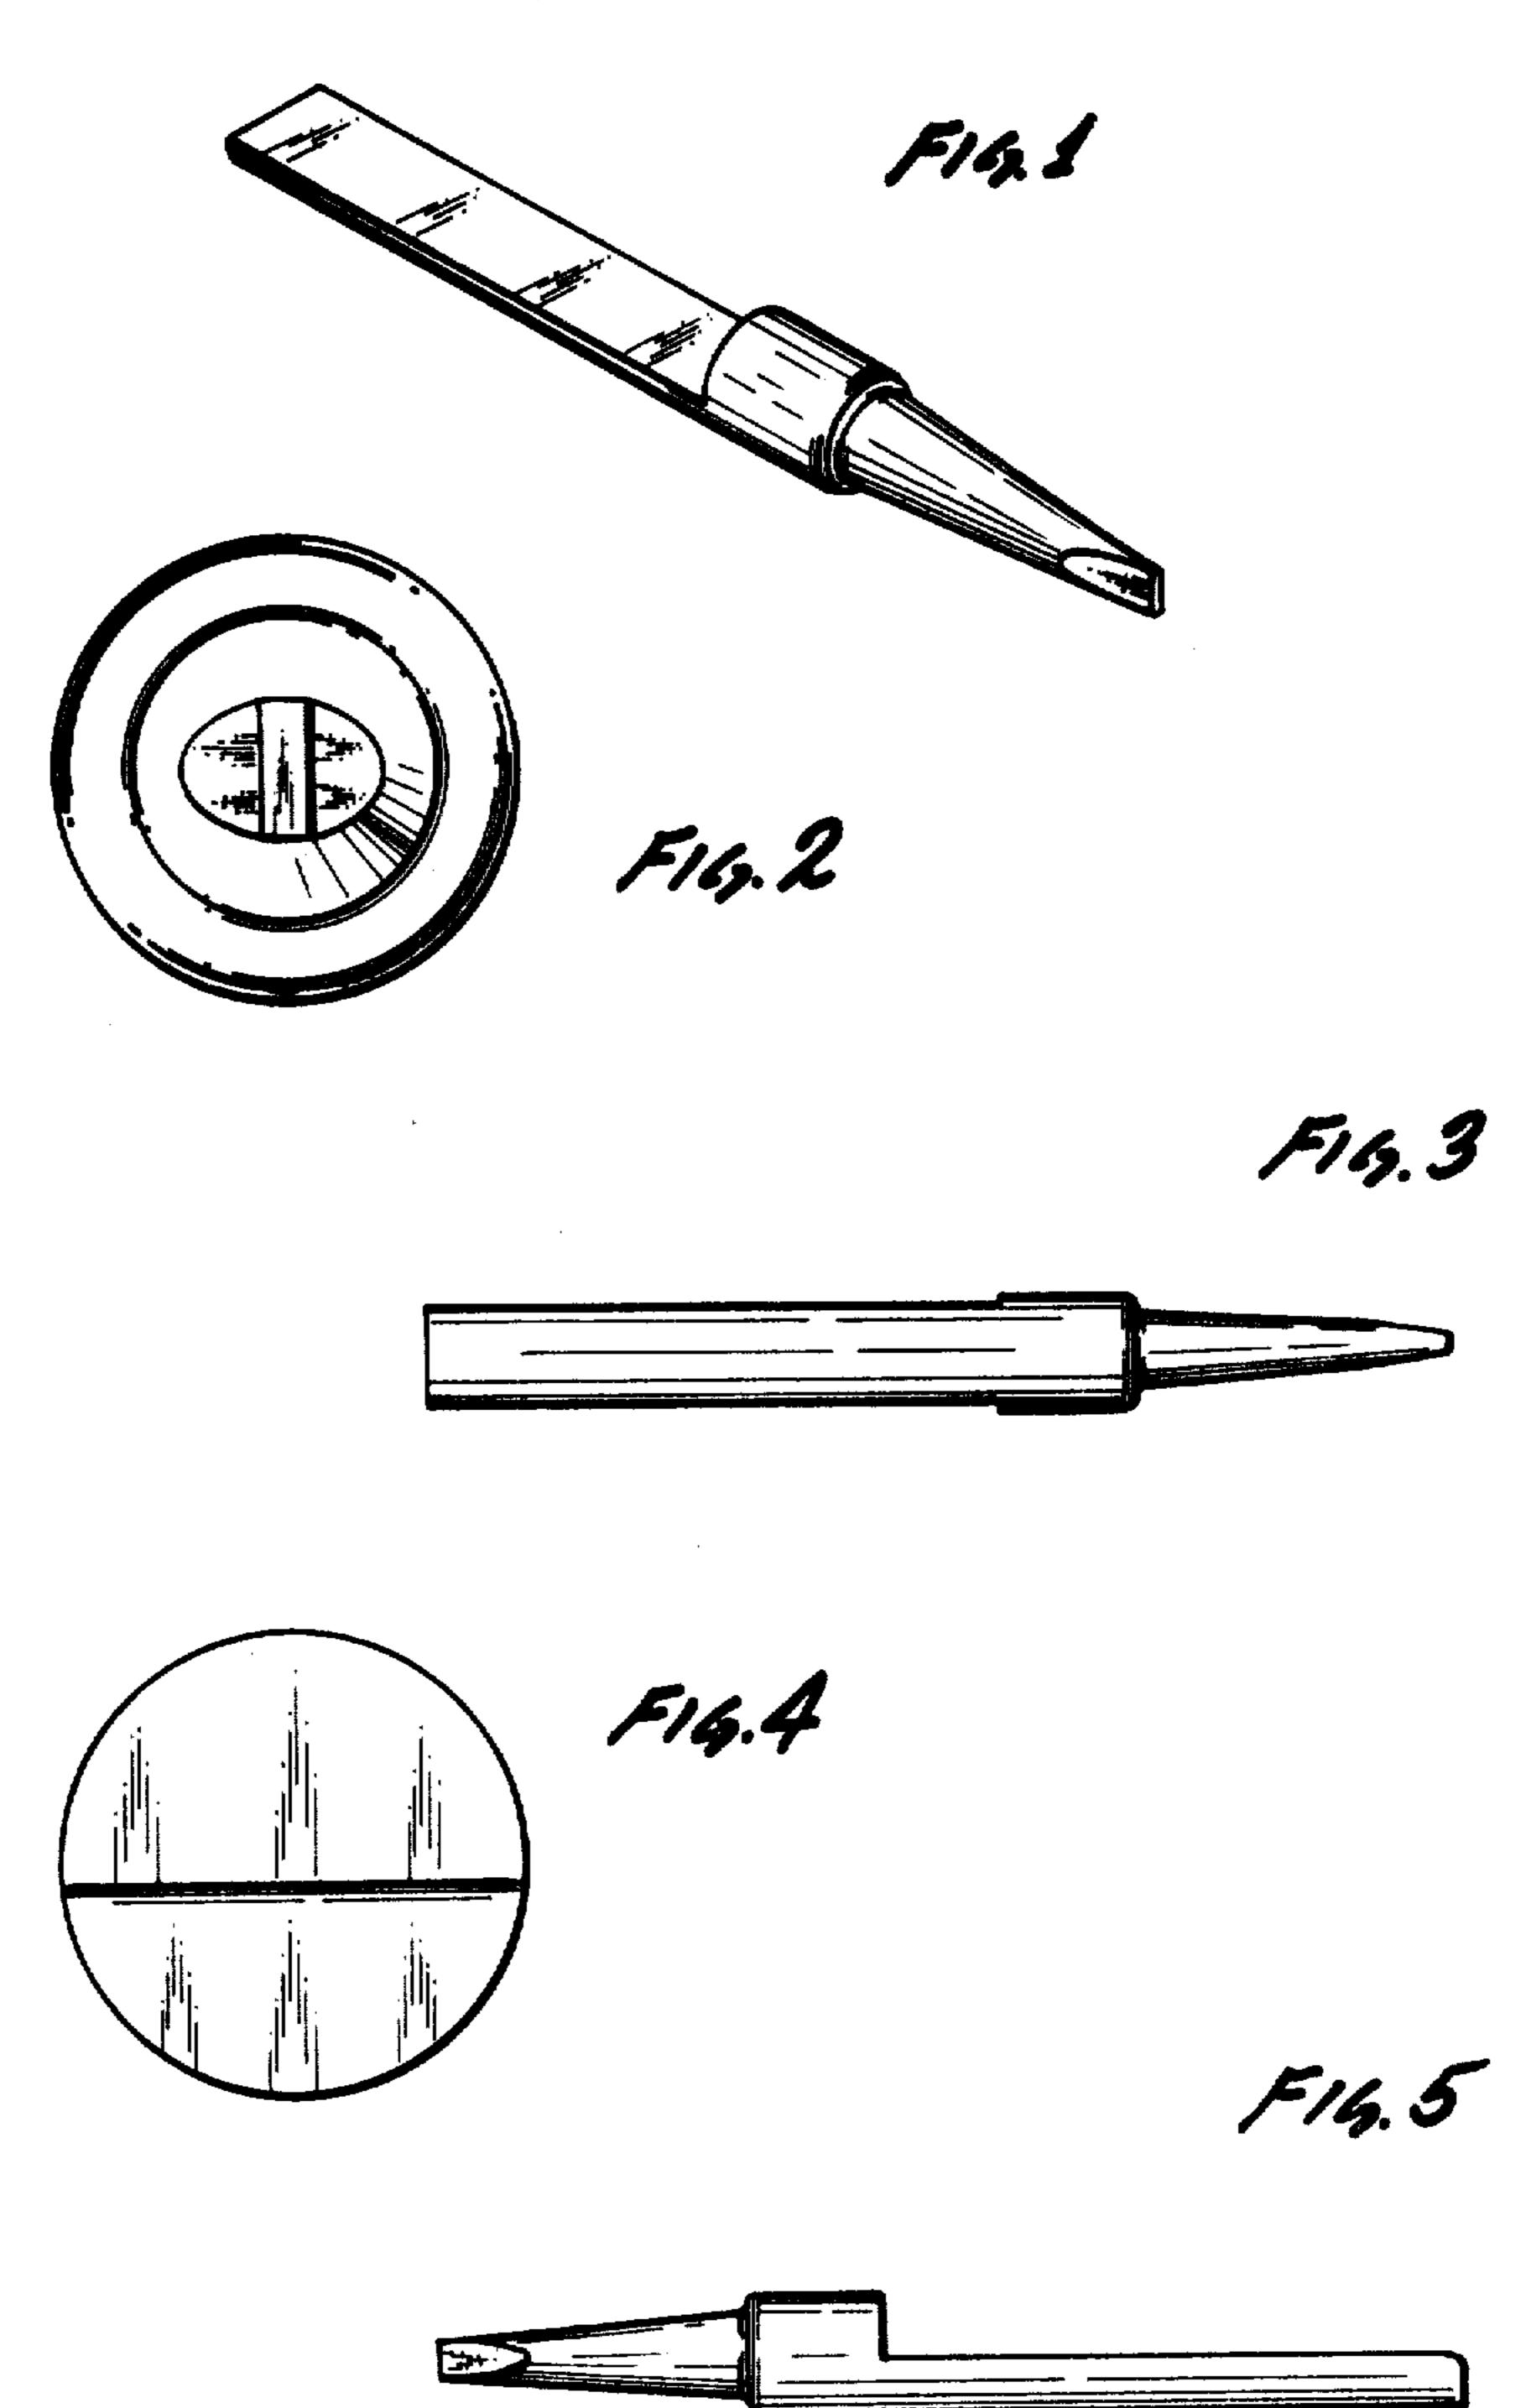

FIG. 18 is a bottom plan view thereof;

FIG. 19 is a rear elevational view thereof; and

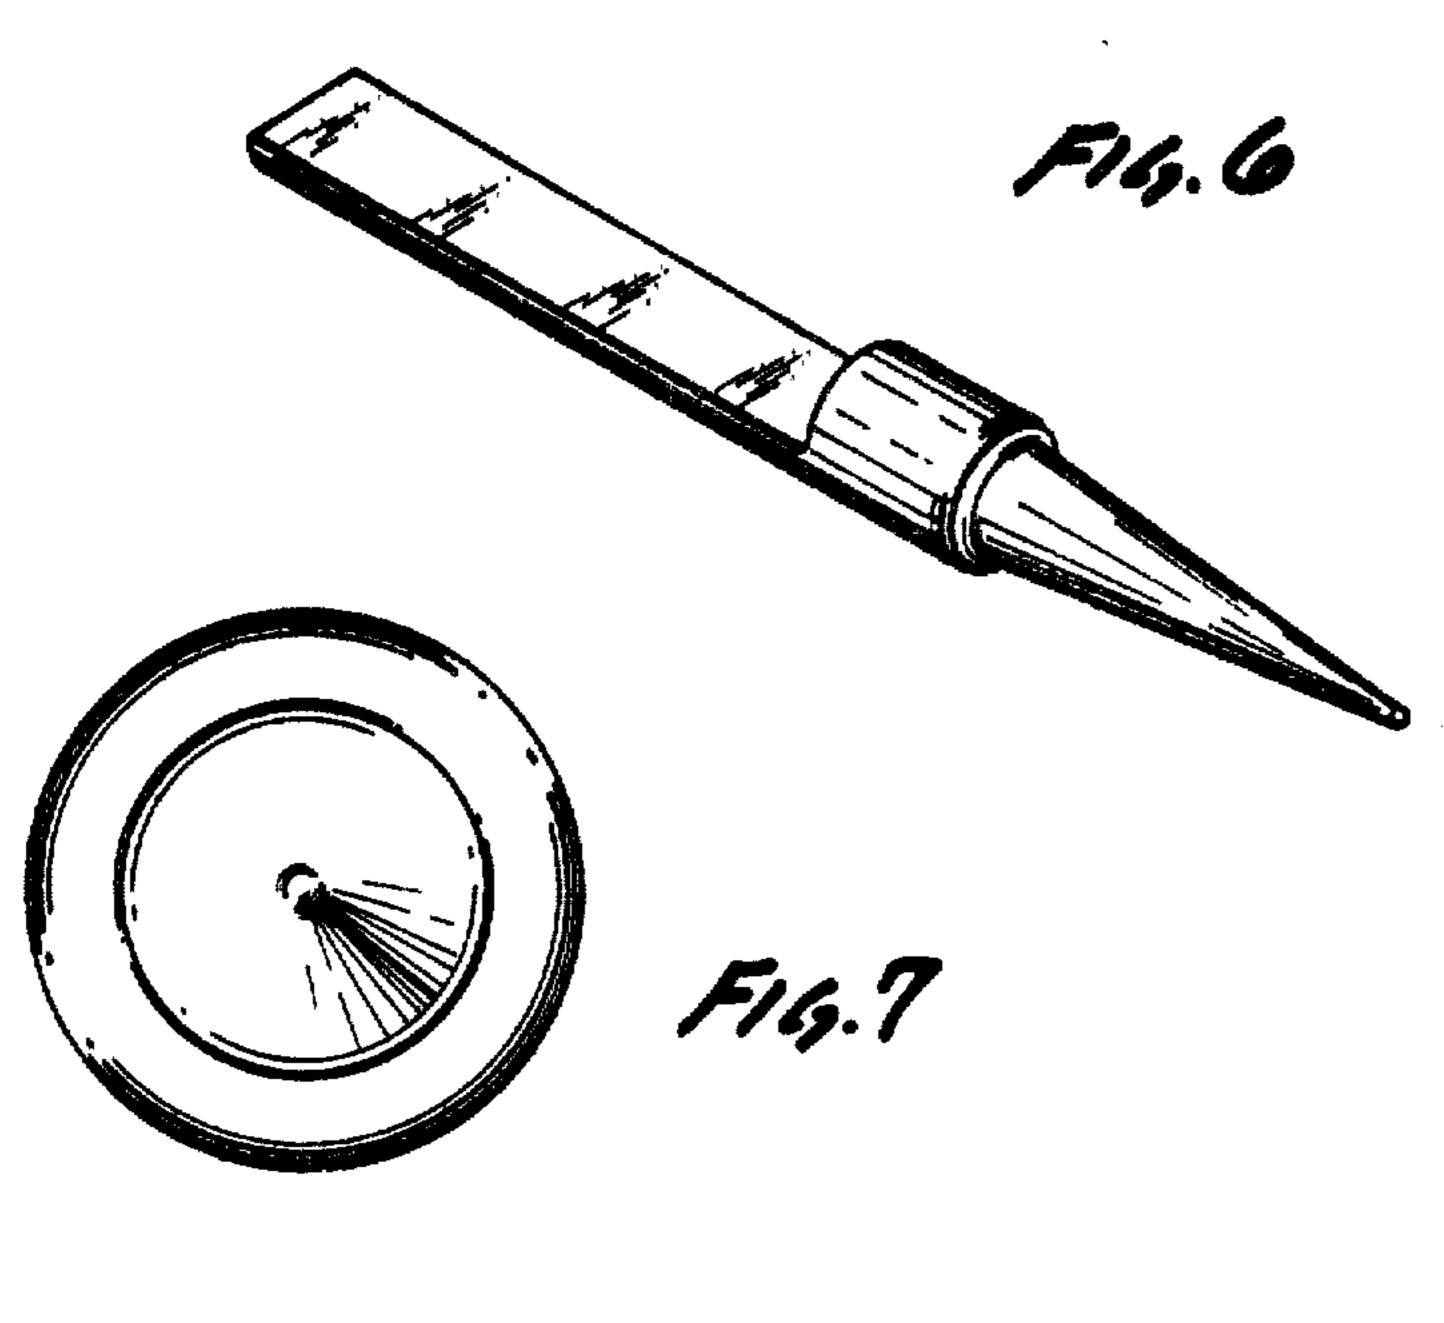

FIG. 20 is a side elevational view thereof illustrating the side which is not visible in FIG. 16.
