*Primary Examiner*—James M. Gandy

[57] **CLAIM**

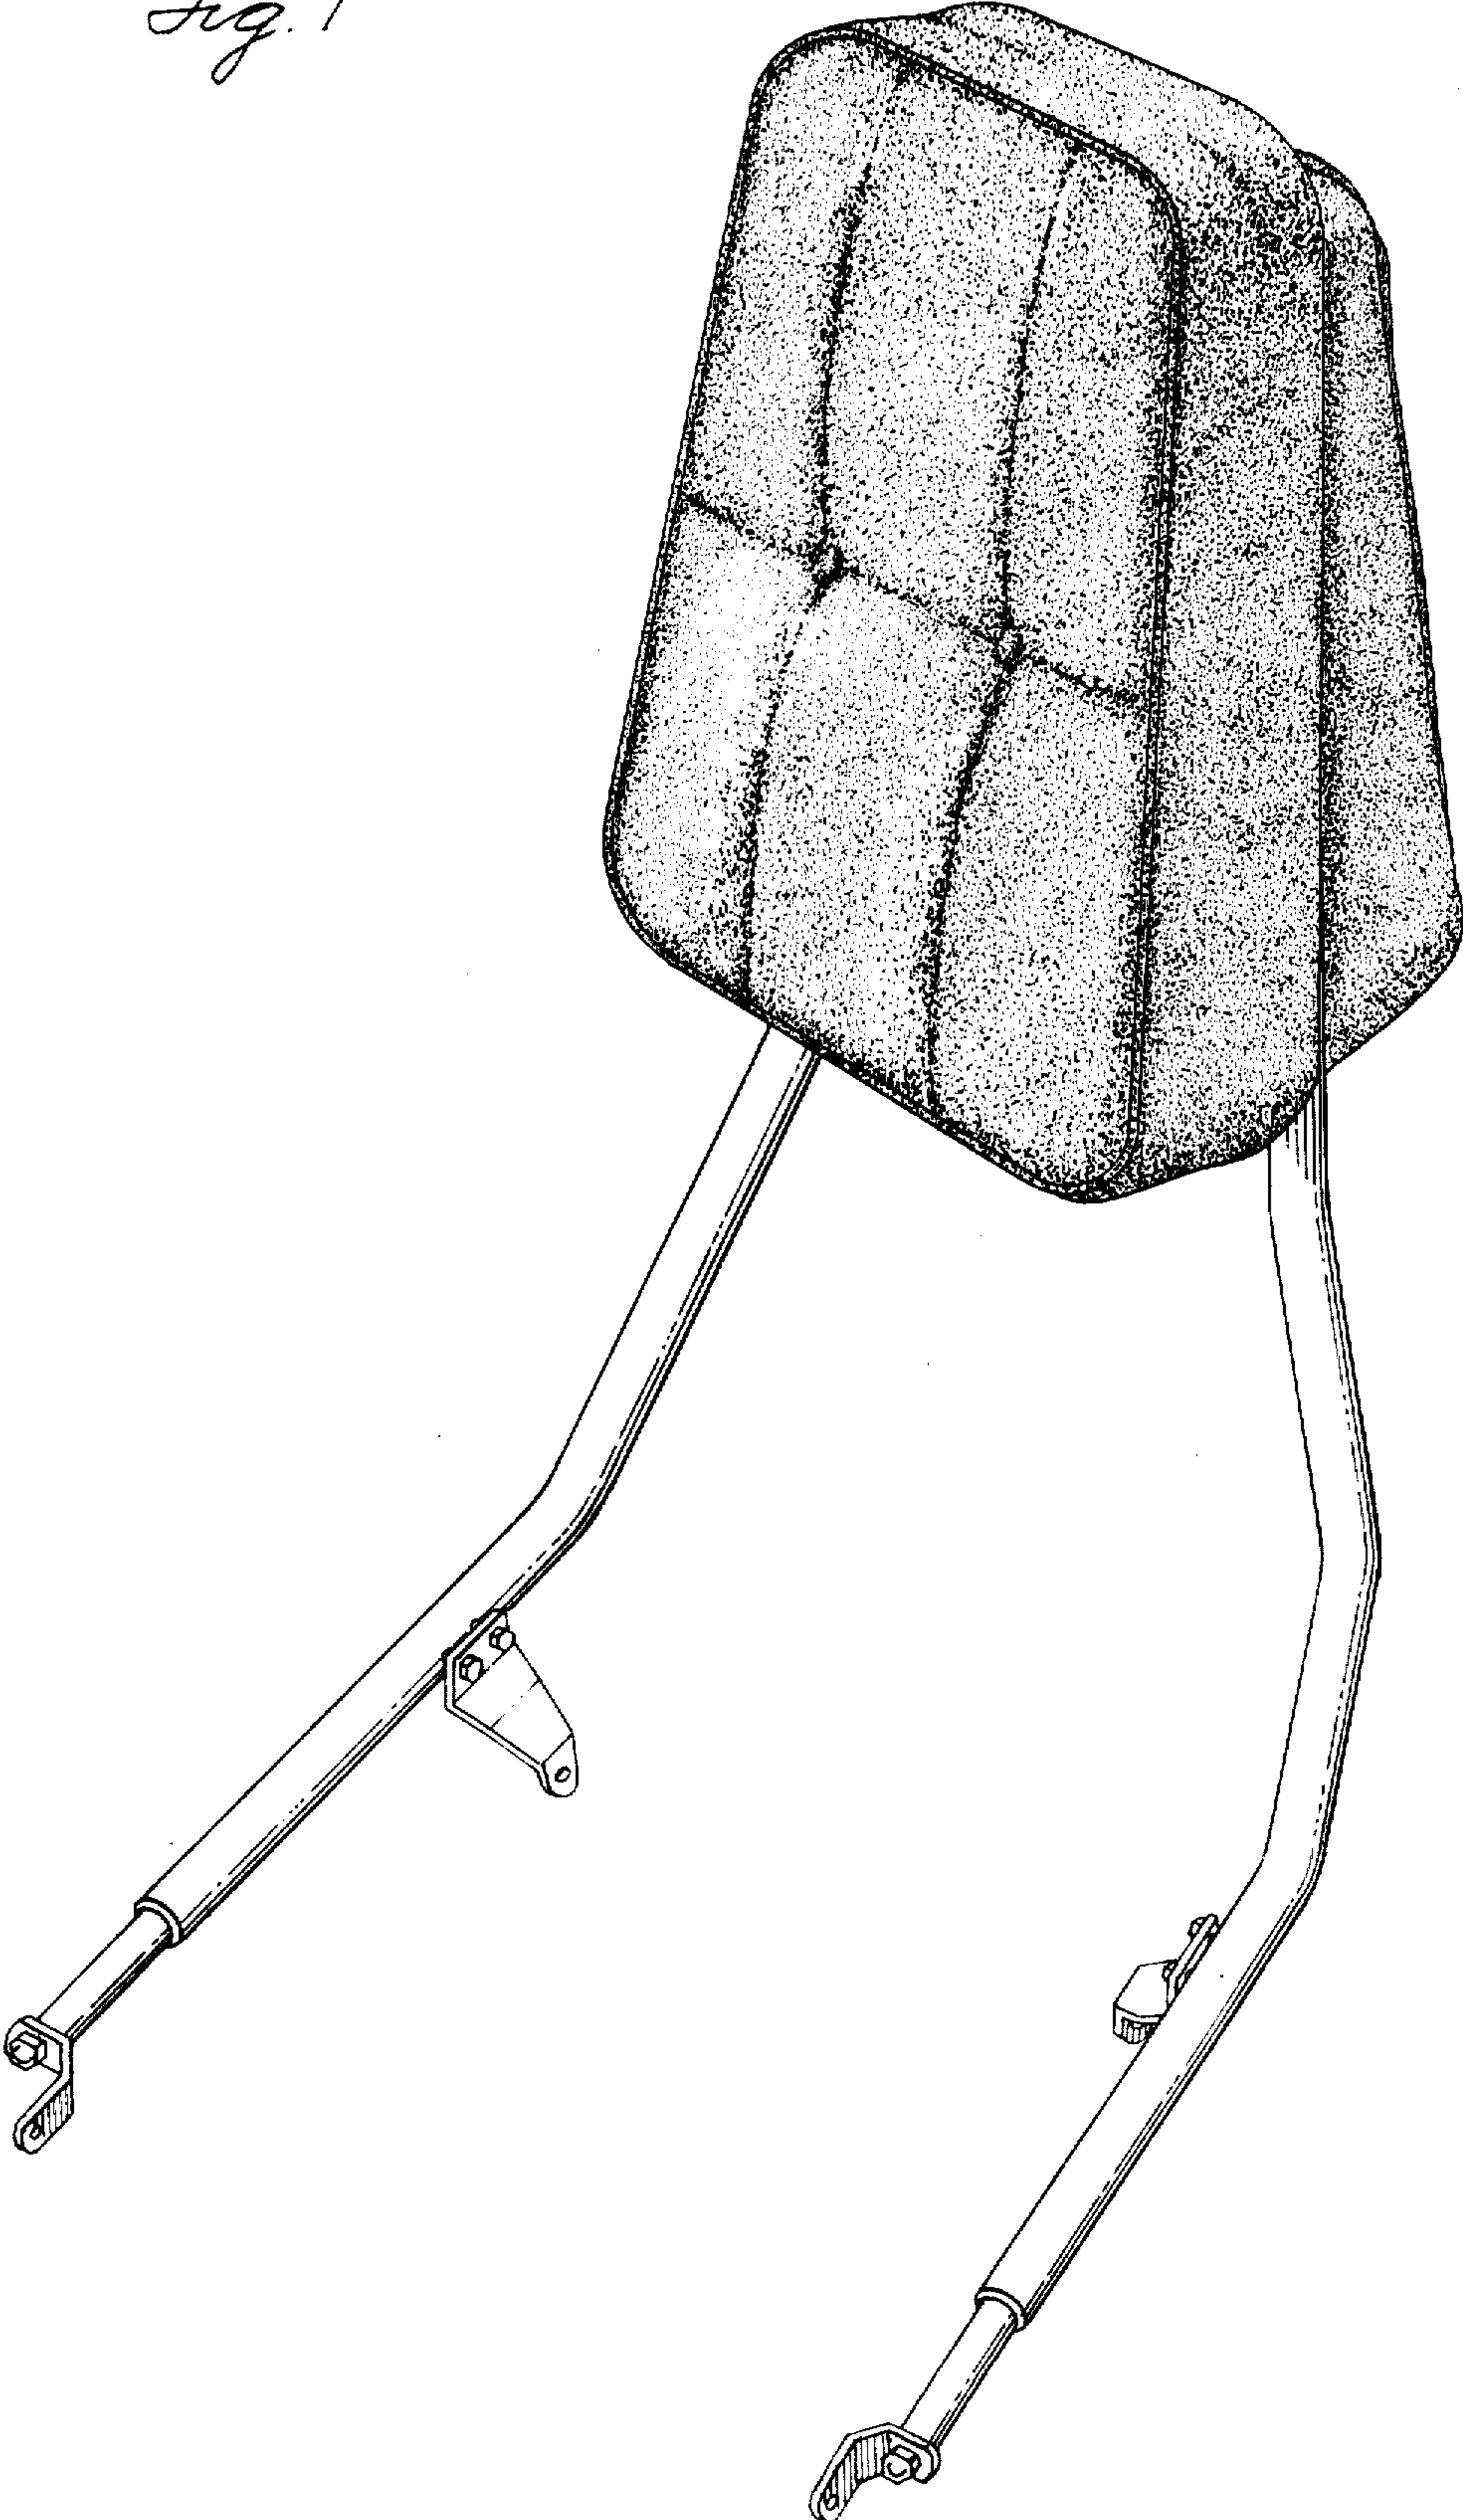

The ornamental design for a combined sissy bar and backrest pad, substantially as shown and described.

**DESCRIPTION**

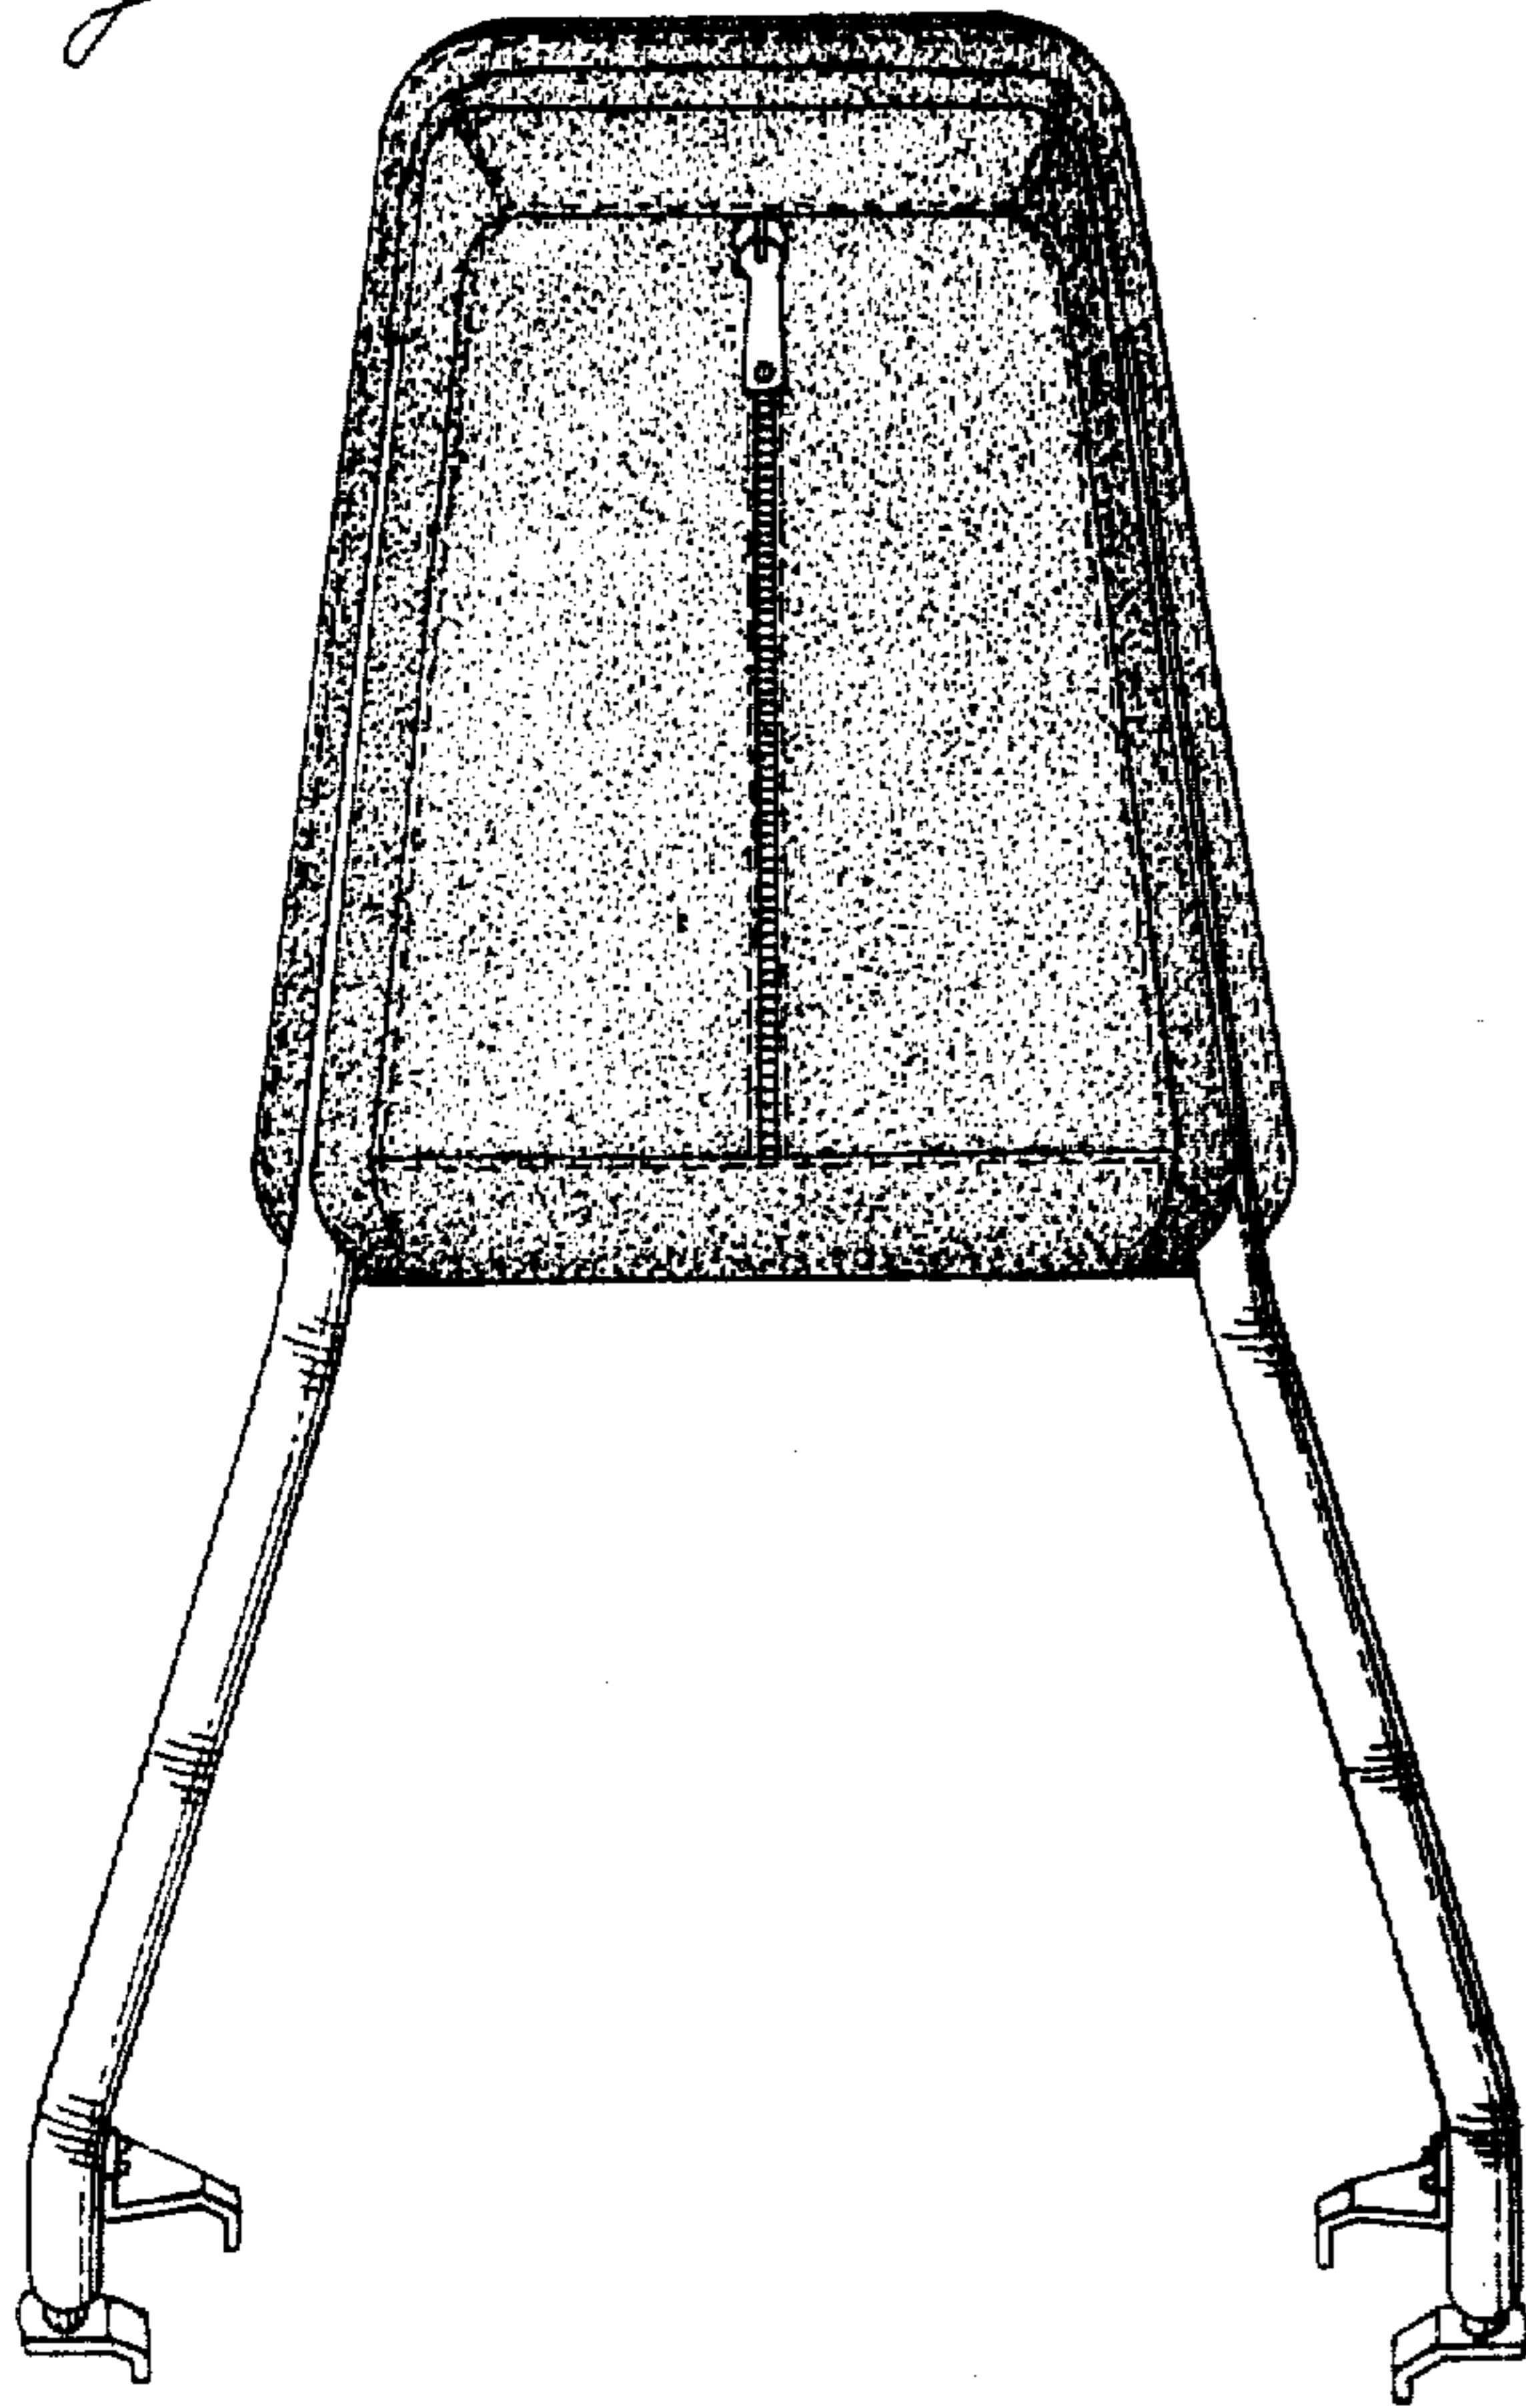

FIG. 1 is a front perspective view of a combined sissy bar and backrest pad showing our new design; FIG. 2 is a side elevational view thereof on a reduced scale; FIG. 3 is a rear elevational view of FIG. 2; FIG. 4 is a front perspective view of a combined sissy bar and backrest pad showing a second embodiment of our new design; FIG. 5 is a side elevational view of FIG. 4; FIG. 6 is a front perspective view of a combined sissy bar and backrest pad showing a third embodiment of our new design; and FIG. 7 is a side elevational view of FIG. 6. The rear of the backrest pad shown in the second and third embodiments of the design is flat and unornamented and the two tubular members comprising the sissy bar are understood to be spaced apart and connected to the backrest pad independent of one and other.
