DESCRIPTION

The FIGURE is a front elevational view of a vending machine showing our new design; the broken line showings being environmental only and forming no part of the claimed design.

The side, rear, top and bottom views are substantially flat and unornamented.

The top, bottom, and rear of the vending machine design of the present invention are substantially rectangular, flat, and unornamented and the undisclosed left side is substantially the same in appearance as the right side of FIGS. 1 and 4.
