[57] **CLAIM**

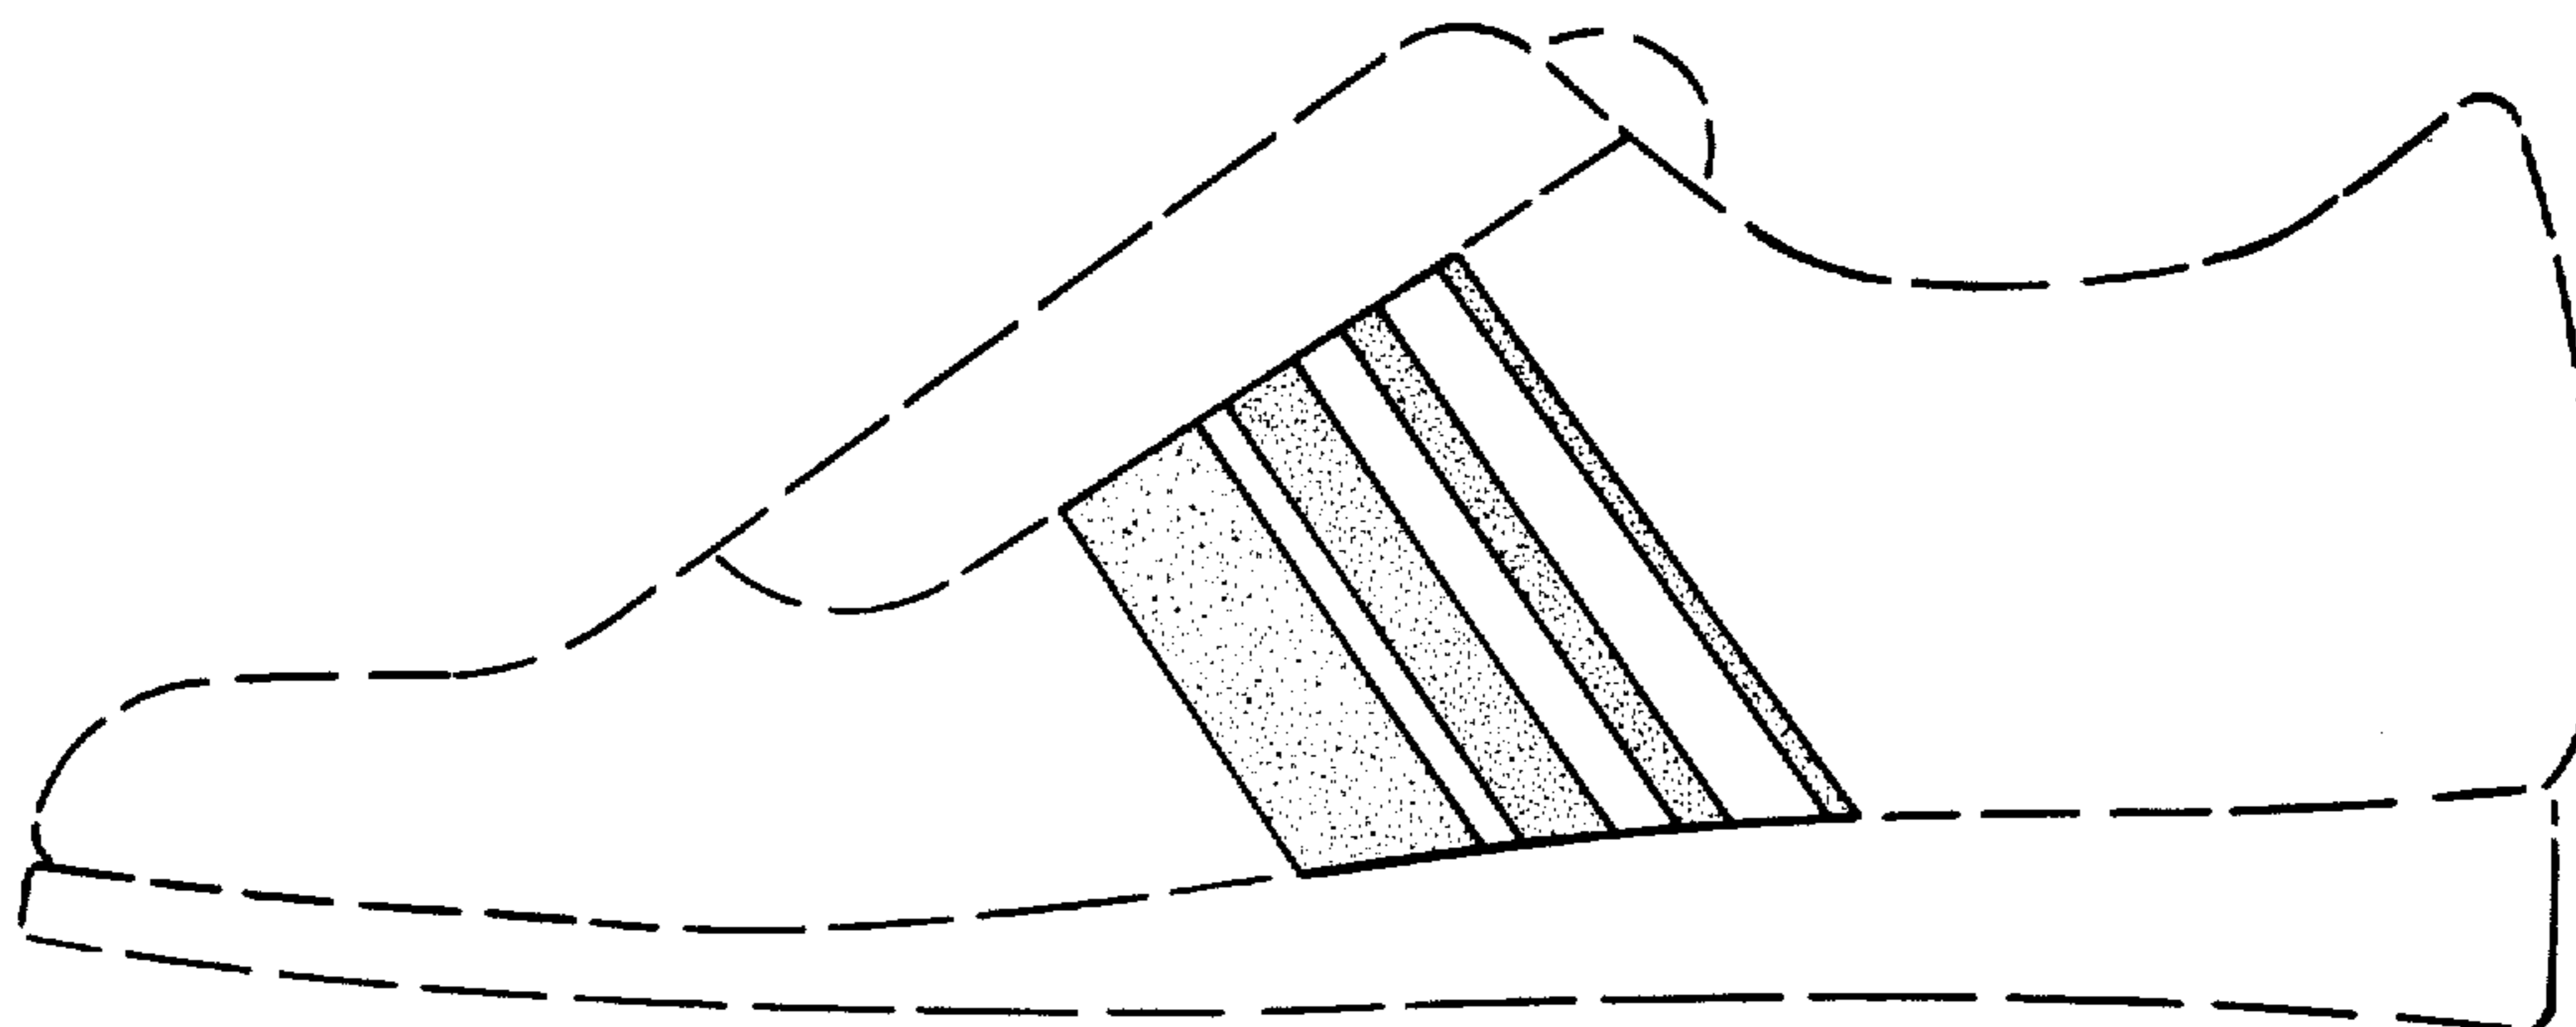

The ornamental design for a stripes portion of a shoe upper, substantially as shown and described.

DESCRIPTION

FIG. 1 is a right side elevational view of the stripes portion of a shoe upper showing my new design, the left side being a mirror image thereto; and FIG. 2 is a top plan view thereof.

The broken-line disclosure of a shoe upper and sole is for environmental purposes only and forms no part of the claimed design.

The stripes are stippled to represent that they contrast with and are visible against the background of the upper, but the stippling does not represent any specific colors, and specific colors form no part of the claimed design.
