[57] **CLAIM**
The ornamental design for a canister jar and closure, substantially as shown and described.

DESCRIPTION

FIG. 1 is a top perspective view of a combined canister jar and closure showing my new design;
FIG. 2 is a top plan view thereof;
FIG. 3 is a side elevational view thereof; and
FIGS. 4-17 are elevational views of modifications of my new design as shown in various sizes and proportions thereof.
The design is characterized by a transparent body with an opaque upper portion, comprising a shoulder, neck and outwardly flaring rim, of contrasting material, and a closure, also of opaque contrasting material, positioned within the opaque neck area with the rim flaring outward and upward thereabout.
