[57] CLAIM

The ornamental design for a medical supply pack, as shown and described.

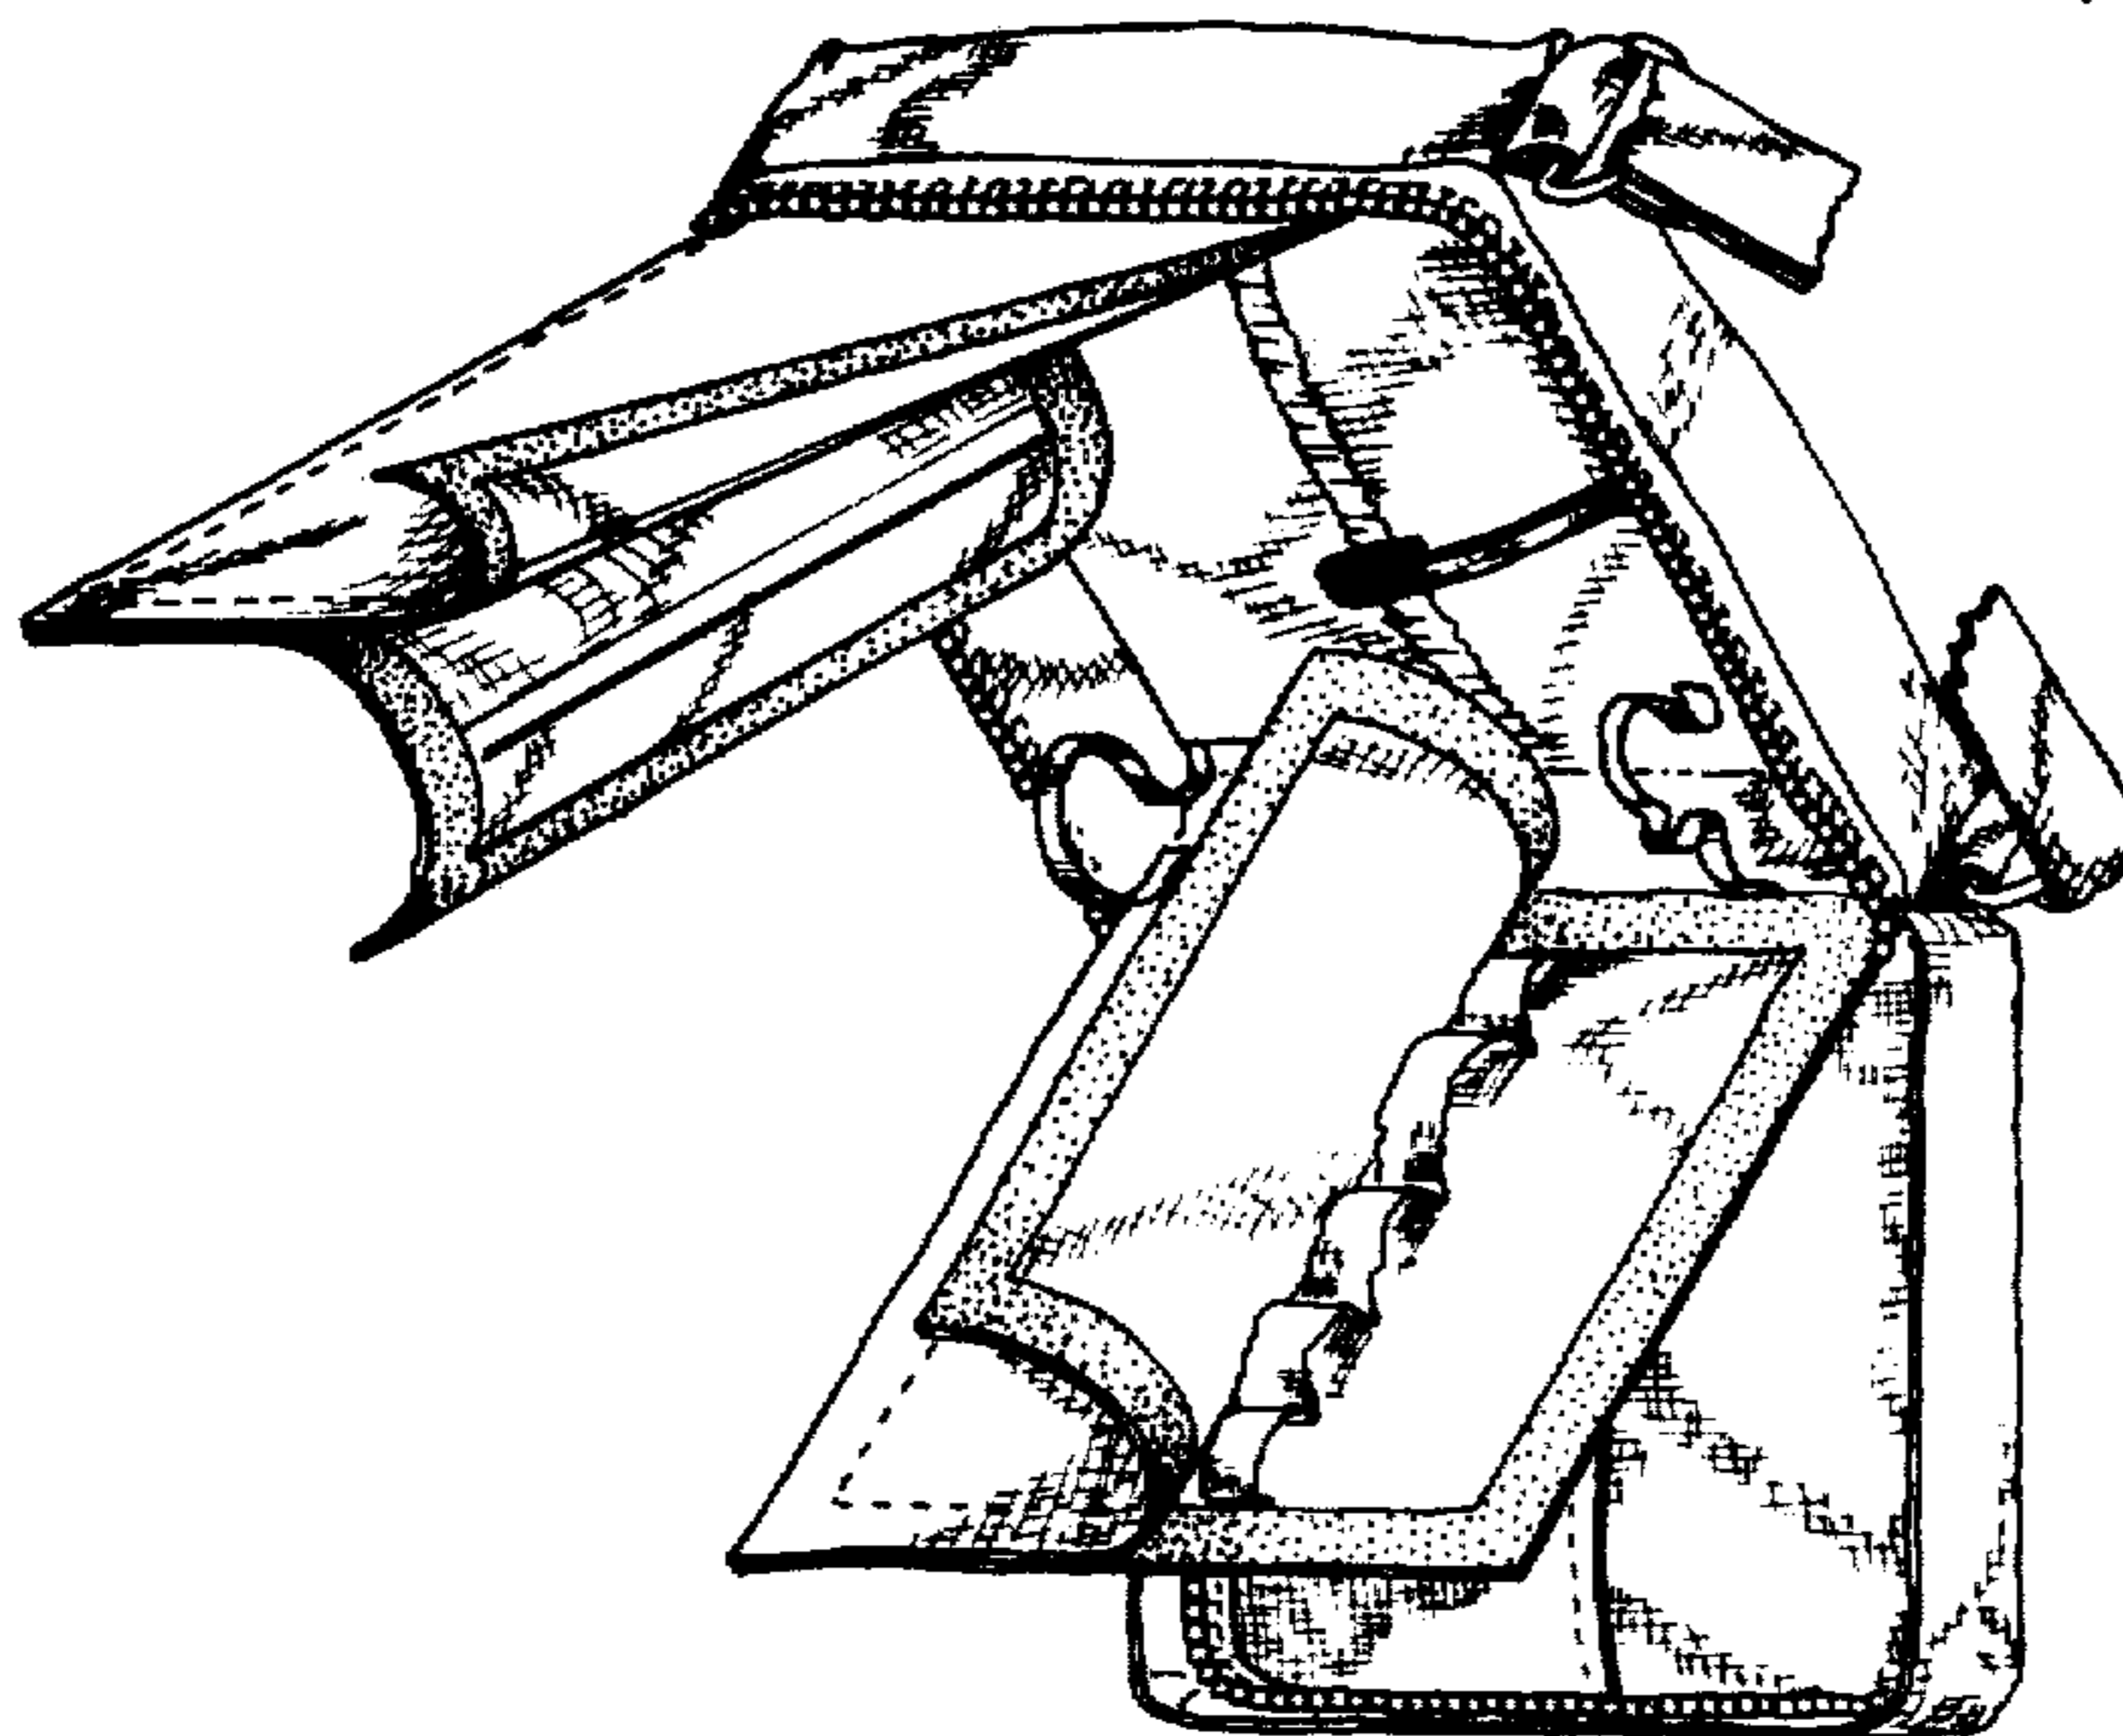

DESCRIPTION

FIG. 1 is a perspective view of a medical supply pack showing my new design in the open configuration, an intermediate portion of the carrying strap shown in FIG. 3 being broken away and omitted for convenience of illustration;

FIG. 2 is a rear perspective view thereof in closed condition; and

FIG. 3 is a bottom front perspective view thereof in the open configuration with the complete carrying strap.

Those surfaces having hidden portions in FIG. 1 and not otherwise disclosed in FIGS. 2 and 3 are continuations of the disclosed portions of the respective surfaces.
