[57] **CLAIM**

The ornamental design for a jar, or similar article, as shown and described.

DESCRIPTION

FIG. 1 is a front-elevational view of a jar, or similar article, showing my design;
 FIG. 2 is a top plan view thereof;
 FIG. 3 is a bottom plan view thereof;
 FIG. 4 is a front-elevational view of a second embodiment of a jar, or similar article, showing my design;
 FIG. 5 is a top plan view thereof; and
 FIG. 6 is a bottom plan view thereof.
 The structure shown as a solid medial line designates a band of contrasting color, and the embodiment of FIGS. 4, 5 and 6 differs from the embodiment of FIGS. 1, 2 and 3 in that in the former, the contrasting band is flushed with the generally cylindrical wall of the jar, whereas in the latter the contrasting band projects somewhat radially from the side surface of the jar.
