[57] CLAIM

The ornamental design for a propeller counterweight bearing assembly, as shown and described.

DESCRIPTION

FIG. 1 is a right front perspective view of a propeller counterweight bearing assembly, showing my new design;
FIG. 2 is a front elevational view;
FIG. 3 is a side elevational view taken from the left hand side of the article as shown in FIG. 2, the right side elevational view being substantially a mirror image thereof;
FIG. 4 is a rear elevational view;
FIG. 5 is a top plan view;
FIG. 6 is a top plan view, showing the counterweight bearing outer race in an arbitrary, alternative position, the outer race being adapted to slide freely within the kidney shaped inner race;
FIG. 7 is a bottom plan view; and,
FIG. 8 is a median, transverse, cross-sectional view, taken on the line 8-8 in FIG. 5.
