[57] CLAIM

The ornamental design for a toy worm or similar article, as shown and described.

DESCRIPTION

FIG. 1 is a side view from the right side of the worm; FIG. 2 is a raised perspective view of the invention; FIG. 3 is a rear perspective view of the invention showing an alternate embodiment wherein the rear portion ends in a flat plane perpendicular to the body of the worm;

Regarding FIGS. 1 and 2, views from the left side, and the left front of the worm would be mirror images of the FIGS. 1 and 2. Similarly, with regard to FIG. 3, a rear perspective view taken from the left side of the invention would be a mirror image of FIG. 3.
