[57] **CLAIM**

The ornamental design for the cutting head of a weed cutter of the type using a rotating cutting string, substantially as shown and described.

DESCRIPTION

FIG. 1 is one, side elevational view of a first embodiment of a cutting head showing our design, in which the

broken lines are a side elevational view of part of the remainder of the cutter;

FIG. 2 is the same elevational view of FIG. 1, of the cutting head of FIG. 1, enlarged;

FIG. 3 is a second side elevational view of the cutting head of FIG. 1, rotated 90 degrees clockwise from the view of FIG. 2;

FIG. 4 is a third side elevational view of the cutting head of FIG. 1, rotated 90 degrees clockwise from the view of FIG. 3;

FIG. 5 is a fourth side elevational view of the cutting head of FIG. 1, rotated 90 degrees clockwise from the view of FIG. 4;

FIG. 6 is a top plan view of the cutting head of FIG. 1; FIG. 7 is a bottom plan view of the cutting head of FIG. 1;

FIG. 8 is one, side elevational view of a second embodiment of a cutting head showing our design, in which the broken lines are a side elevational view of part of the remainder of the cutter;

FIG. 9 is same side elevational view as FIG. 8, of the cutting head of FIG. 8, enlarged;

FIG. 10 is a second side elevational view of the cutting head of FIG. 8, rotated 90 degrees clockwise from the view of FIG. 9;

FIG. 11 is a third side elevational view of the cutting head of FIG. 8, rotated 90 degrees clockwise from the view of FIG. 10;

FIG. 12 is a fourth side elevational view of the cutting head of FIG. 8, rotated 90 degrees clockwise from the view of FIG. 11;

FIG. 13 is a top plan view of the cutting head of FIG. 8; and

FIG. 14 is a bottom plan view of the cutting head of FIG. 8.
