[57] **CLAIM**

The ornamental design for plastic sheet material for surfacing a wall panel or similar article, as shown and described.

**DESCRIPTION**

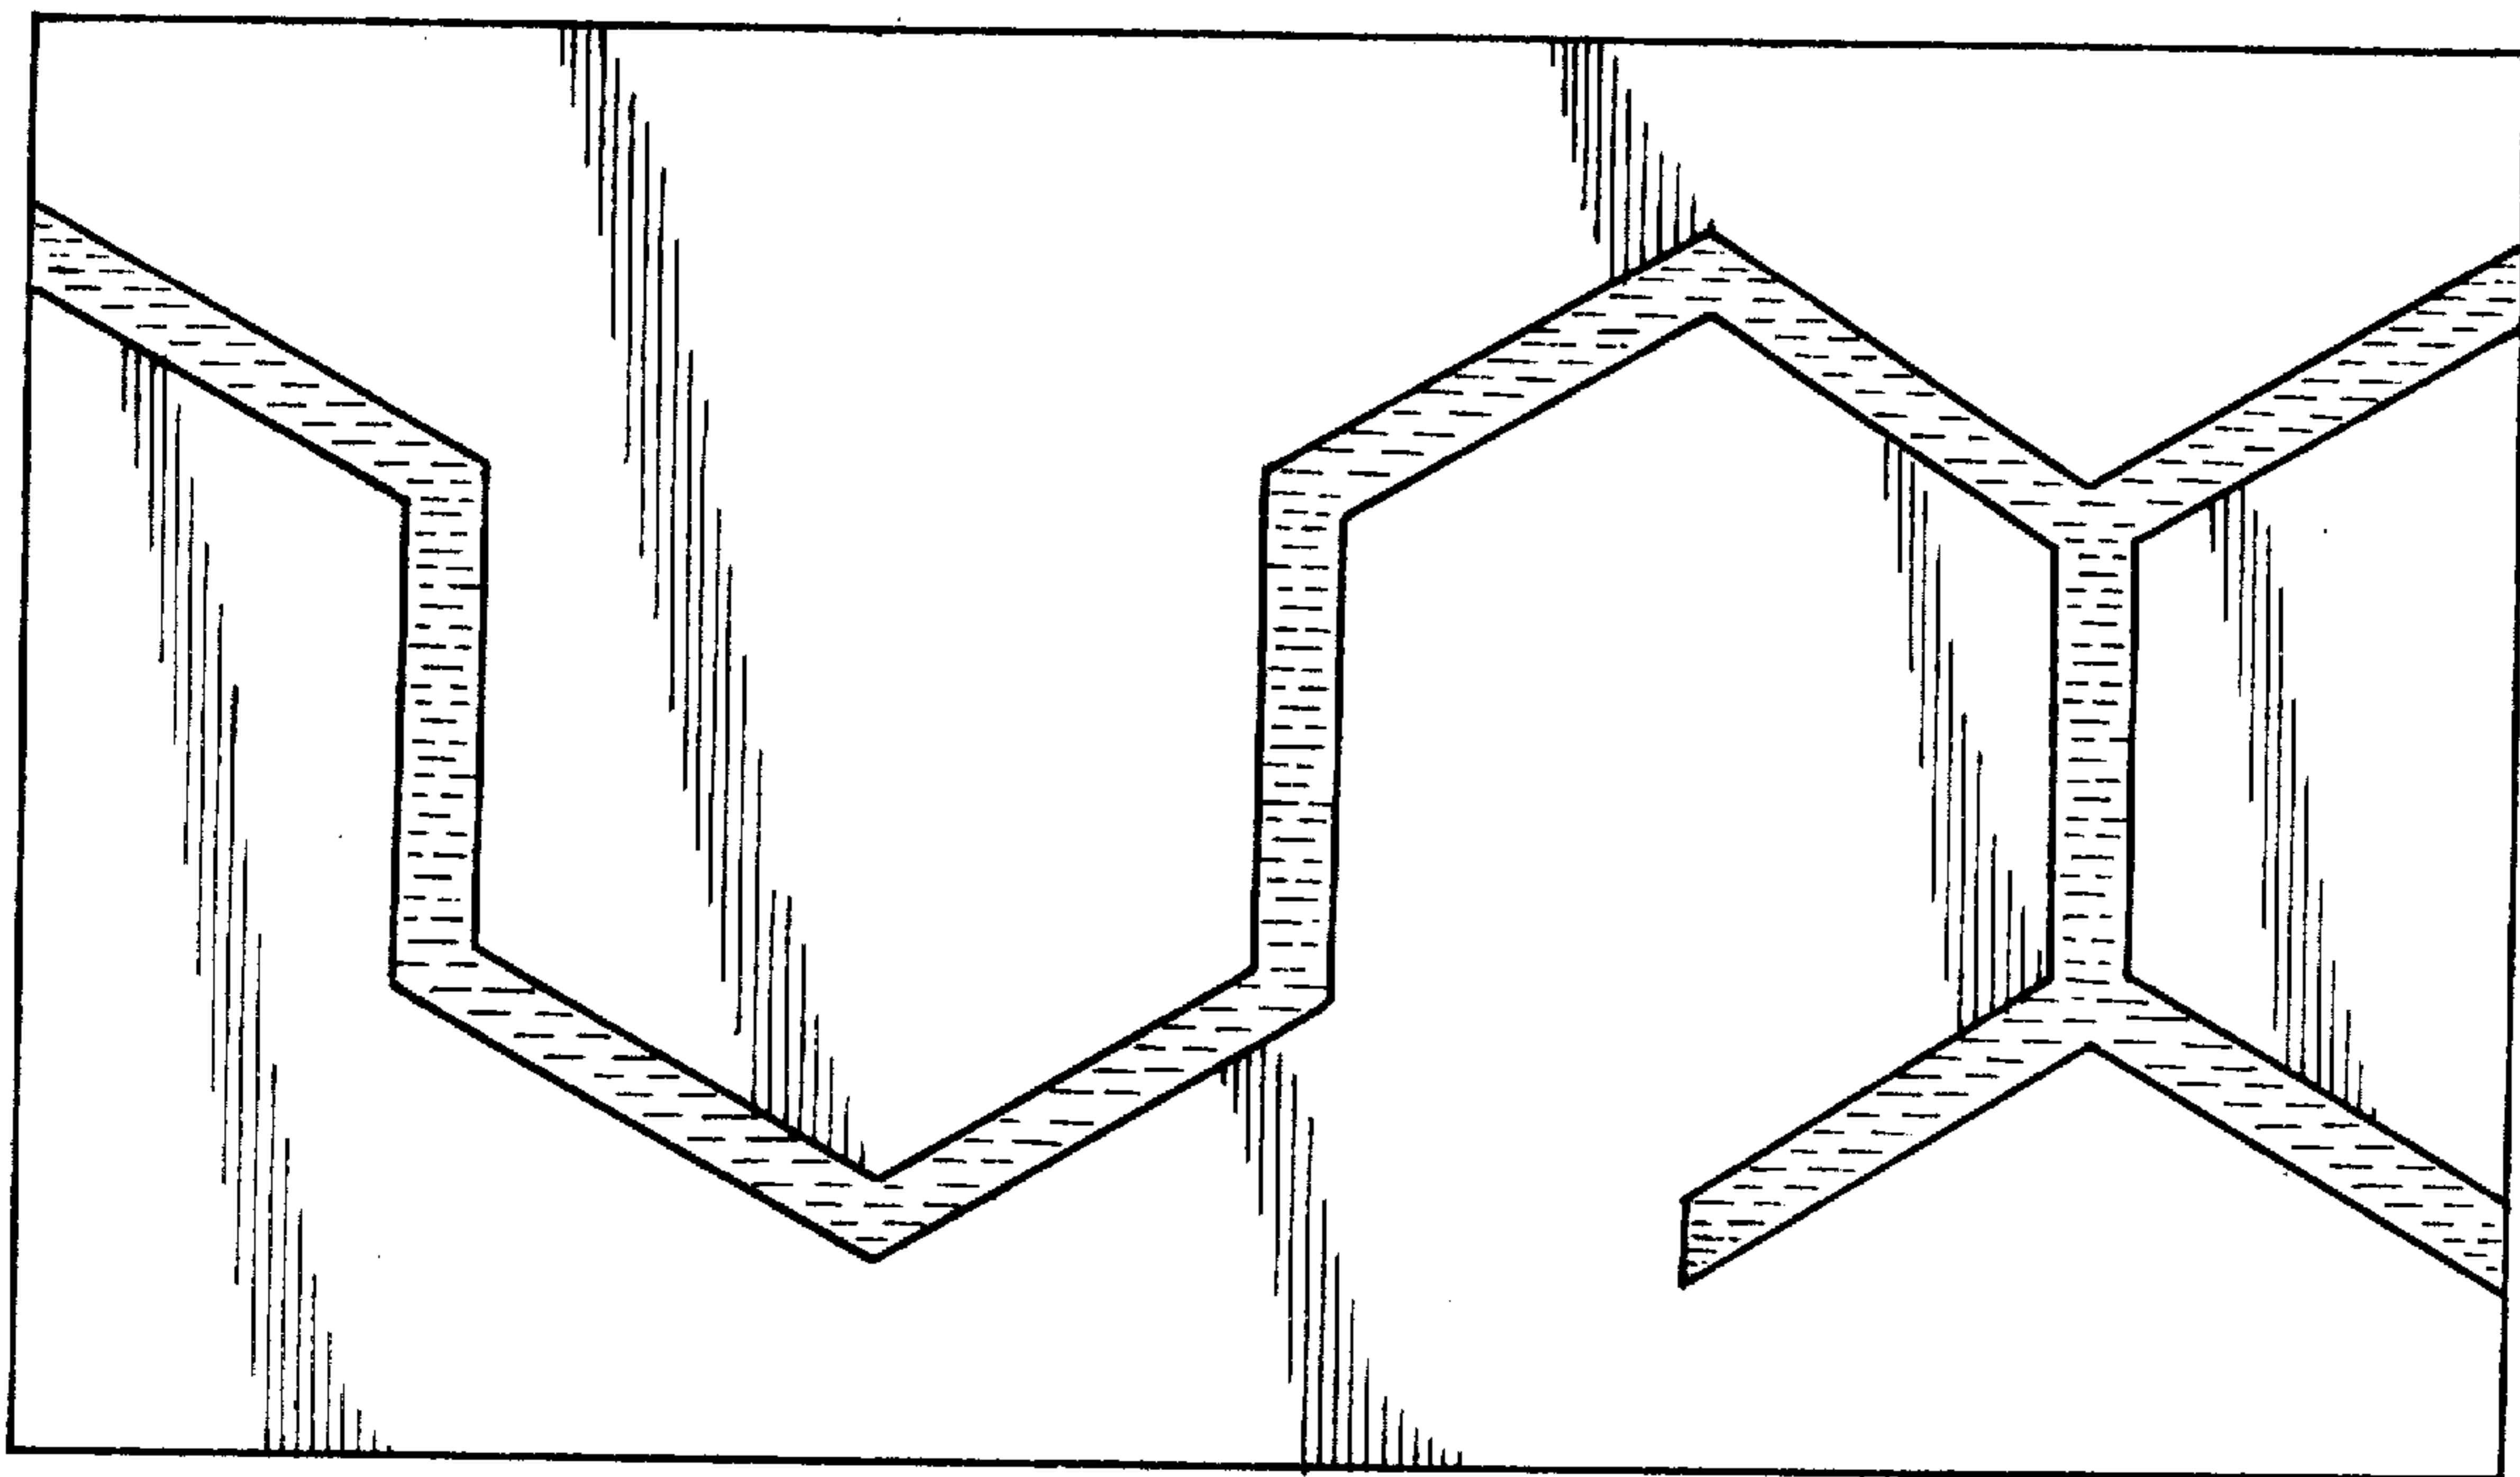

FIG. 1 is a top plan view of plastic sheet material for surfacing a wall panel or similar article showing my new design;

FIG. 2 is a top plan view of a modified form of the sheet material wherein the left center partial hexagon has four sides and the right center partial hexagon is open on the bottom left;

FIG. 3 is a top plan view of another modified form of the sheet material wherein the pattern consists of the FIG. 2 design with the three leftmost line segments omitted; and

FIG. 4 is a top plan view of a further modified form of the sheet material, a mirror image of the design of FIG. 3.

Shading contained in the drawing demonstrates contrast with a plain background, and no particular color.
