CLAIM

The ornamental design for an adjustable ventilation nozzle, as shown.

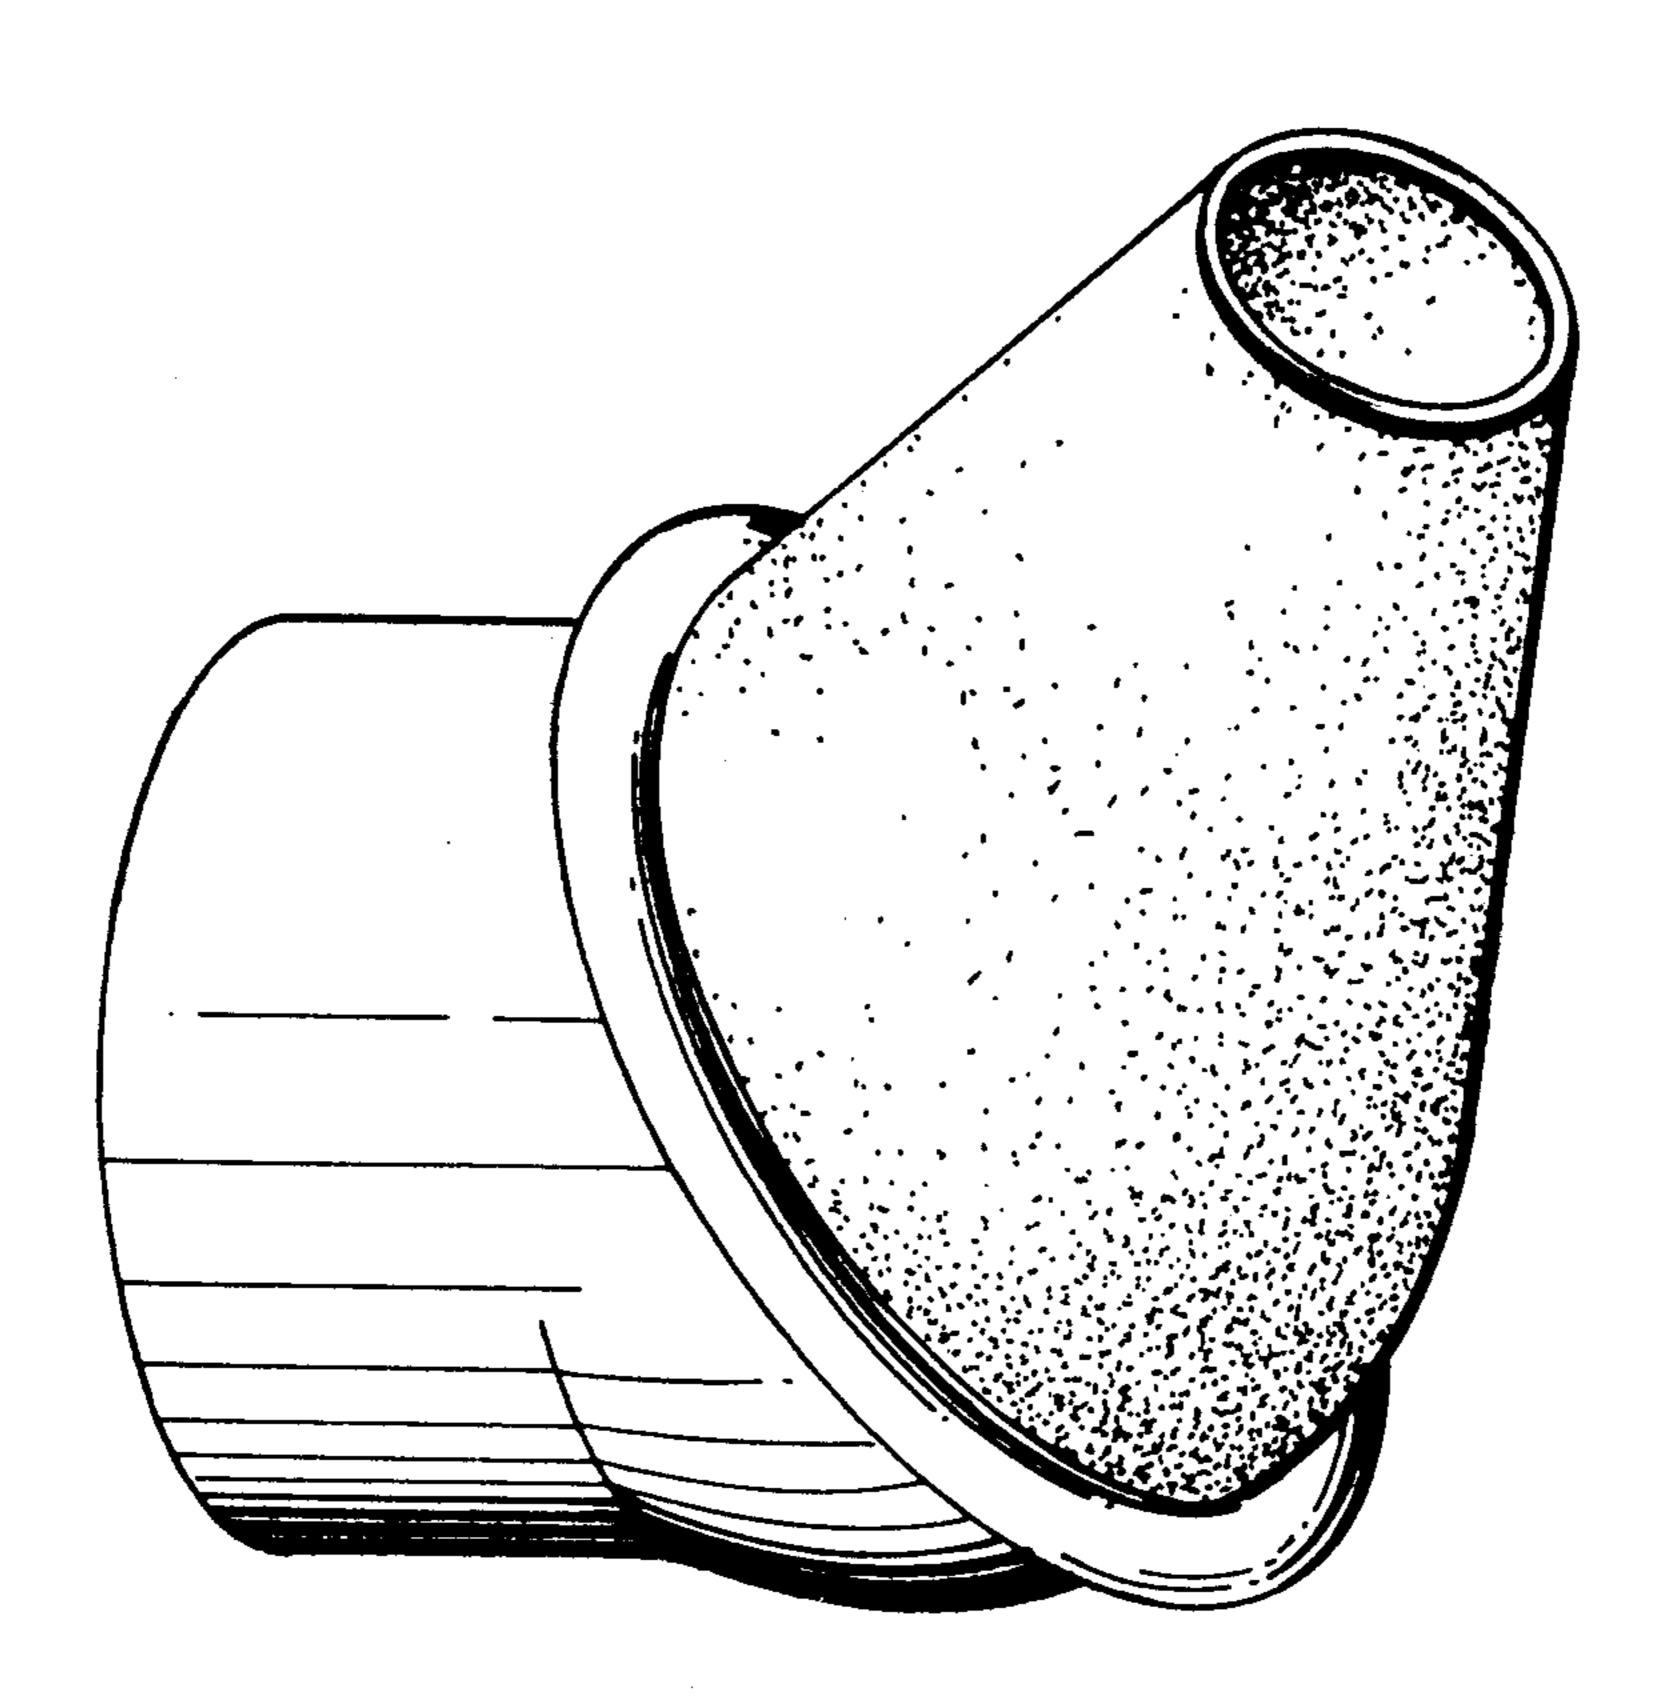

DESCRIPTION

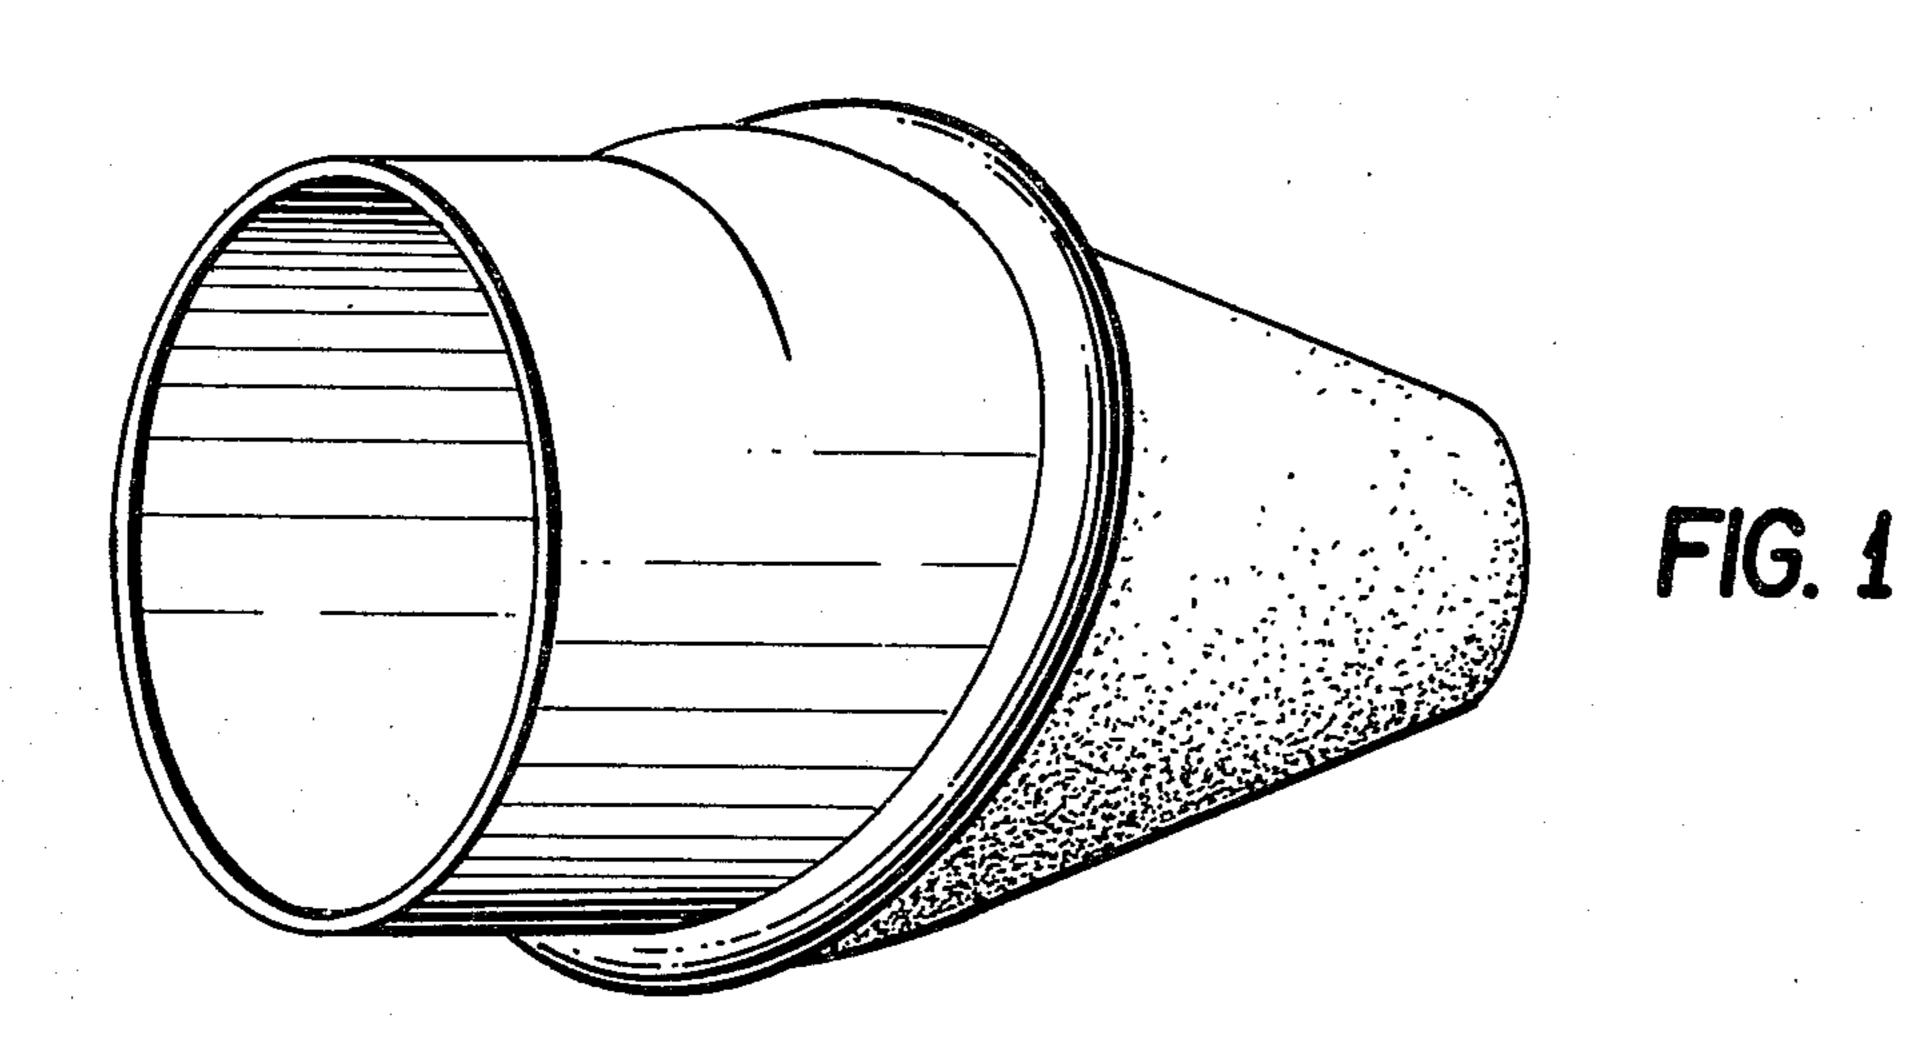

FIG. 1 is a rear perspective view of an adjustable ventilation nozzle showing my new design;

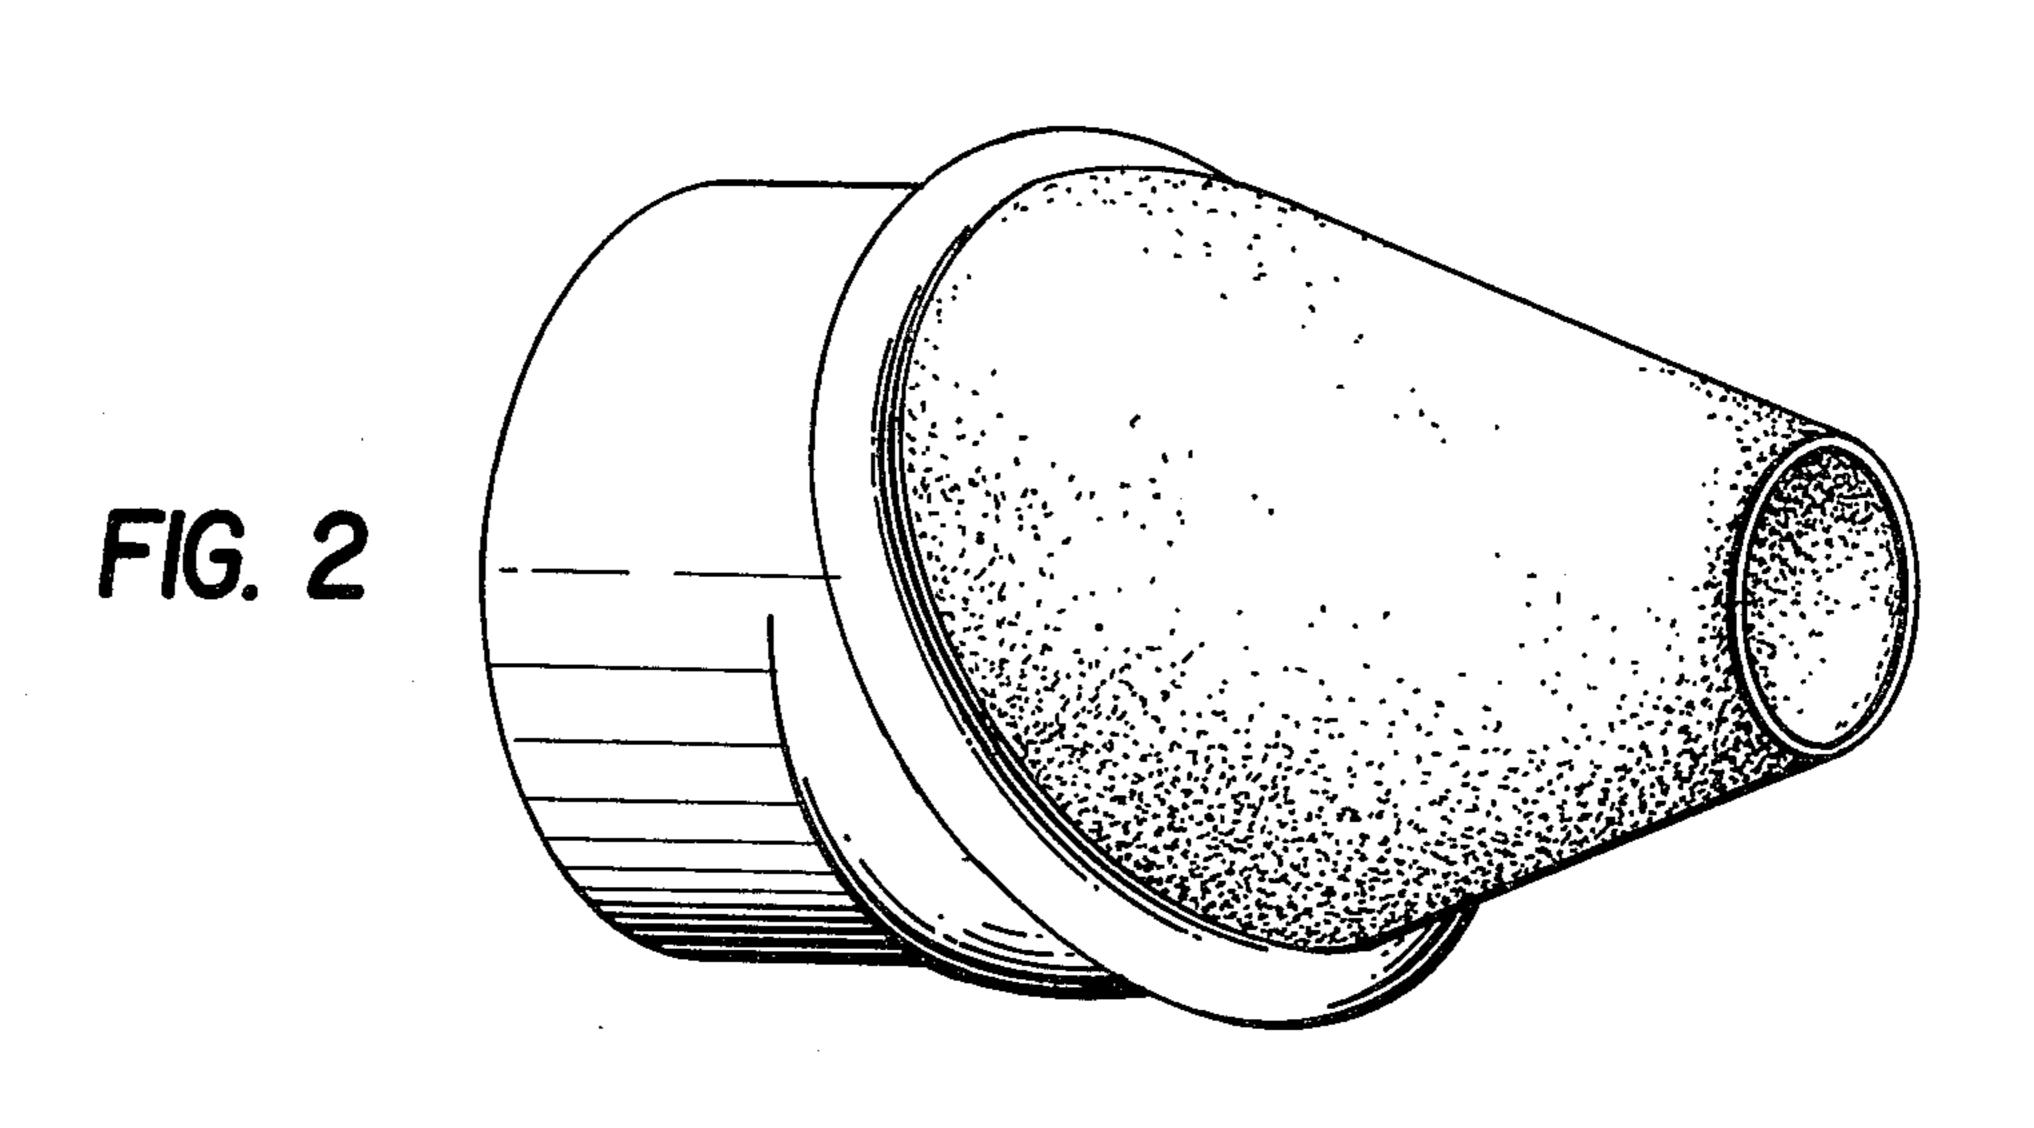

FIG. 2 is a front perspective view thereof showing the nozzle portion in a different position;

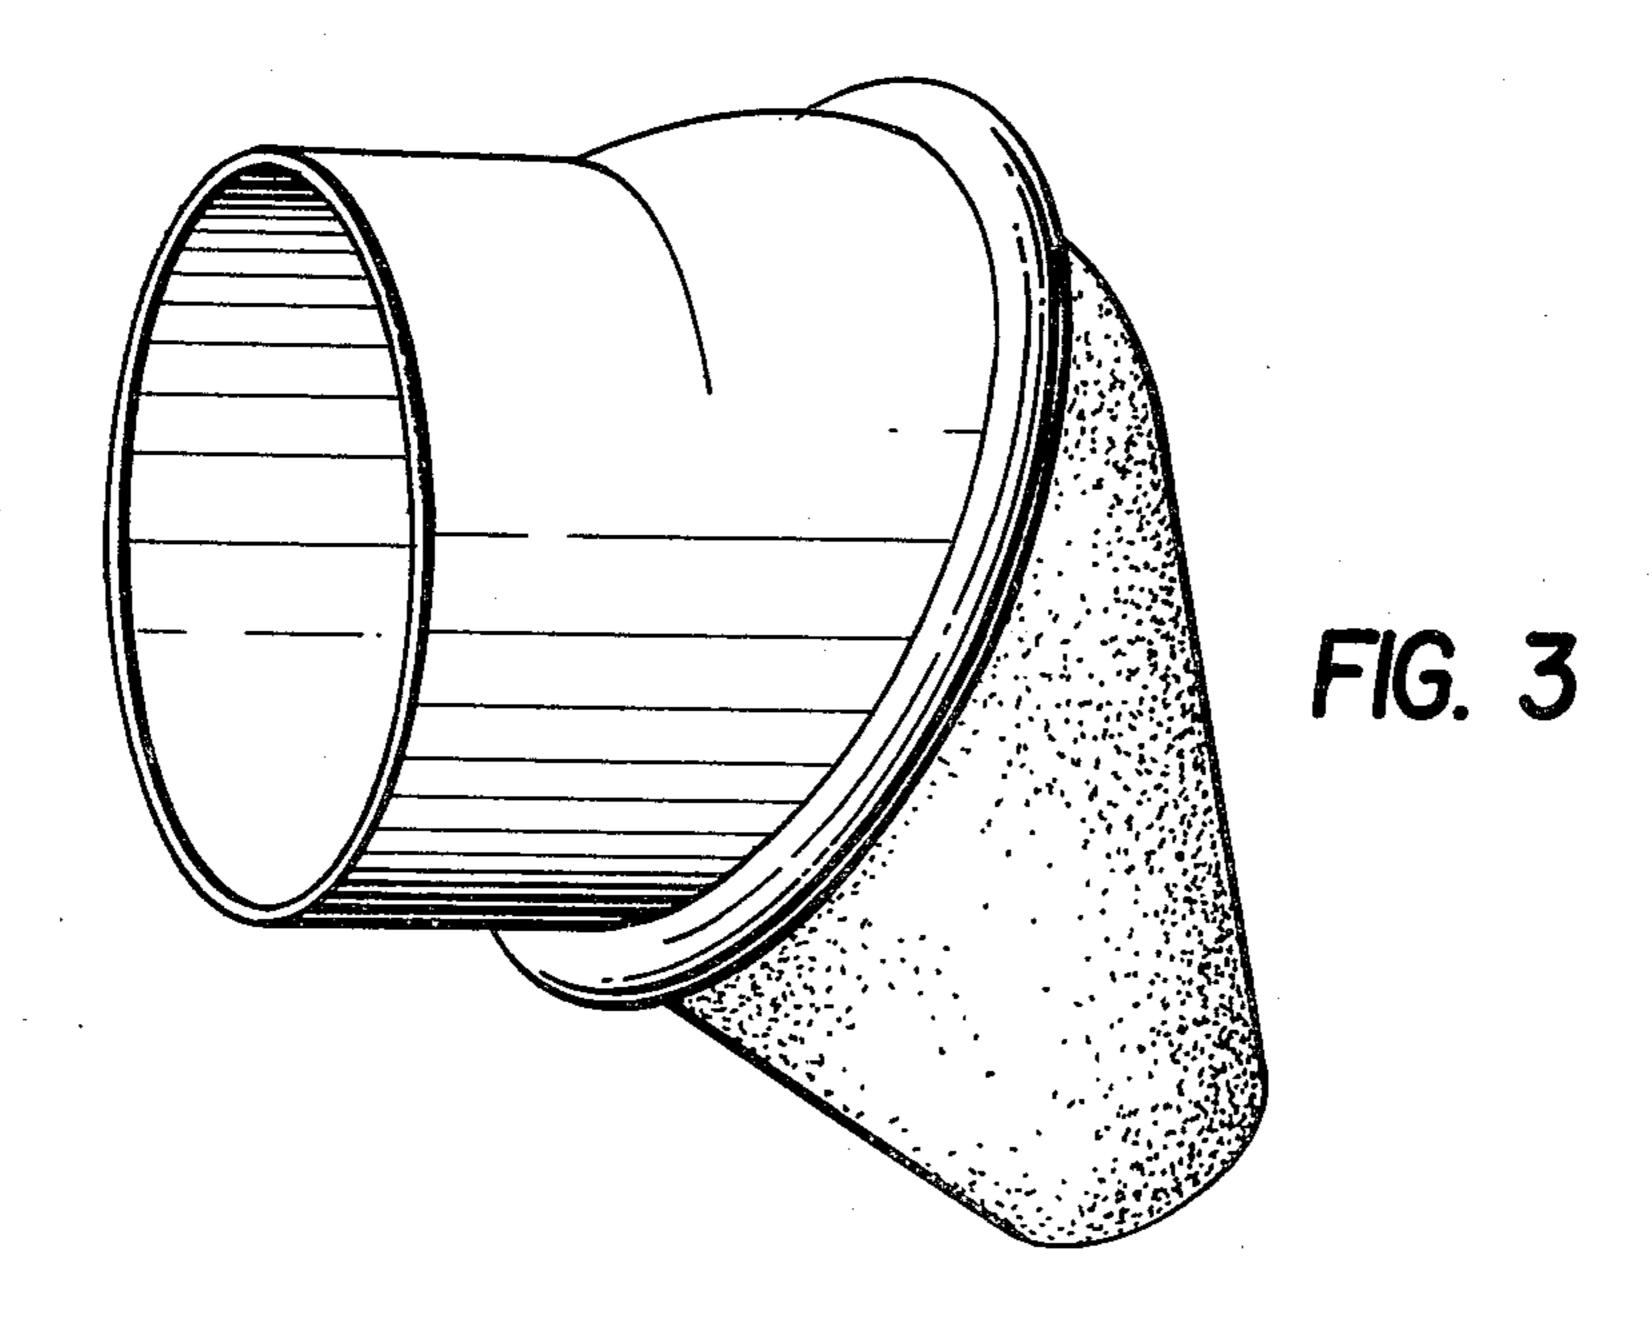

FIG. 3 is another rear perspective view thereof showing the nozzle portion in a third position; and

FIG. 4 is another front perspective view thereof show-ing the nozzle portion in a fourth position.

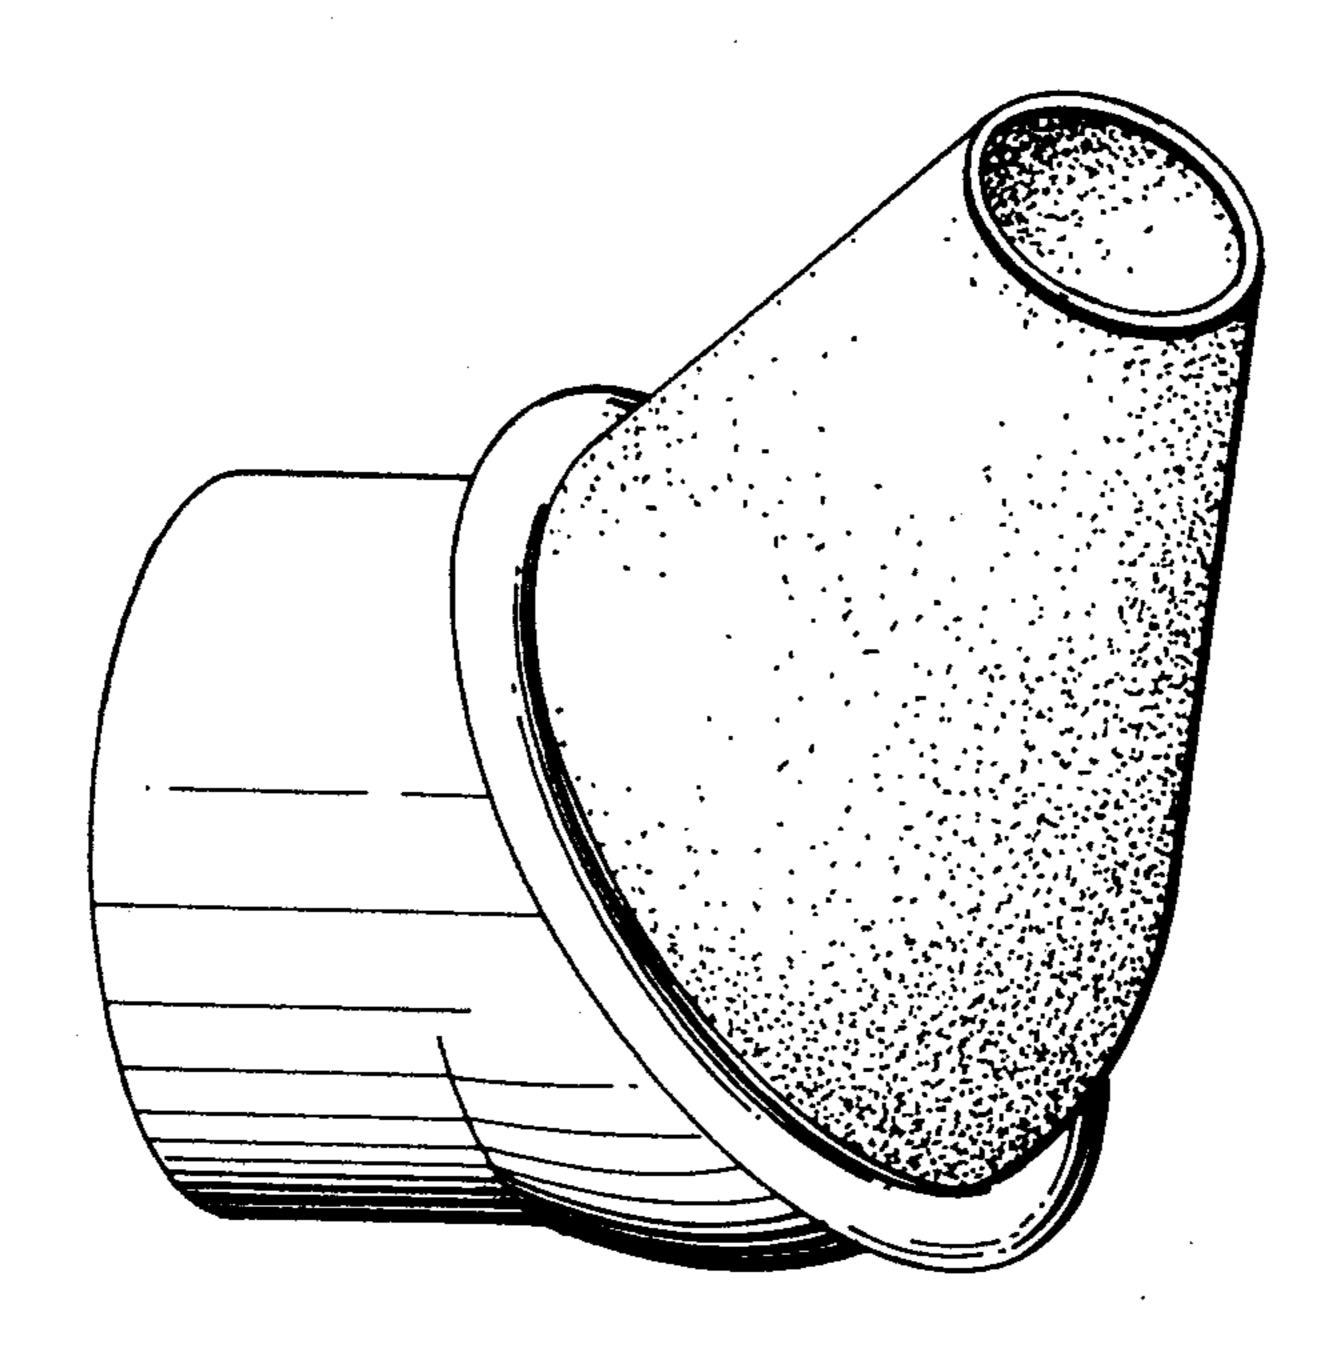

FIG. 4
