[57] CLAIM

The ornamental design for an attitude director indicator, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of an attitude director indicator showing our new design;

FIG. 2 is a typical side elevational view thereof, the broken-line showing of the instrument housing being environmental and forming no part of the claimed design.

The drawing is lined to indicate contrasting colors. The rear of the indicator not shown, is substantially plain and unornamented.
