Attorney, Agent, or Firm—Allston L. Jones; David A. Boone

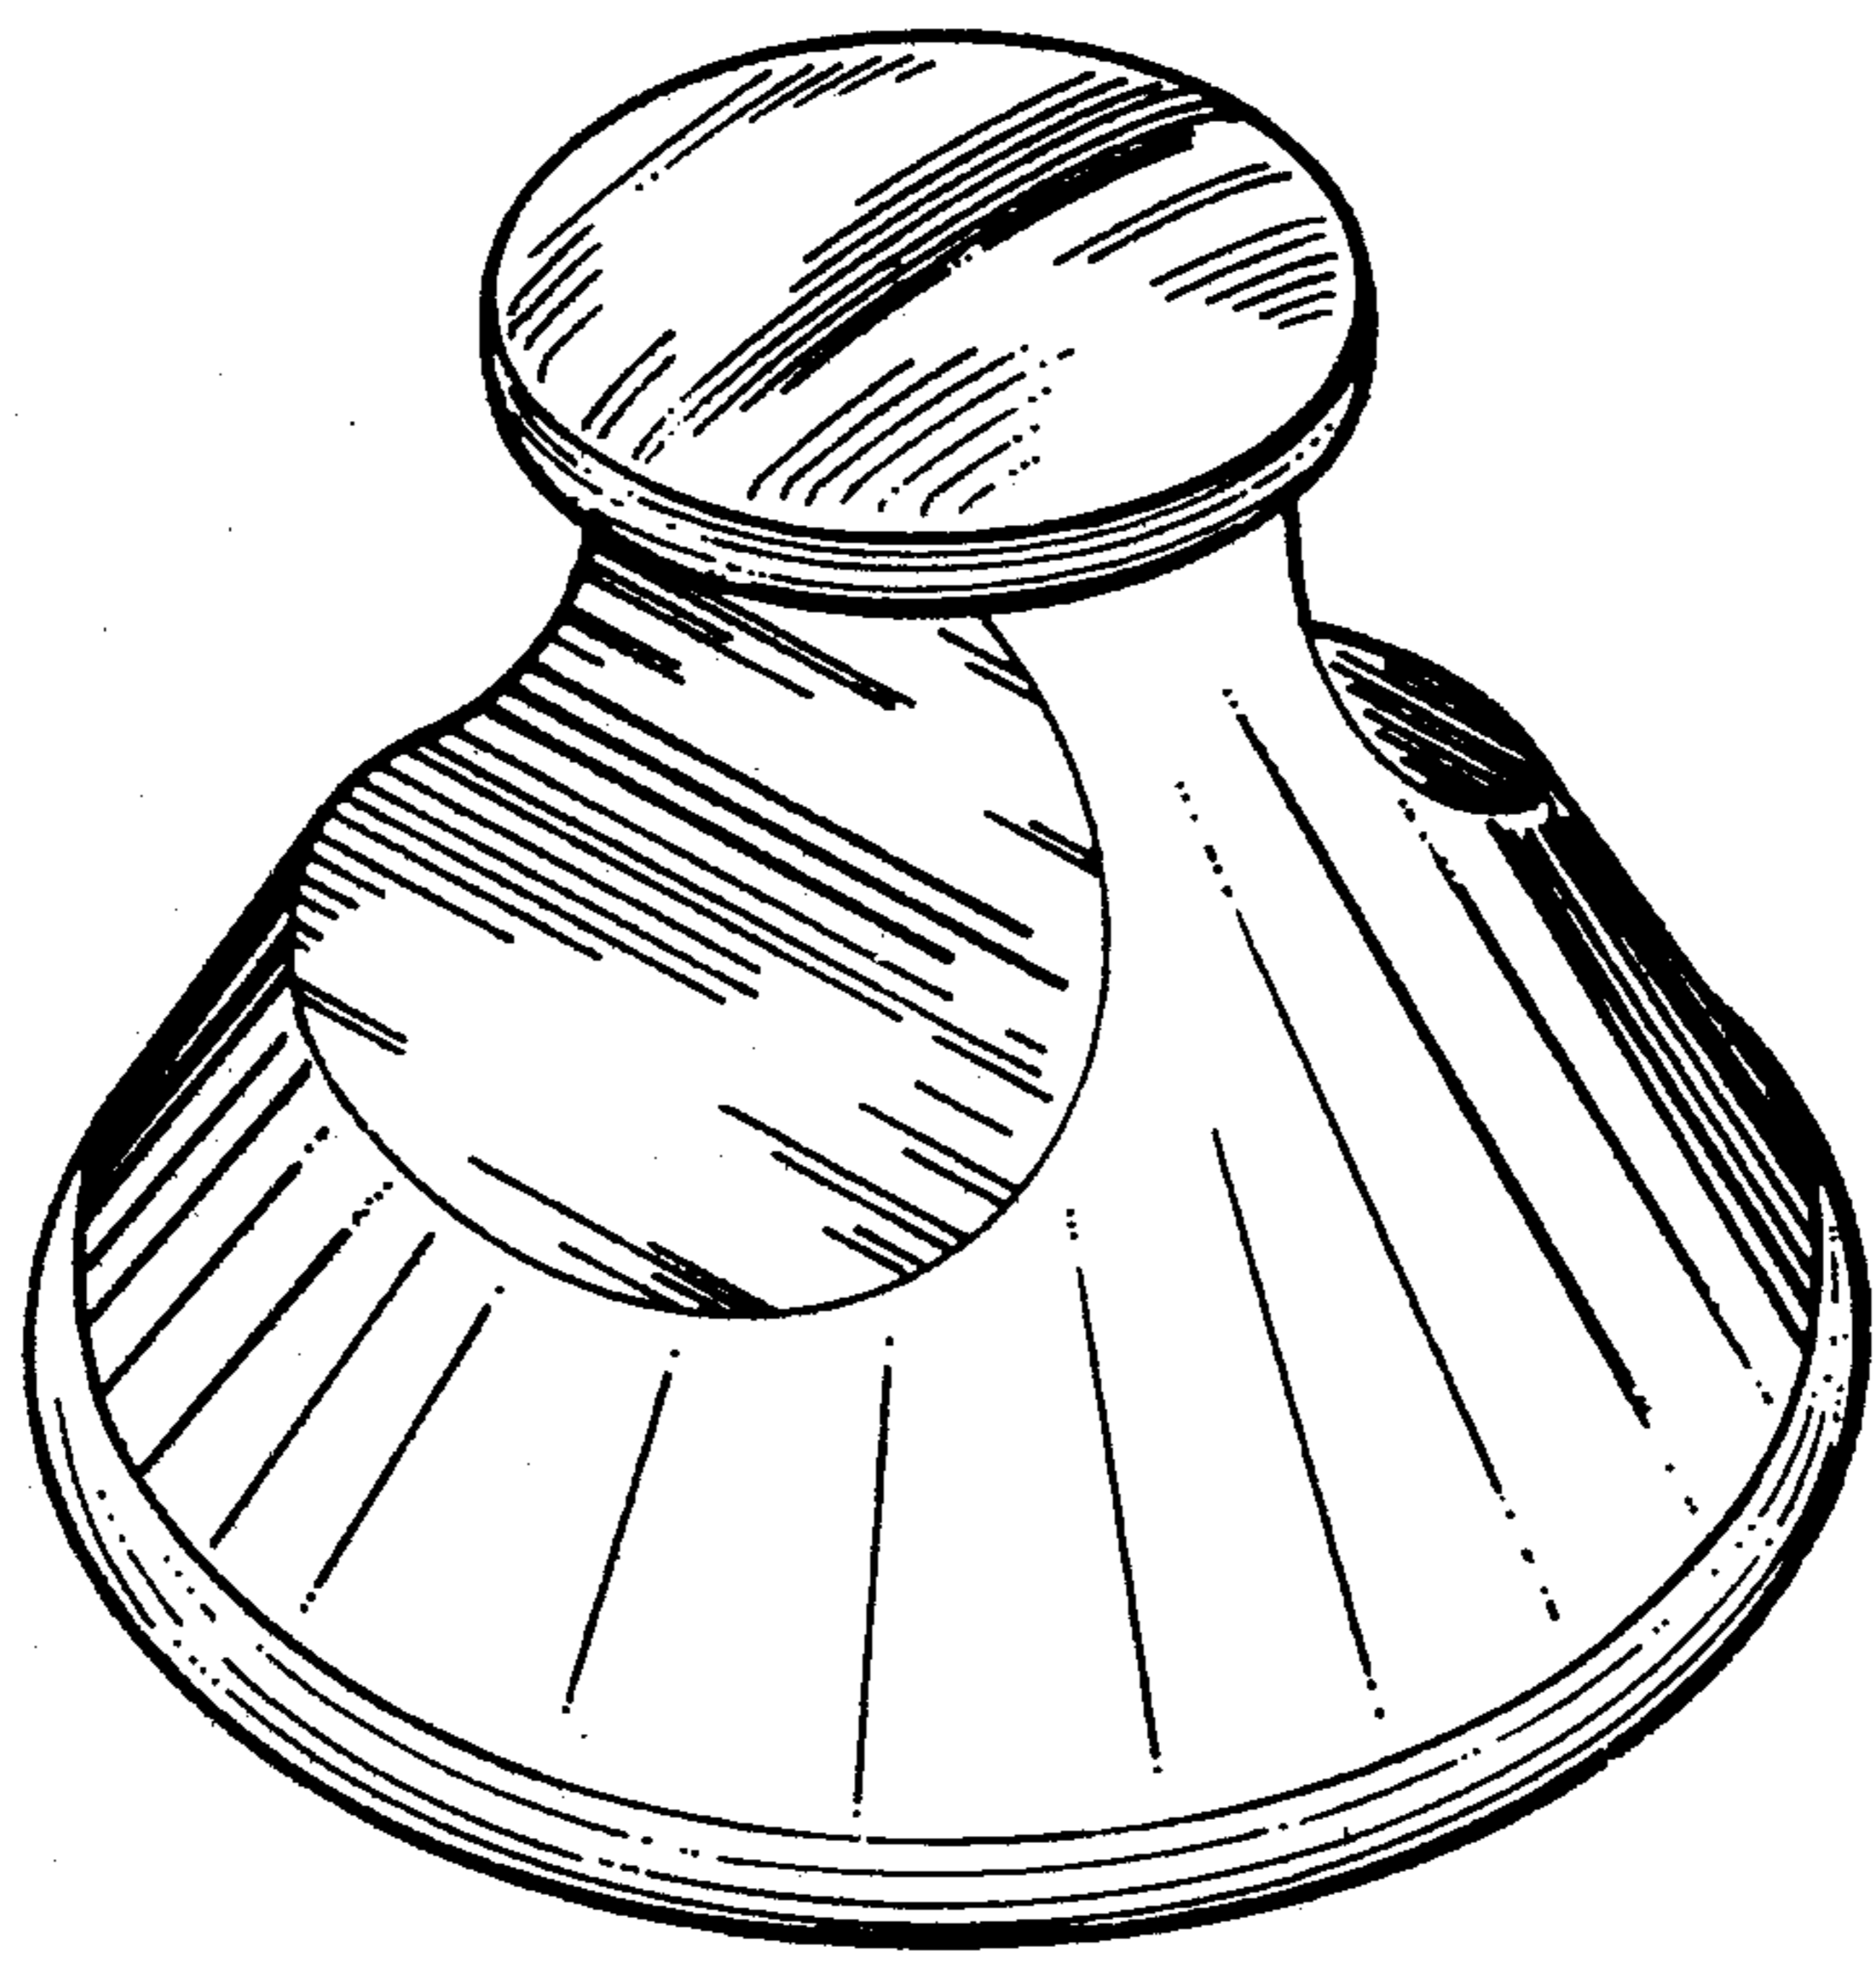

[57] CLAIM

The ornamental design for a medical appliance for percussive respiratory therapy, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the medical appliance for percussive therapy in accordance with my new design;
FIG. 2 is a side view thereof;
FIG. 3 is a top view thereof;
FIG. 4 is a bottom view thereof, it being understood that the appliance is open at the bottom and that the interior contours follow the exterior contours.
