### [57] CLAIM

The ornamental design for a handle for a winch or windlass, substantially as shown and described.

### DESCRIPTION

FIG. 1 is a perspective view of a handle for a winch or windlass showing my design;

FIG. 2 is an elevational view thereof, looking at one end axially of the shank;

FIG. 3 is an elevational view, looking at the opposite end thereof from FIG. 2;

FIG. 4 is a top plan view thereof;

FIG. 5 is a side elevational view thereof;

FIG. 6 is a bottom plan view thereof; and

FIG. 7 is an elevational view of the side opposite that shown in FIG. 5.

The characteristic features of my design reside in a button in its unlocked position having a protrusion parallel with the Crank handle and a male driving member having a square shaft.
