[57] CLAIM

The ornamental design for a compact fluorescent lamp unit, as shown and described.

DESCRIPTION

FIGS. 1 and 2 are front and side elevational views, respectively, of a compact fluorescent lamp embodying our new design;

FIGS. 3 and 4 are top and bottom plan views, respectively, thereof;

FIGS. 5 and 6 are front and side elevational views, respectively, of a first modification of our new design;

FIGS. 7 and 8 are top and bottom plan views, respectively, of the first modification;

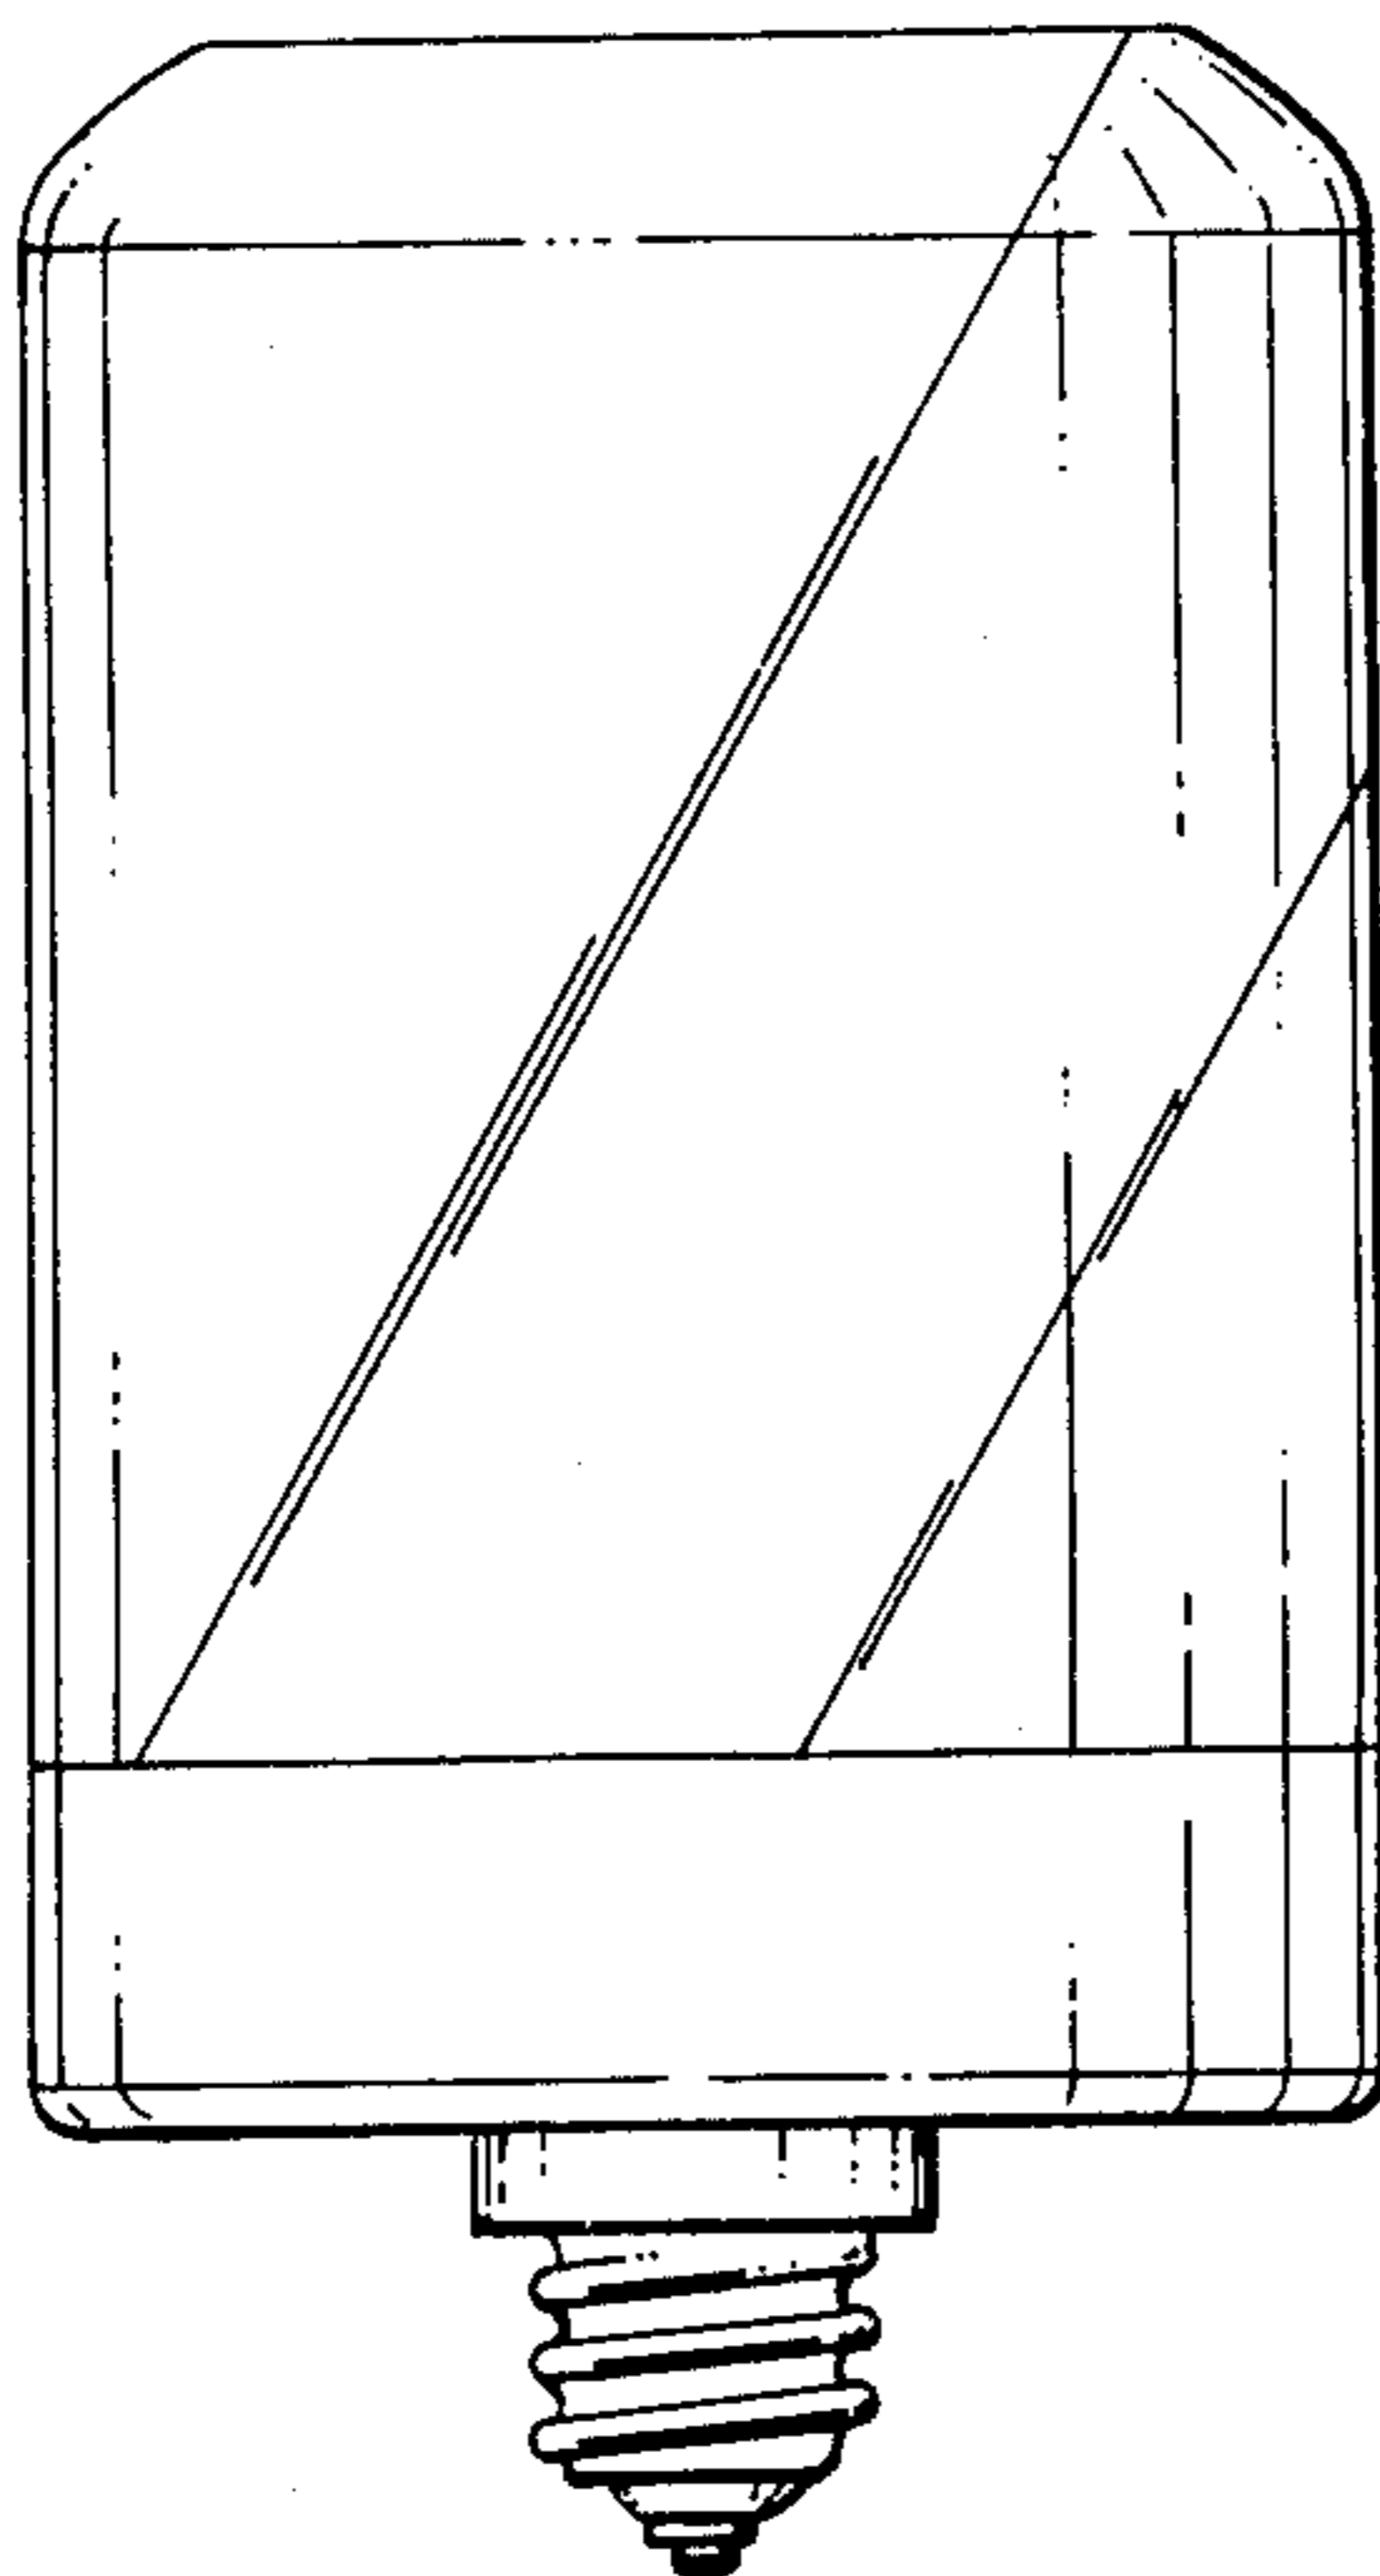

FIGS. 9 and 10 are front and side elevational views, respectively, of a second modification of our new design;

FIGS. 11 and 12 are top and bottom plan views, respectively, of the second modification;

FIGS. 13 and 14 are front and side elevational views, respectively, of a third modification of our new design; and

FIGS. 15 and 16 are top and bottom plan views, respectively, of the third modification.

The sides of the cover components that comprise the top portions of the various embodiments of our new design and are not shown in the drawing are identical to those which are shown in the elevational views of the respective embodiments.
