[57] CLAIM

The ornamental design for an electrooptic display for blood pressure device, as shown and described.

DESCRIPTION

FIG. 1 is a top plan view of an electrooptic display for blood pressure device showing my new design in an unenergized condition.

FIG. 2 is a front elevational view thereof;

FIG. 3 is a right side elevation view thereof, the left side being a substantially mirror image thereof;

FIG. 4 is a bottom plan view thereof; and

FIG. 5 is a top plan view thereof, in a representative energized condition displaying blood pressure as 120/80 and displaying a "cuff deflate" symbol.

FIG. 1

FIG. 3

FIG. 2

FIG. 4

FIG. 5
