[57] CLAIM

The ornamental design for a handset telephone instrument, substantially as shown and described.

DESCRIPTION

FIG. 1 is a front top perspective view of a handset telephone instrument wherein our new design is embodied in the housing of the instrument;

FIG. 2 is a rear bottom perspective view thereof;

FIG. 3 is a side elevational view thereof, the opposite side view being a mirror image thereof;

FIG. 4 is a top front perspective view thereof where our new design is embodied in a cordless handset telephone instrument;

FIG. 5 is a rear bottom view of the design as shown in FIG. 4; and

FIG. 6 is a side view thereof, the opposite side view being substantially a mirror image.

FIG. 1

FIG. 2

FIG. 3

FIG. 6

FIG. 4

FIG. 5
