[57] **CLAIM**

The ornamental design for a shoe sole, as shown and described.

DESCRIPTION

FIG. 1 is a bottom plan view of a shoe sole showing my new design, the top being flat, plain and unornamented; FIG. 2 is a cross-sectional view thereof as taken from line 2-2 of FIG. 1.

The dominant feature of this design is the smooth bottom surface of the shoe sole with laterally and longitudinally spaced cruciform or crossed slits, the sections formed between the slits being in contact when the sole is at rest.
