[57] CLAIM

The ornamental design for a magnetic fluid conditioner, substantially as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a magnetic fluid conditioner showing our new design;
FIG. 2 is a top plan view thereof;
FIG. 3 is a bottom plan view thereof;
FIG. 4 is an elevational view taken from one end thereof, the opposite end being the same as the end shown;
FIG. 5 is an elevational view taken from one side thereof, the opposite side being the same as the side shown; and
FIG. 6 is a reduced scale end elevational view thereof. The broken line representation of another magnetic fluid conditioner, a flexible strap and a pipe in FIG. 6 are for purposes of illustration only.
