[57] CLAIM

The ornamental design for a periscopic remote illuminator, substantially as shown and described.

DESCRIPTION

FIG. 1 is a pictorial view as seen from a point which is above and to one side of the point beyond one end of my new design for a periscopic remote illuminator. A mirror image of this view would be seen from a like point on the opposite side of my design.

FIG. 2 is a bottom view of my new design.

FIG. 3 is an end view taken along line 3—3 of FIG. 2.

FIG. 4 is an end view taken along line 4—4 of FIG. 2.

FIG. 5 is a fragmentary side elevational view of my new design particularly illustrating one end region of it.
