[57] **CLAIM**

The ornamental design for a teat implant, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a teat implant showing my new design;
FIG. 2 is a front elevational view thereof, the rear elevational view being a mirror image thereof;
FIG. 3 is a side view of the right side thereof, the left side being identical thereto;
FIG. 4 is a top view thereof; and
FIG. 5 is a bottom view thereof.
The teat implant is a plastic member having struts attached to rings. Alternate struts are coated with different metals, such as silver and gold.
