[57] CLAIM

The ornamental design for a disk drive front panel or similar article, substantially as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a disk drive front panel or similar article showing my new design; FIG. 2 is a plan view thereof from the top; FIG. 3 is a plan view thereof from the bottom; FIG. 4 is an elevational view thereof from the rear; FIG. 5 is an elevational view thereof from the left side; FIG. 6 is an elevational view thereof from the right side; FIG. 7 is a perspective view of the disk drive front panel of FIGS. 1-6 showing the panel's interlocking knob in its unlocked position, and also showing in phantom line a disk about to be inserted; and FIG. 8 is a second perspective view generally similar to FIG. 7 but showing the interlocking knob rotated to its locked position, and also showing in phantom line the disk already inserted.
