### [57] CLAIM

The ornamental design for a magnetic tape transport, substantially as shown and described.

### DESCRIPTION

FIG. 1 is a front, top and right side perspective view of a magnetic tape transport showing my new design, the forward half of the right side being a mirror image of the rearward half of the right side, the left side being a mirror image of the right side, and the back and under-side being conventionally plain; and FIG. 2 is a top plan view.
