[57] **CLAIM**

The ornamental design for a grounding wire clamp, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a grounding wire clamp showing my new design thereof;
FIG. 2 is a top plan view thereof;
FIG. 3 is a front elevational view thereof;
FIG. 4 is a rear elevational view thereof;
FIG. 5 is a right side elevational view thereof, the left side elevational view being generally a mirror image thereof; and
FIG. 6 is a bottom plan view thereof.
The characteristic feature of my design resides in the V-shaped configuration of the lower arm, the inner section of which gradually increases in cross-sectional height towards the circular wire retaining cavity.
