[57] CLAIM

The ornamental design for a communication apparatus enclosure, substantially as shown and described.

DESCRIPTION

FIG. 1 is a front, top and side perspective view of a communication apparatus enclosure including a front cover showing our new design;

FIG. 2 is a similar front, top, and side perspective view thereof with the front cover removed, thereby revealing interior details shown in broken lines for environmental associational purposes only;

FIG. 3 is a front elevational view of the enclosure as shown in FIG. 2 without the front cover;

FIG. 4 is a top plan view thereof;

FIG. 5 is a side elevational view thereof, the side opposite to it being a mirror view of the side shown;

FIG. 6 is a front elevational view of the front cover shown in FIG. 1; and

FIG. 7 is a side elevational view of the front cover, the opposite side view being a mirror view of the side shown.

The cover is shown separated from the enclosure in FIGS. 6 and 7, and the enclosure is shown without the cover in FIGS. 2, 3 and 5, for ease of illustration.

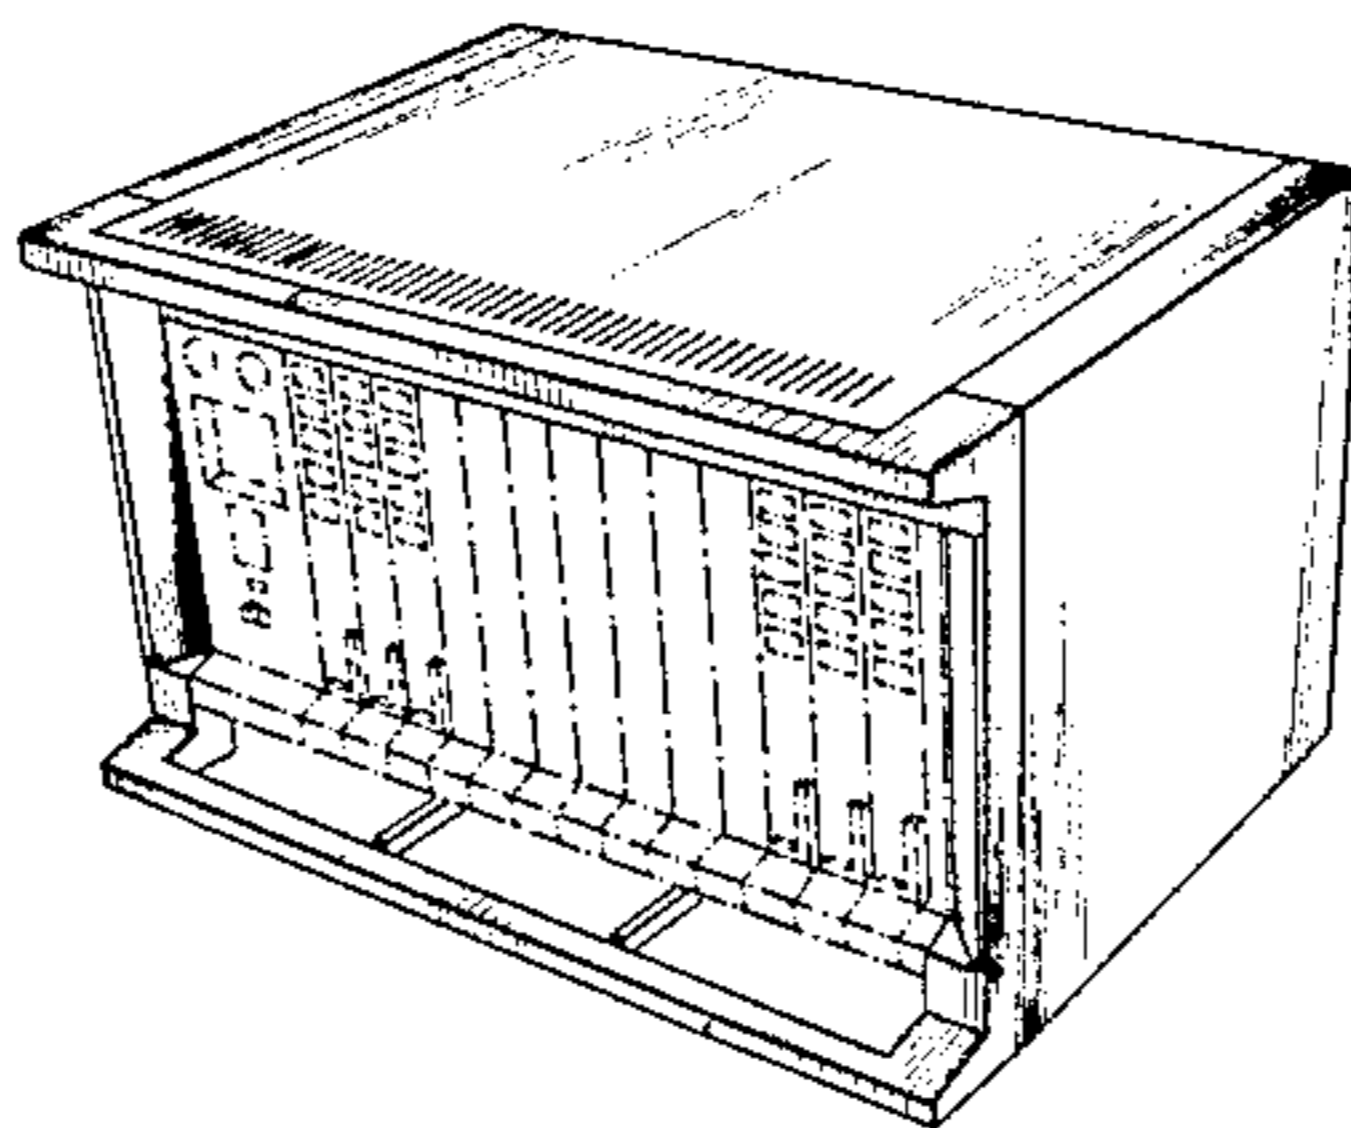

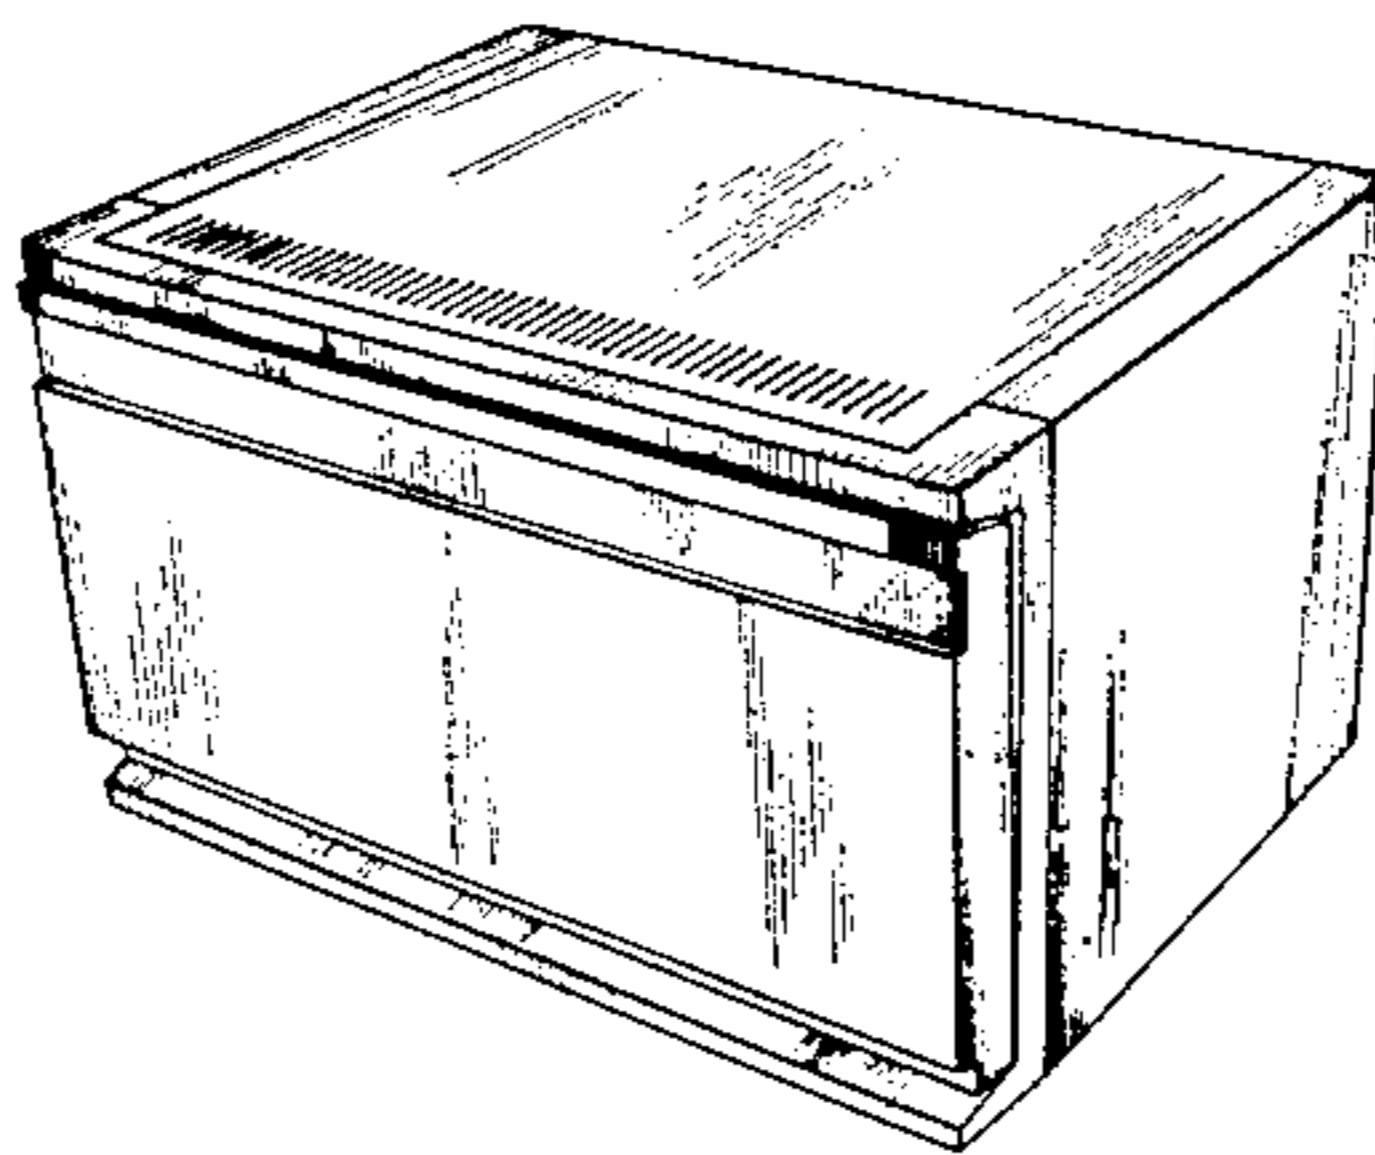

FIG. 1

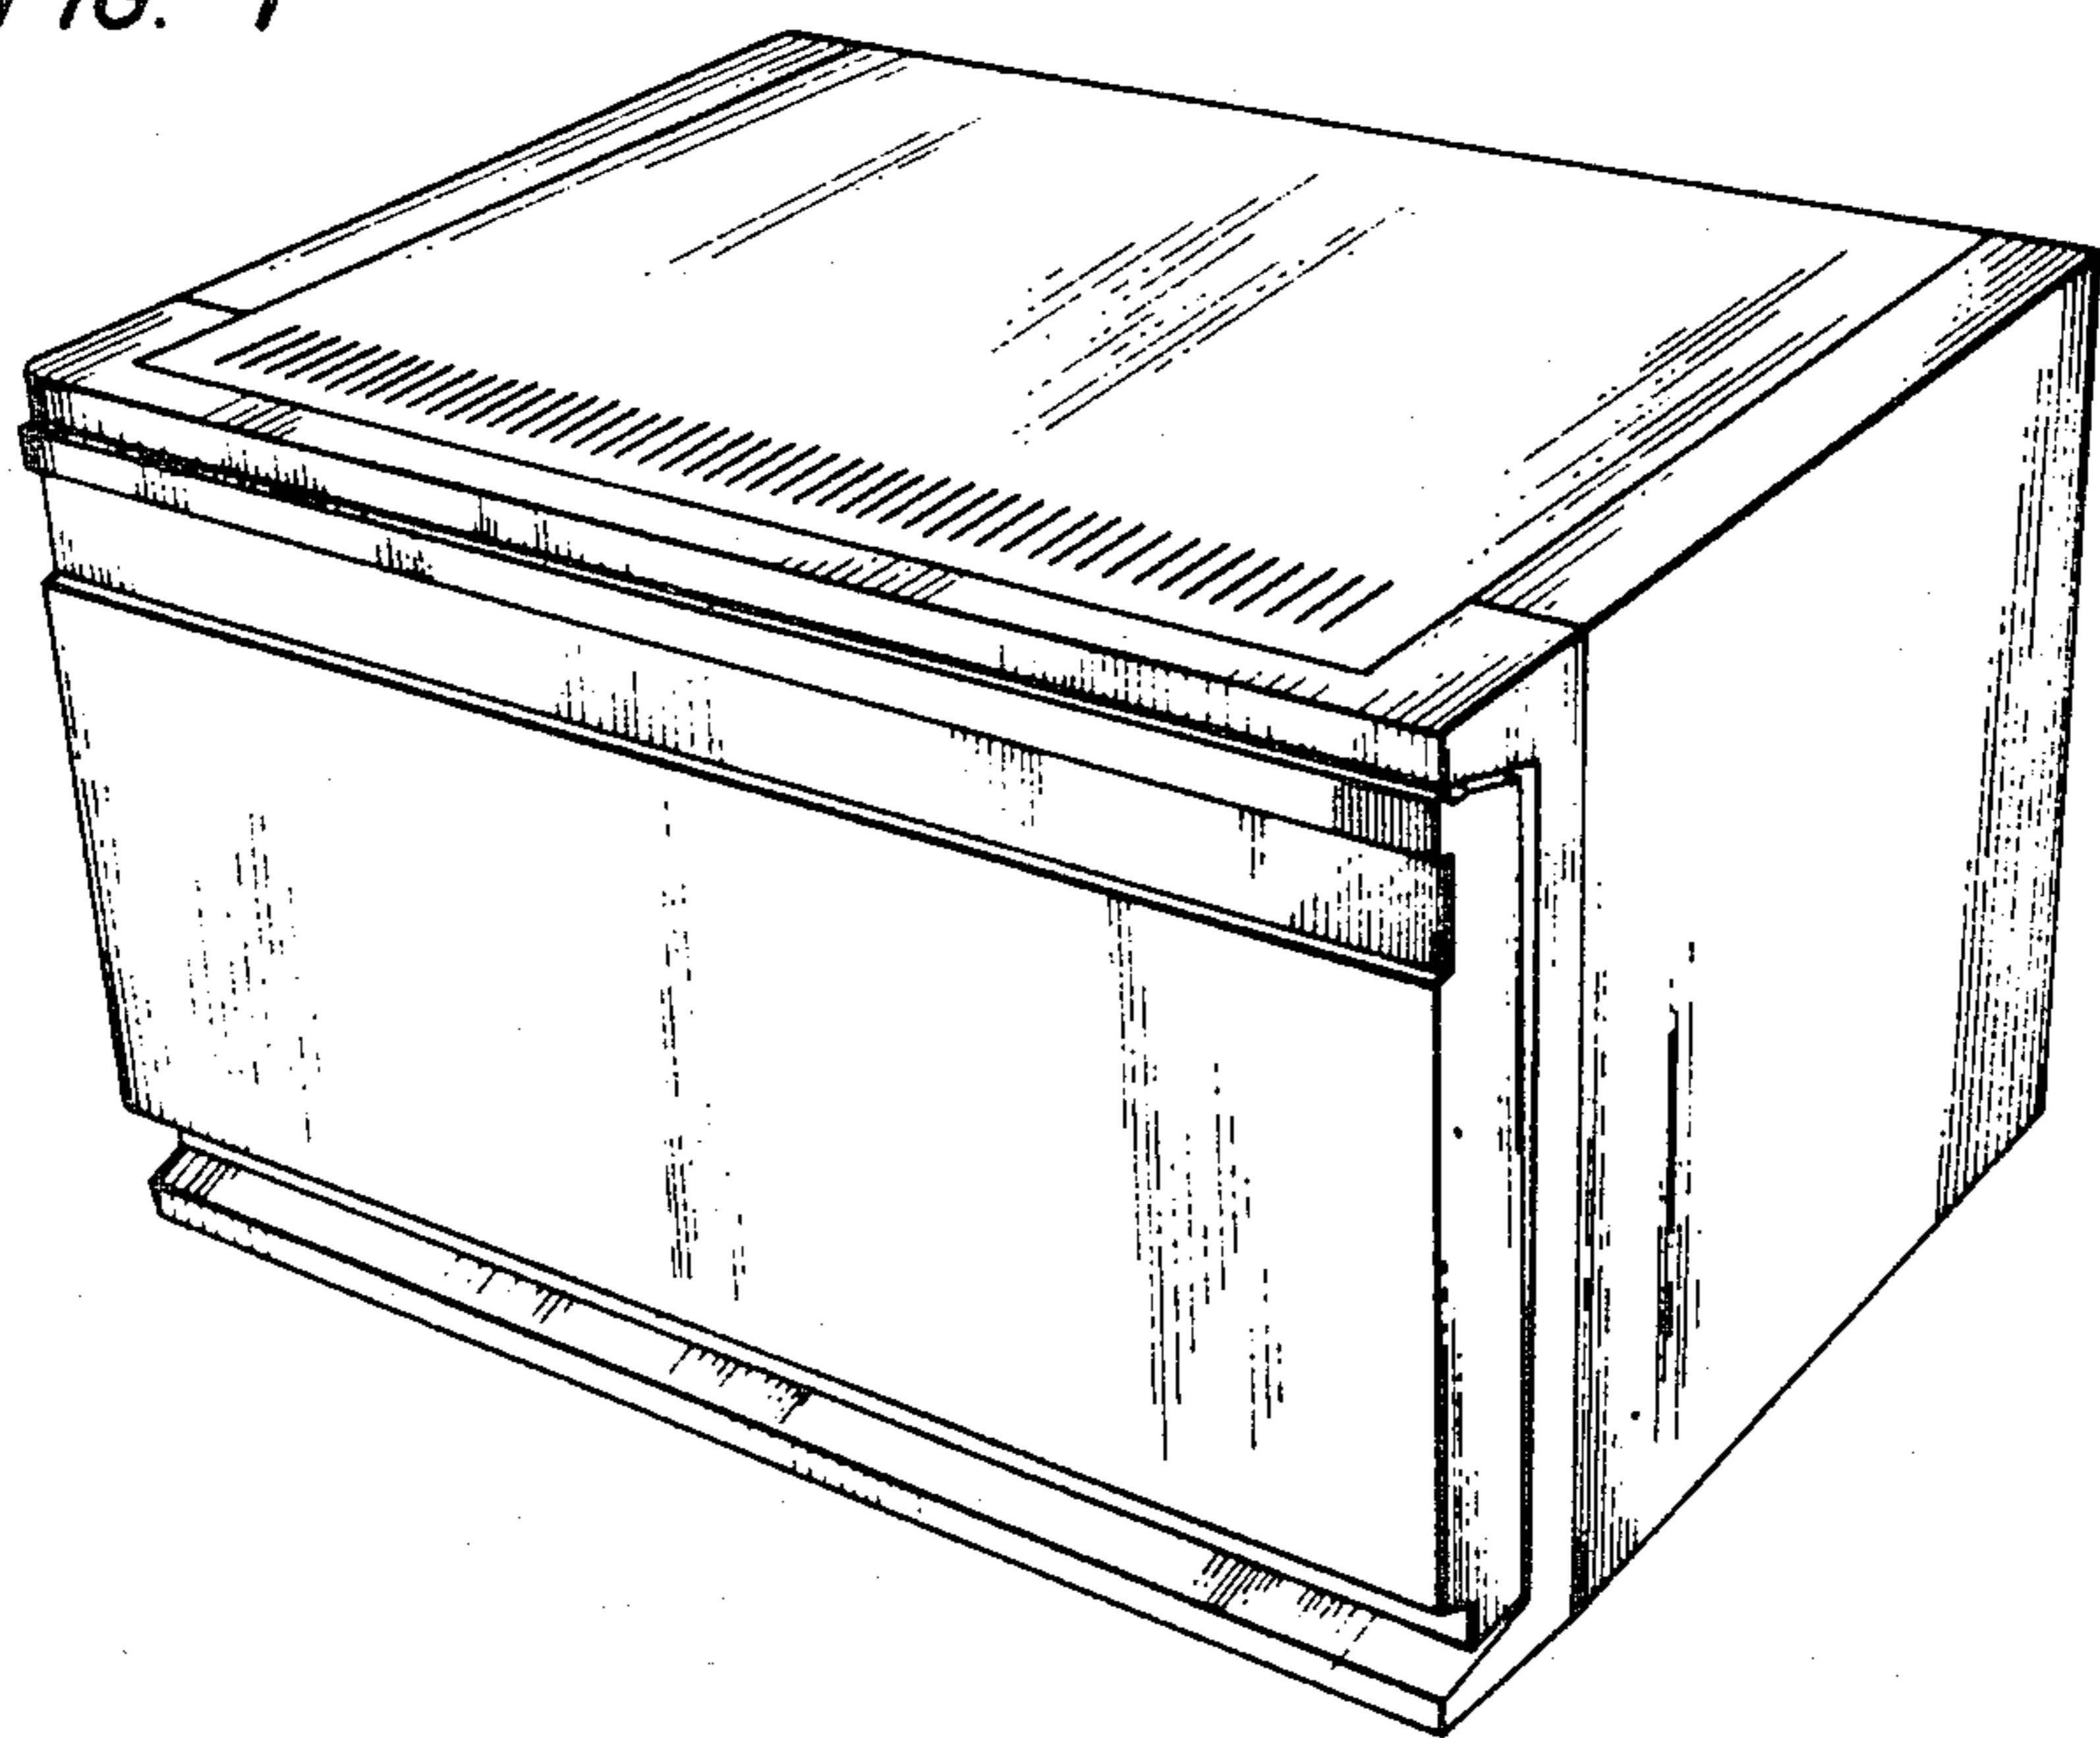

FIG. 2

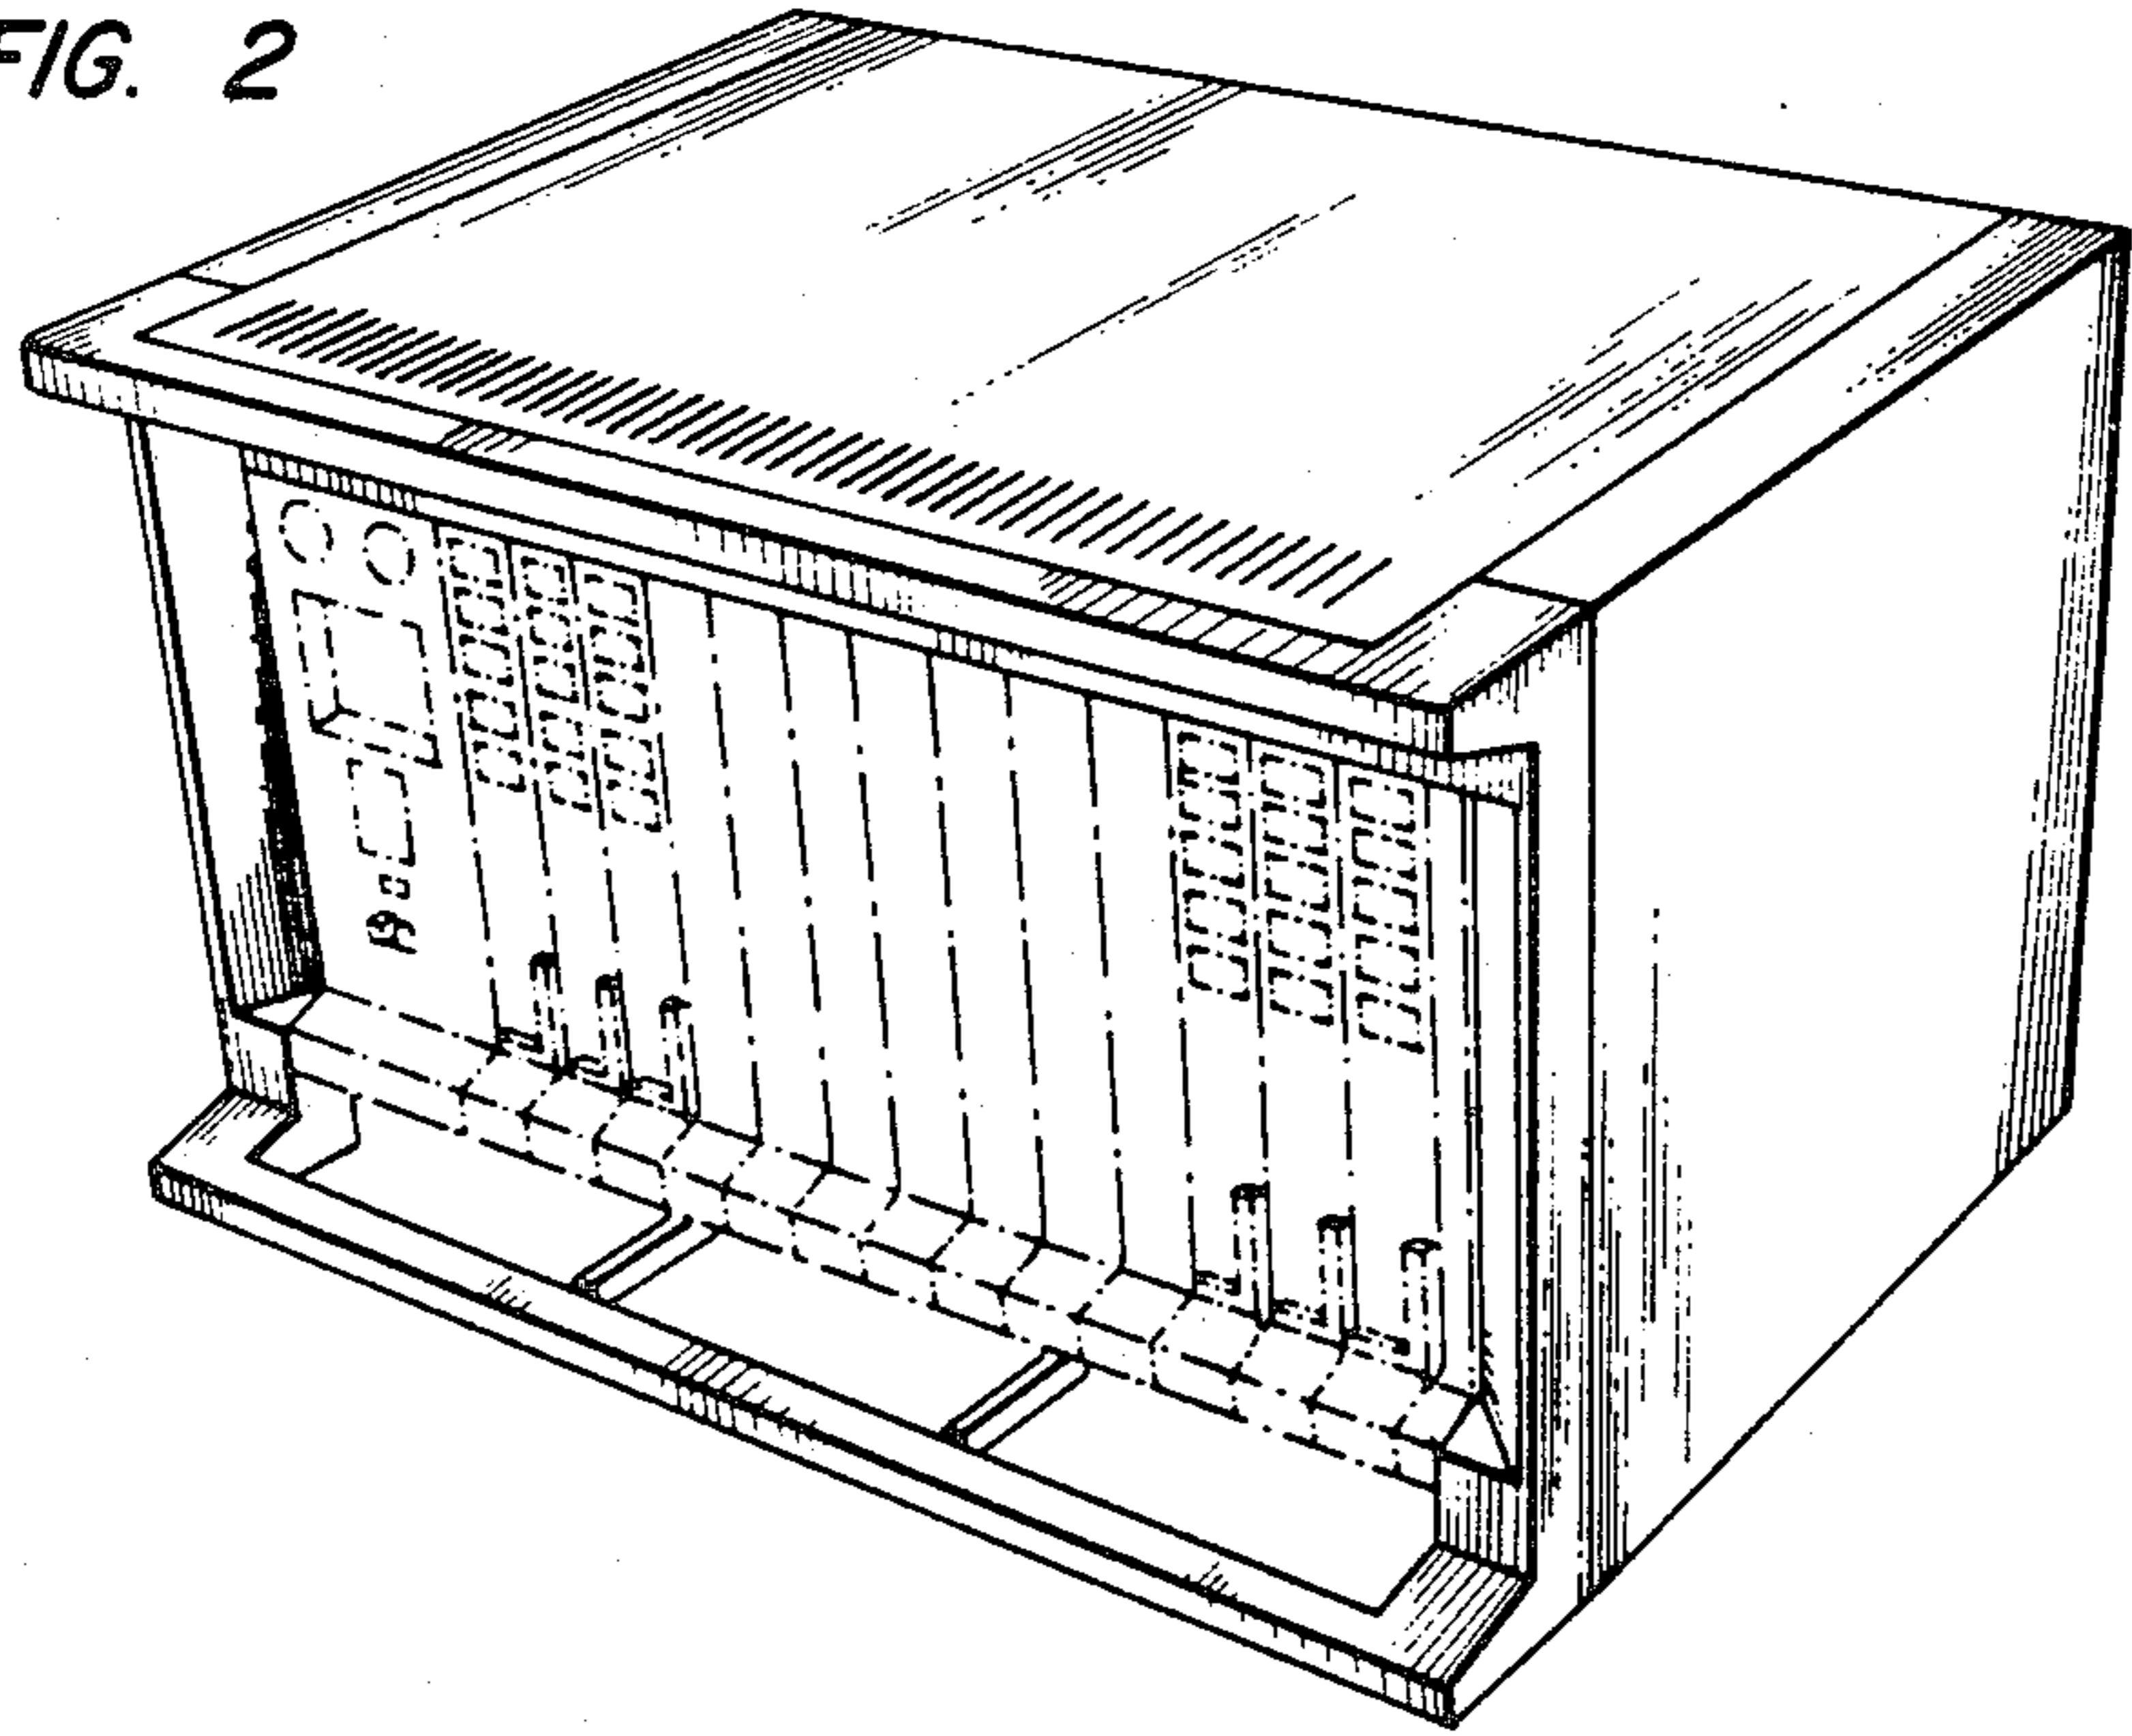

FIG. 3

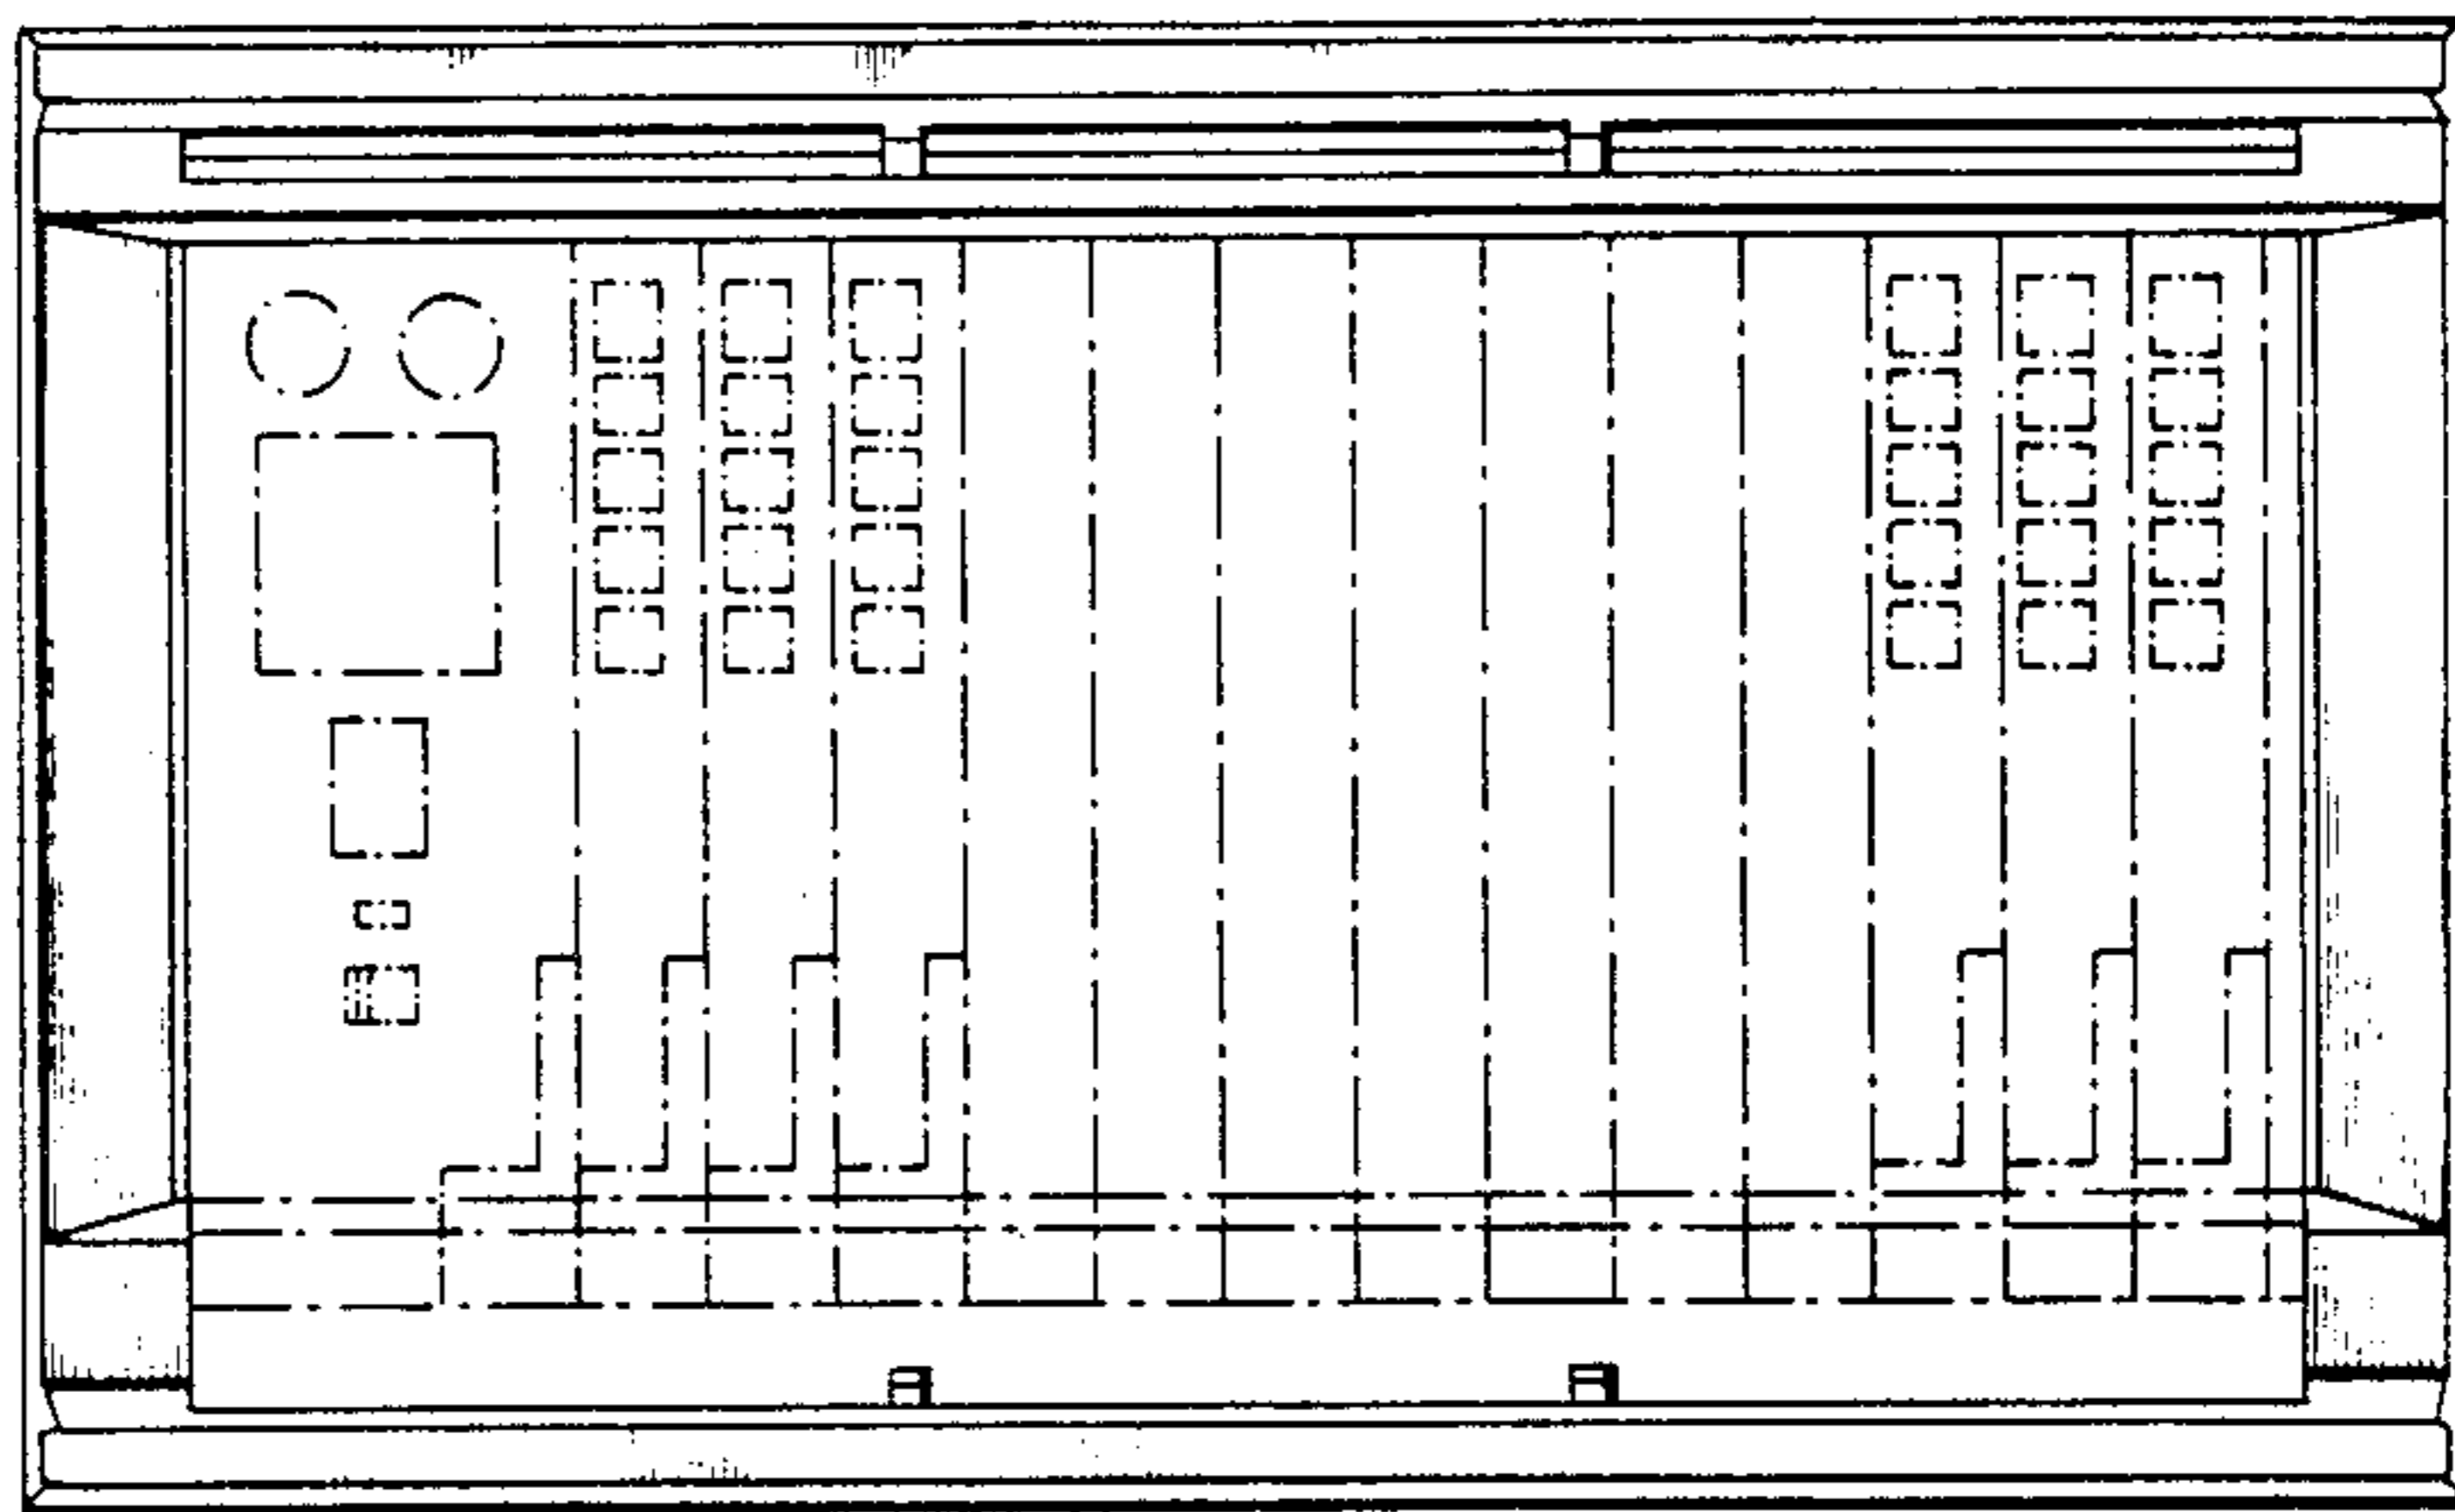

FIG. 4

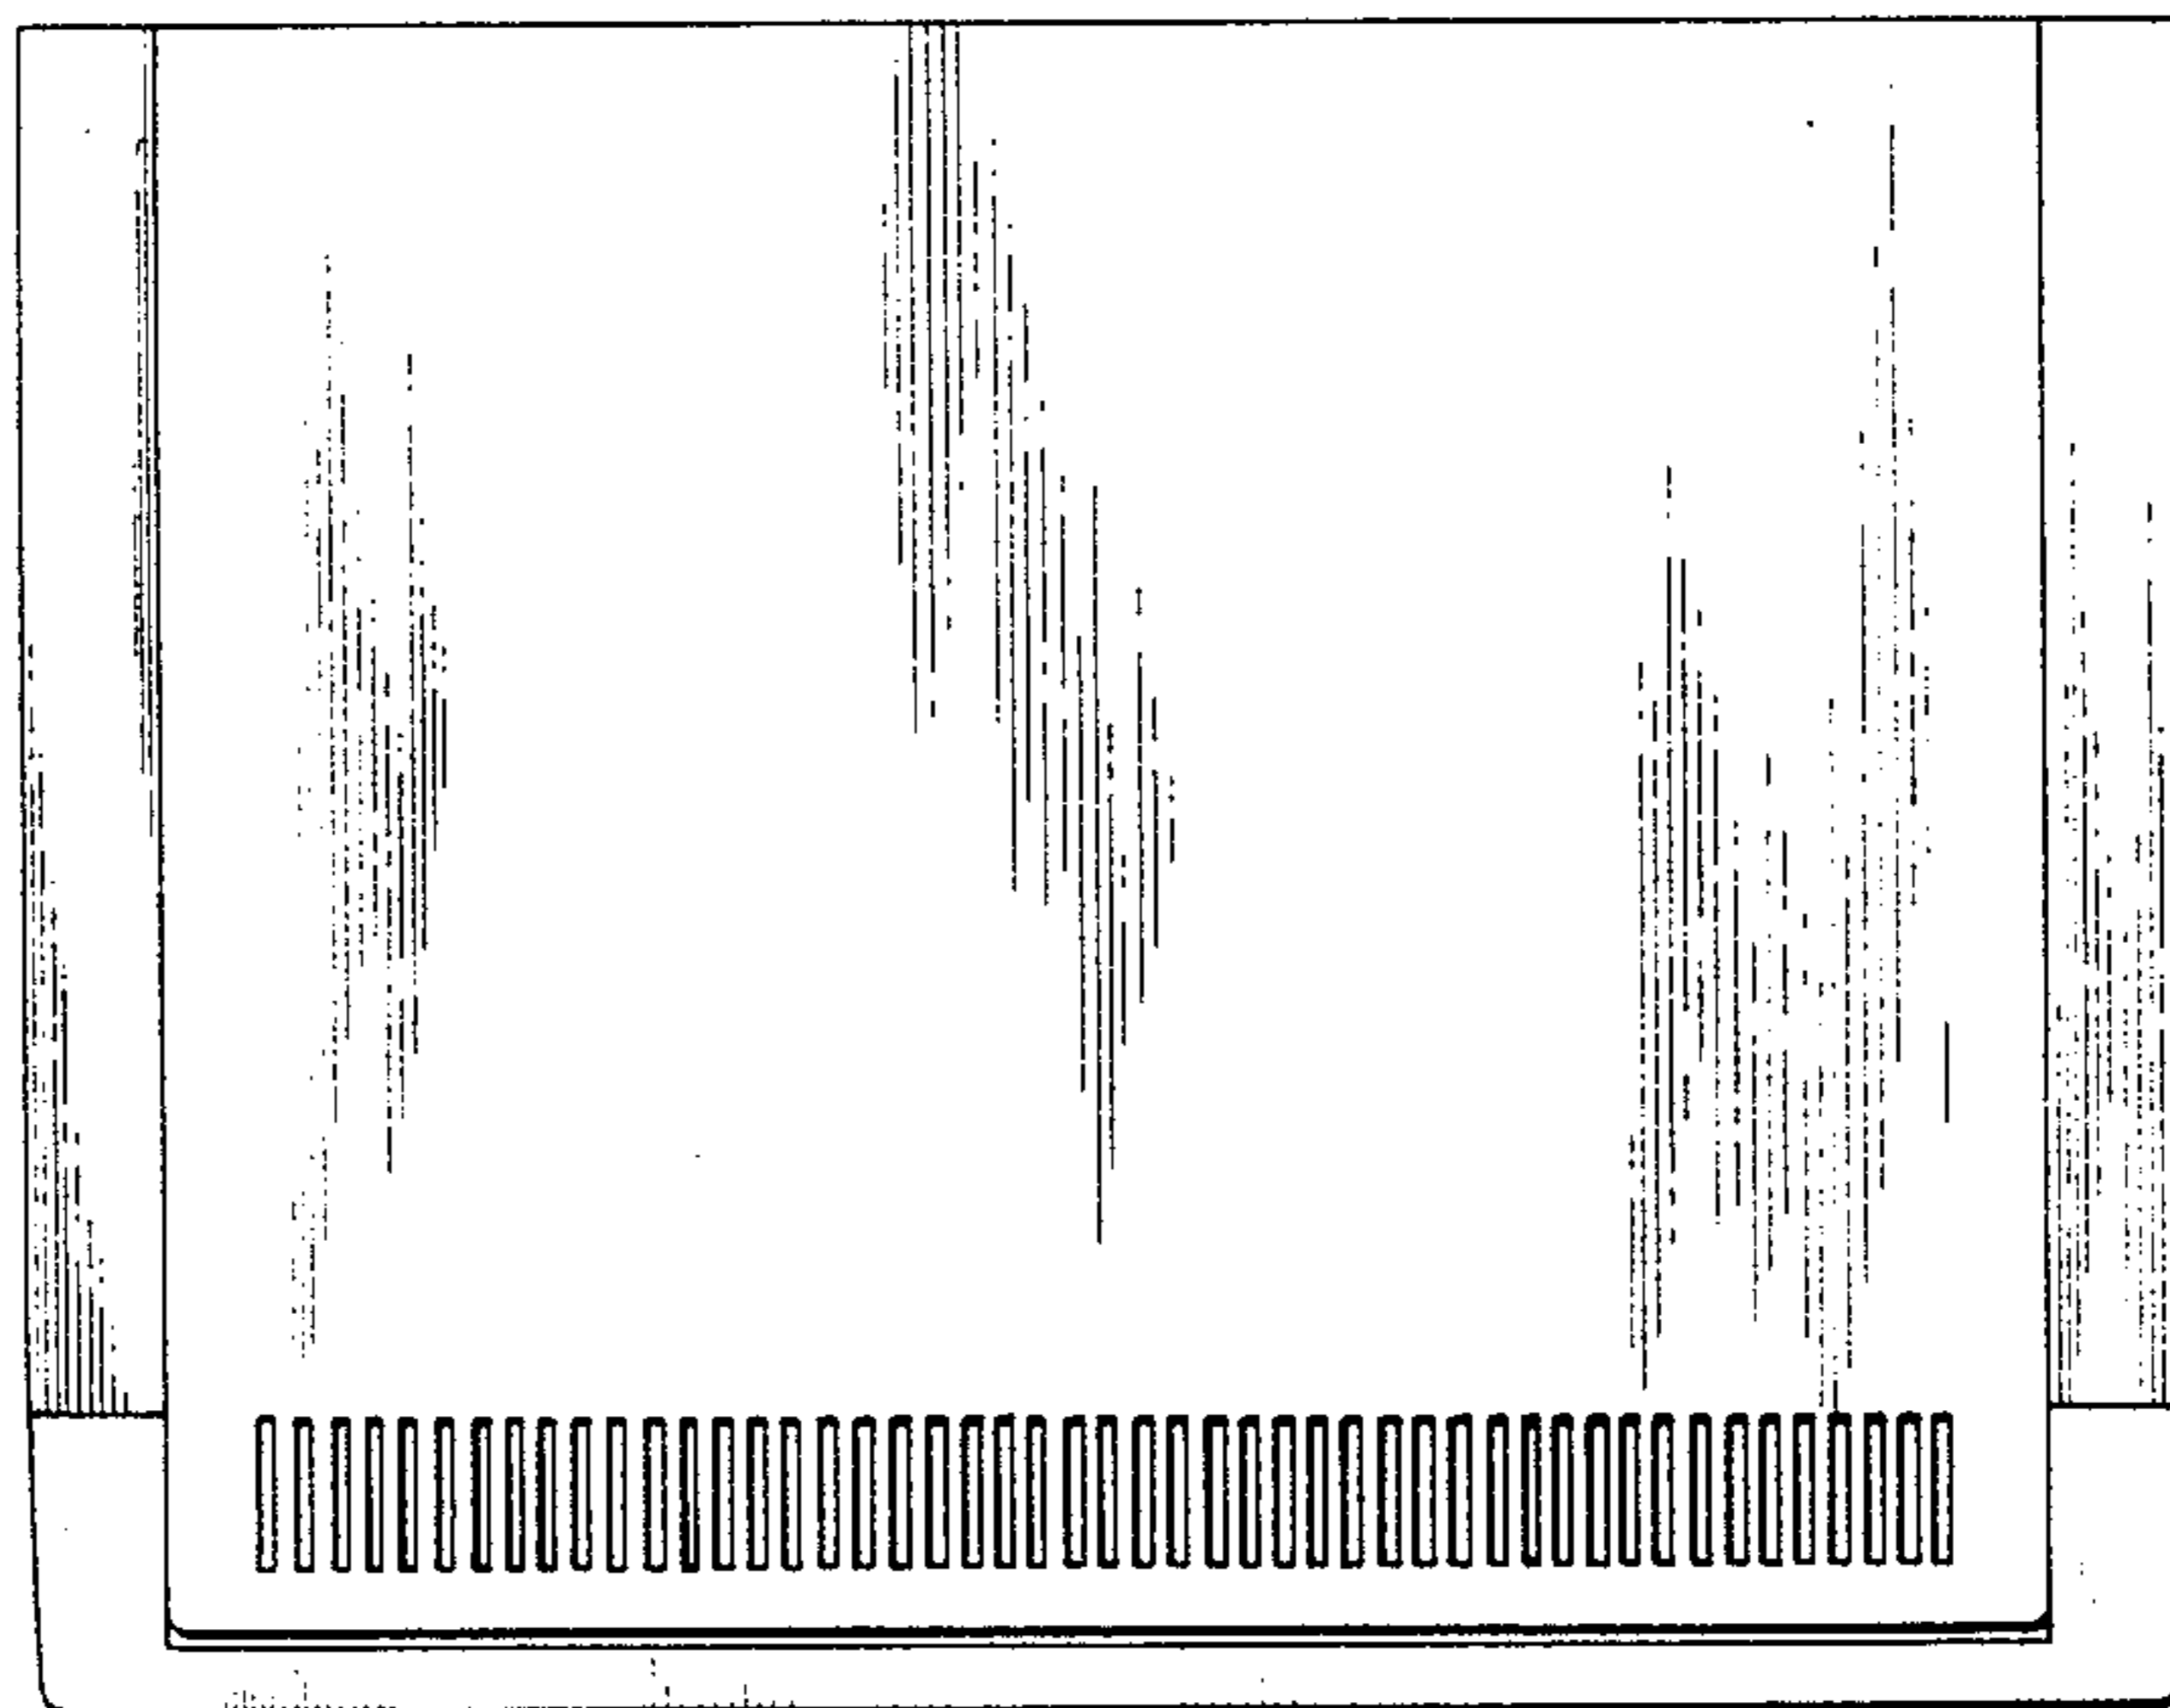

FIG. 5

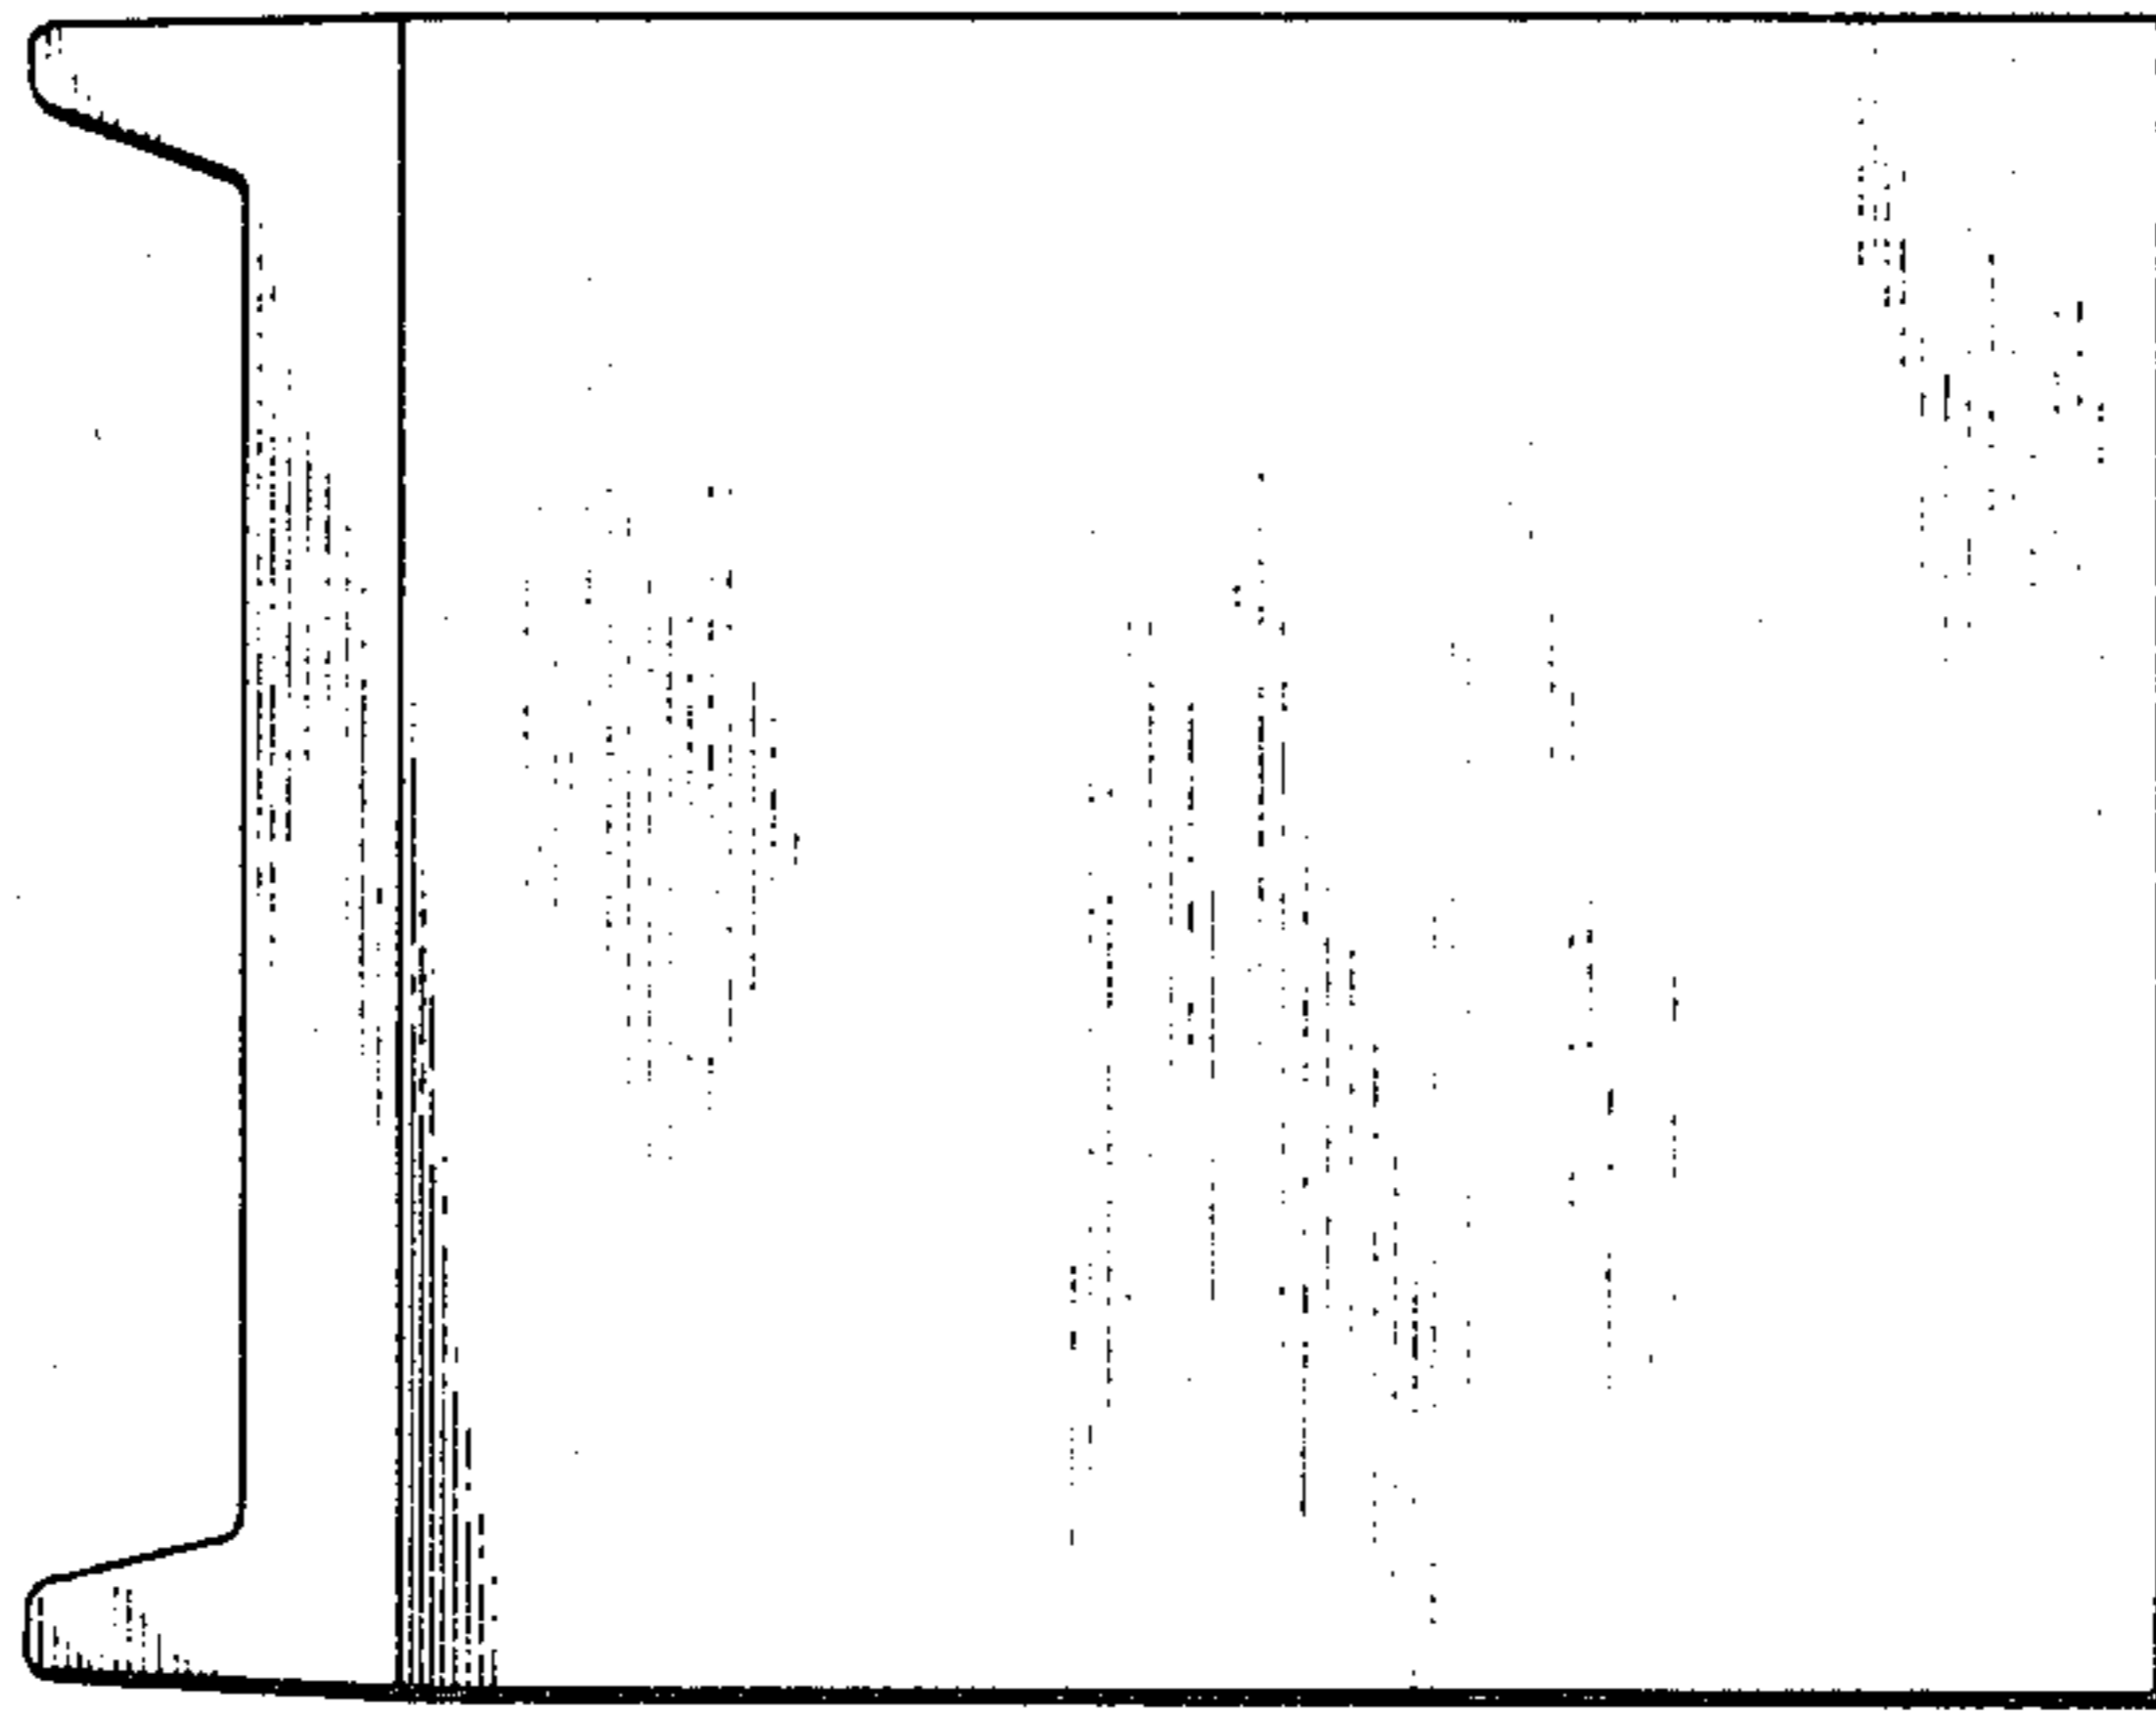

FIG. 6

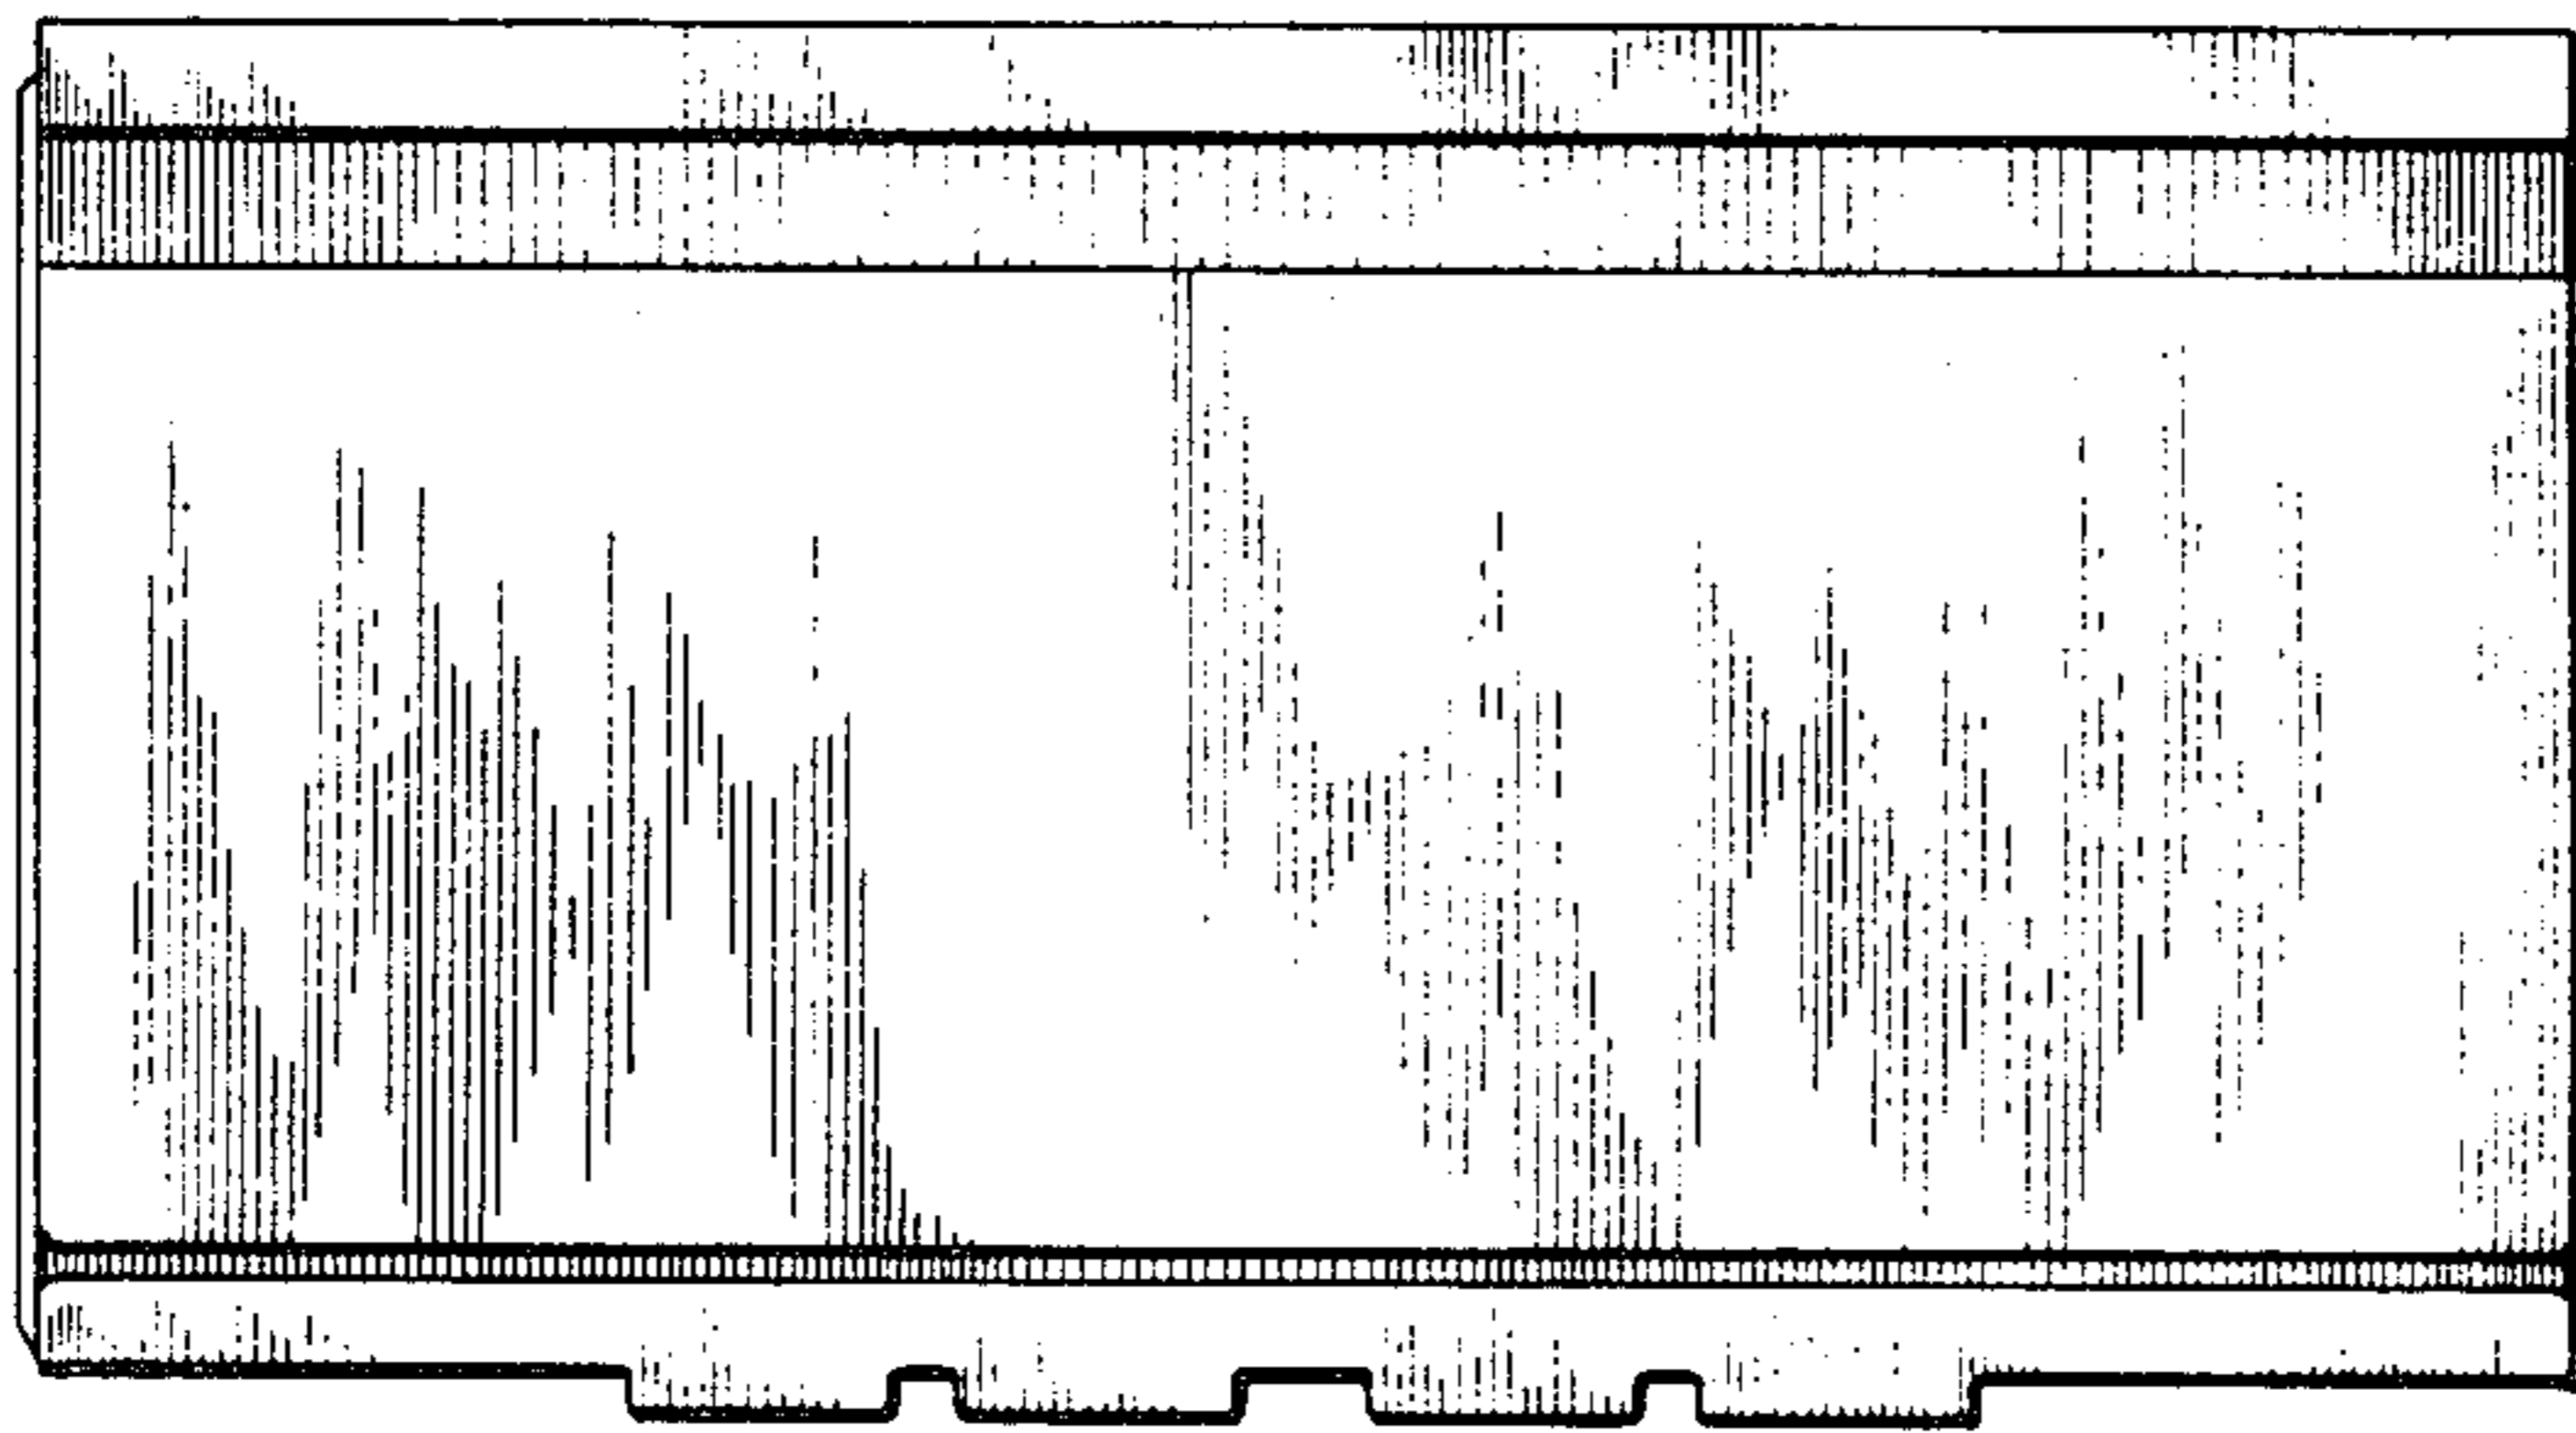

FIG. 7
