[57] CLAIM

The ornamental design for a fishing line strike indicator,
as shown and described.

DESCRIPTION

FIG. 1 is a top view of the fishing line strike indicator,
a portion of an Allen wrench is shown in phantom view
protruding from the left side of the device;

FIG. 2 is a side elevation of the fishing line strike indica-
tor, shown in FIG. 1 with a fishing rod and Allen
wrench shown in phantom view;

FIG. 3 is a bottom view of the fishing line strike indica-
tor, shown in FIG. 1;

FIG. 4 is a side elevation of the fishing line strike indica-
tor, shown in FIG. 1, depicting the opposite side shown
in FIG. 2;

FIG. 5 is an end view of the right side of the fishing line
strike indicator shown in FIG. 2, with the fishing rod
shown in phantom outline; and

FIG. 6 is a view of the opposite end of the fishing line
strike indicator depicted in FIG. 5.

The broken line showing of a fishing rod and Allen
wrench is for illustrative purposes only and forms no
part of the claimed design.
