[57] CLAIM

The ornamental design for a corner connector for modular furniture, substantially as shown and described.

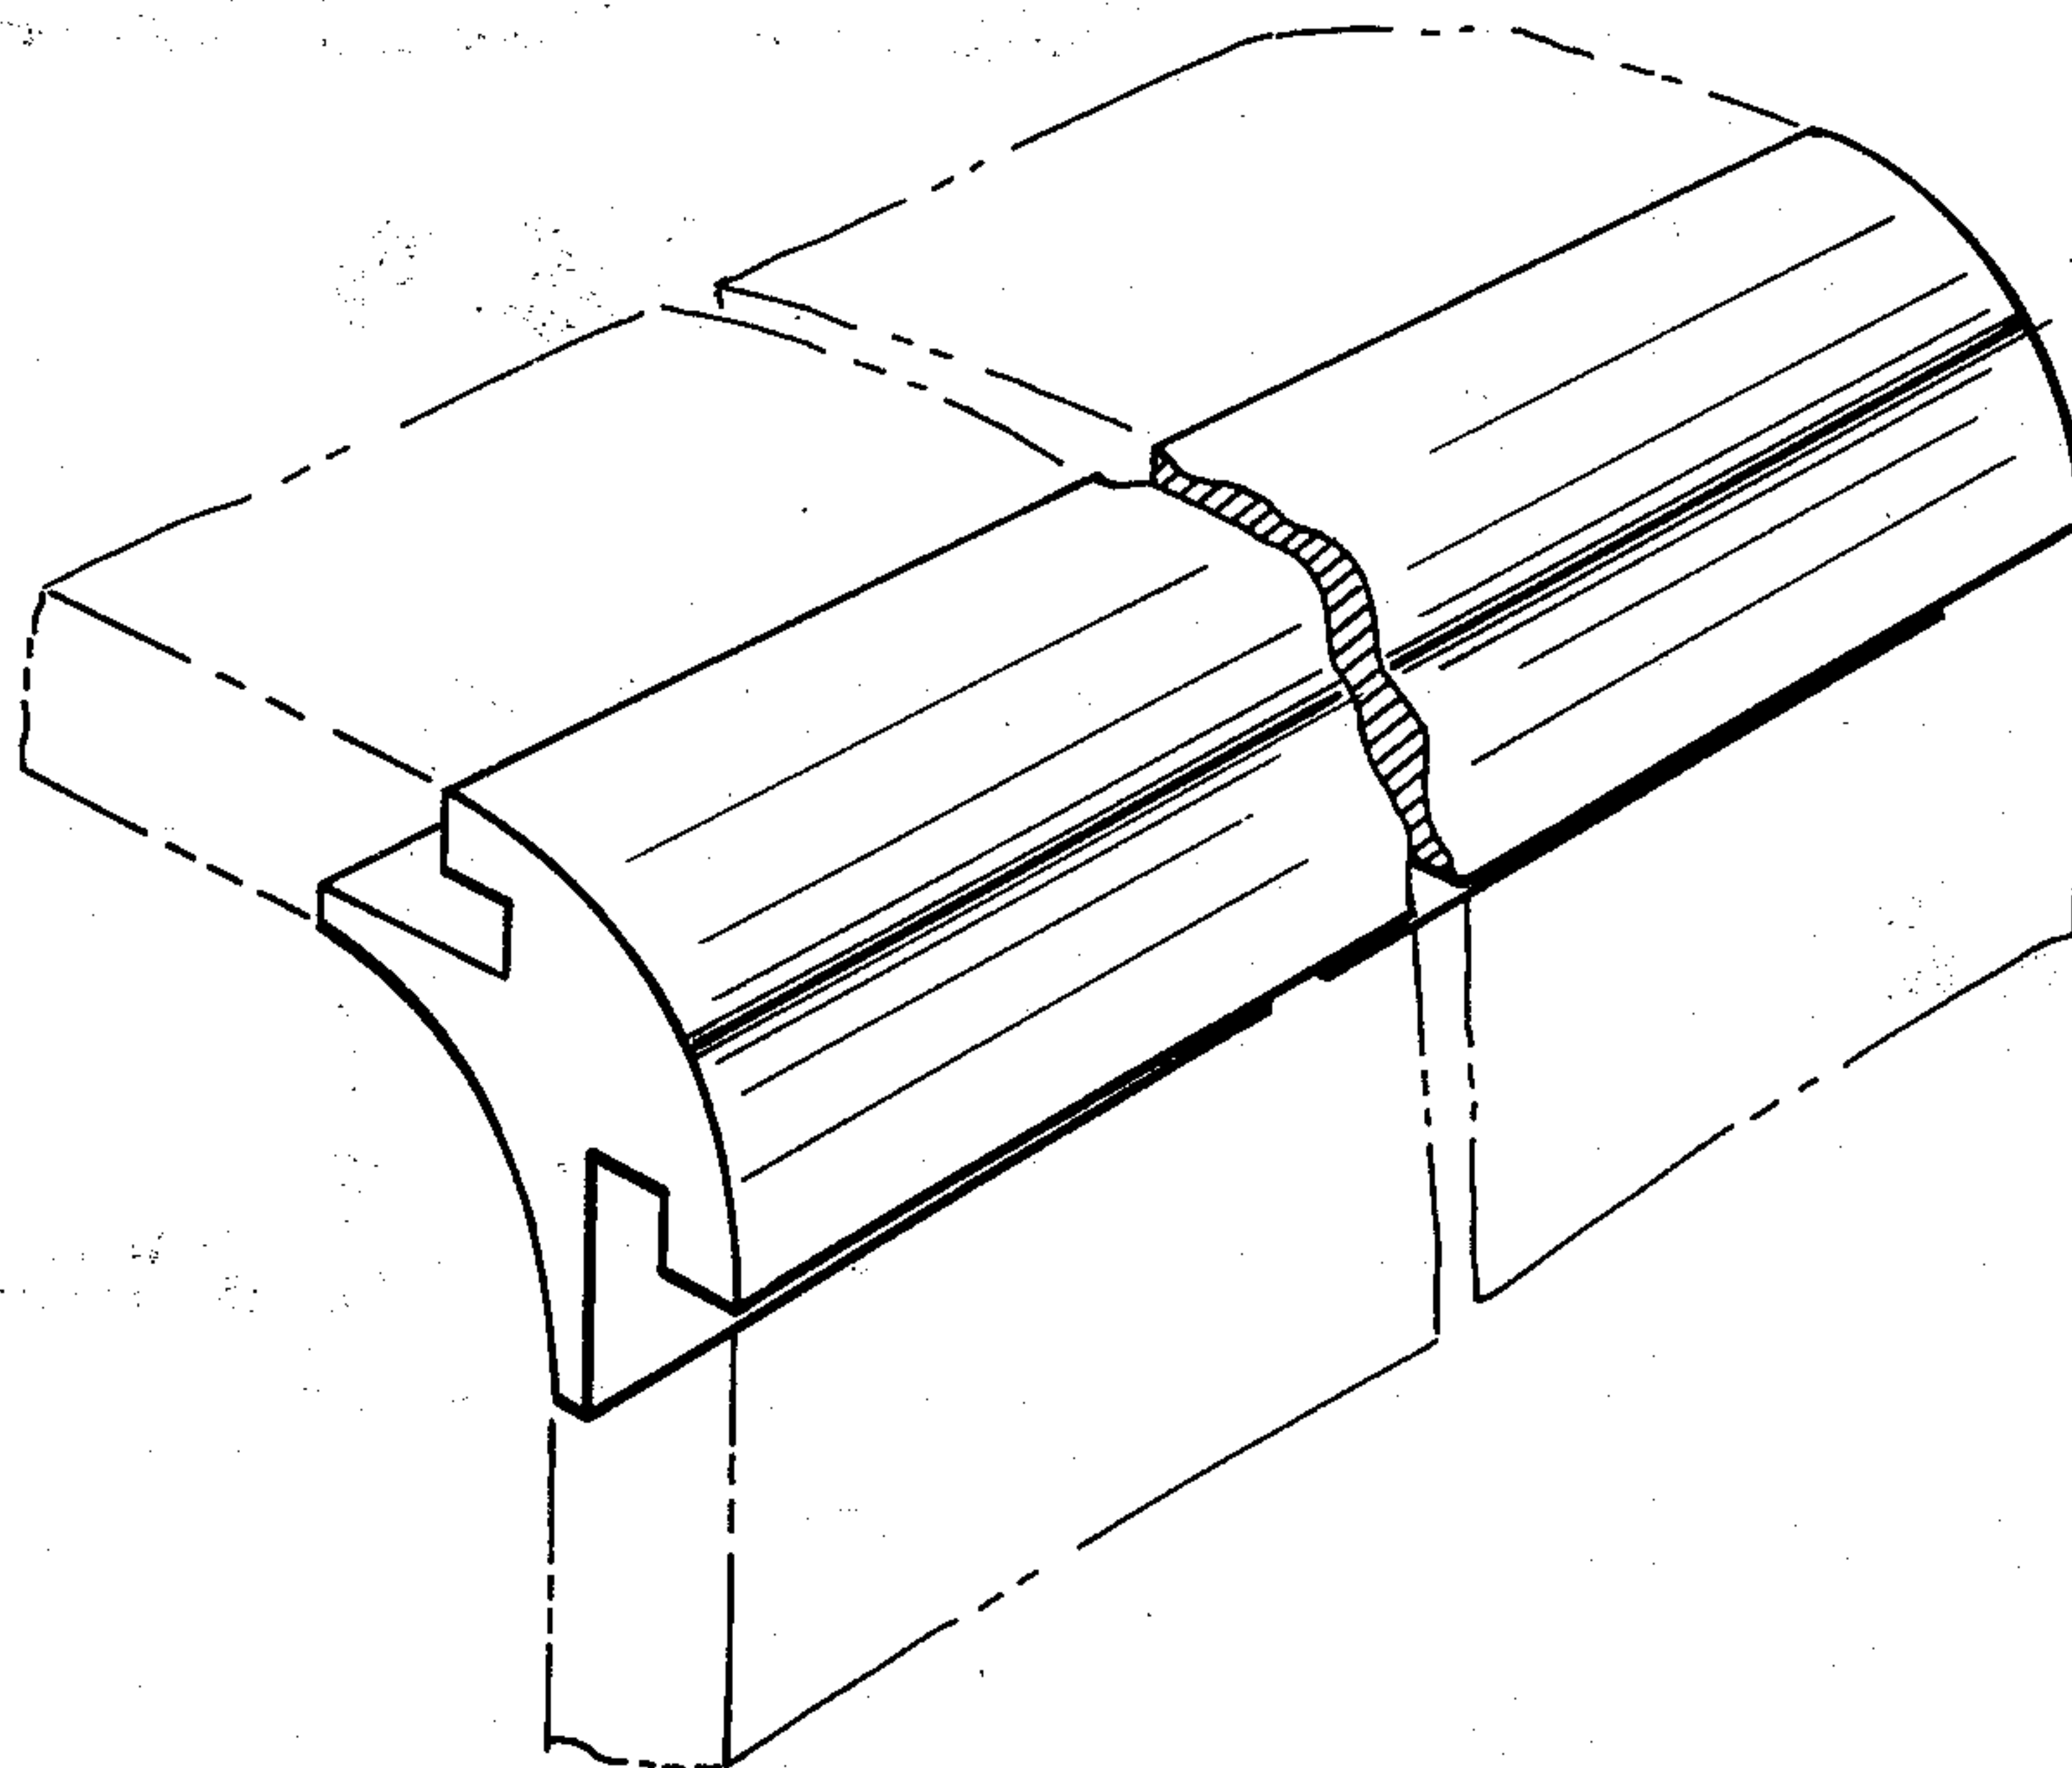

DESCRIPTION

FIG. 1 is a perspective view of a corner connector for modular furniture showing my design wherein portions of the center are broken away to indicate indeterminate length;

FIG. 2 is an end elevational view, the opposite end being a mirror image thereof;

FIG. 3 is a fragmentary view showing the outer surface of the connector in side elevation; and

FIG. 4 is a fragmentary view showing the inner surface of the connector in side elevation.
