[57] CLAIM

The ornamental design for a two piece telephone, substantially as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a two piece telephone showing the top surface of the base and the under or operative surface of the transceiver handset of my new design;

FIG. 2 is a perspective view from above of the telephone in in the storage position;

FIG. 3 is a right side elevational view of the base with the handset omitted for clarity of illustration, the left side elevational view being a mirror image thereof;

FIG. 4 is a right side elevational view of the handset with the base omitted for clarity of illustration, the opposite side view being a mirror image thereof;

FIG. 5 is a bottom plan view of the base; and

FIGS. 6 and 7 are top and bottom (cord) end views respectively of the base, with the handset being omitted in FIGS. 5-7 for clarity and expedience of illustration.

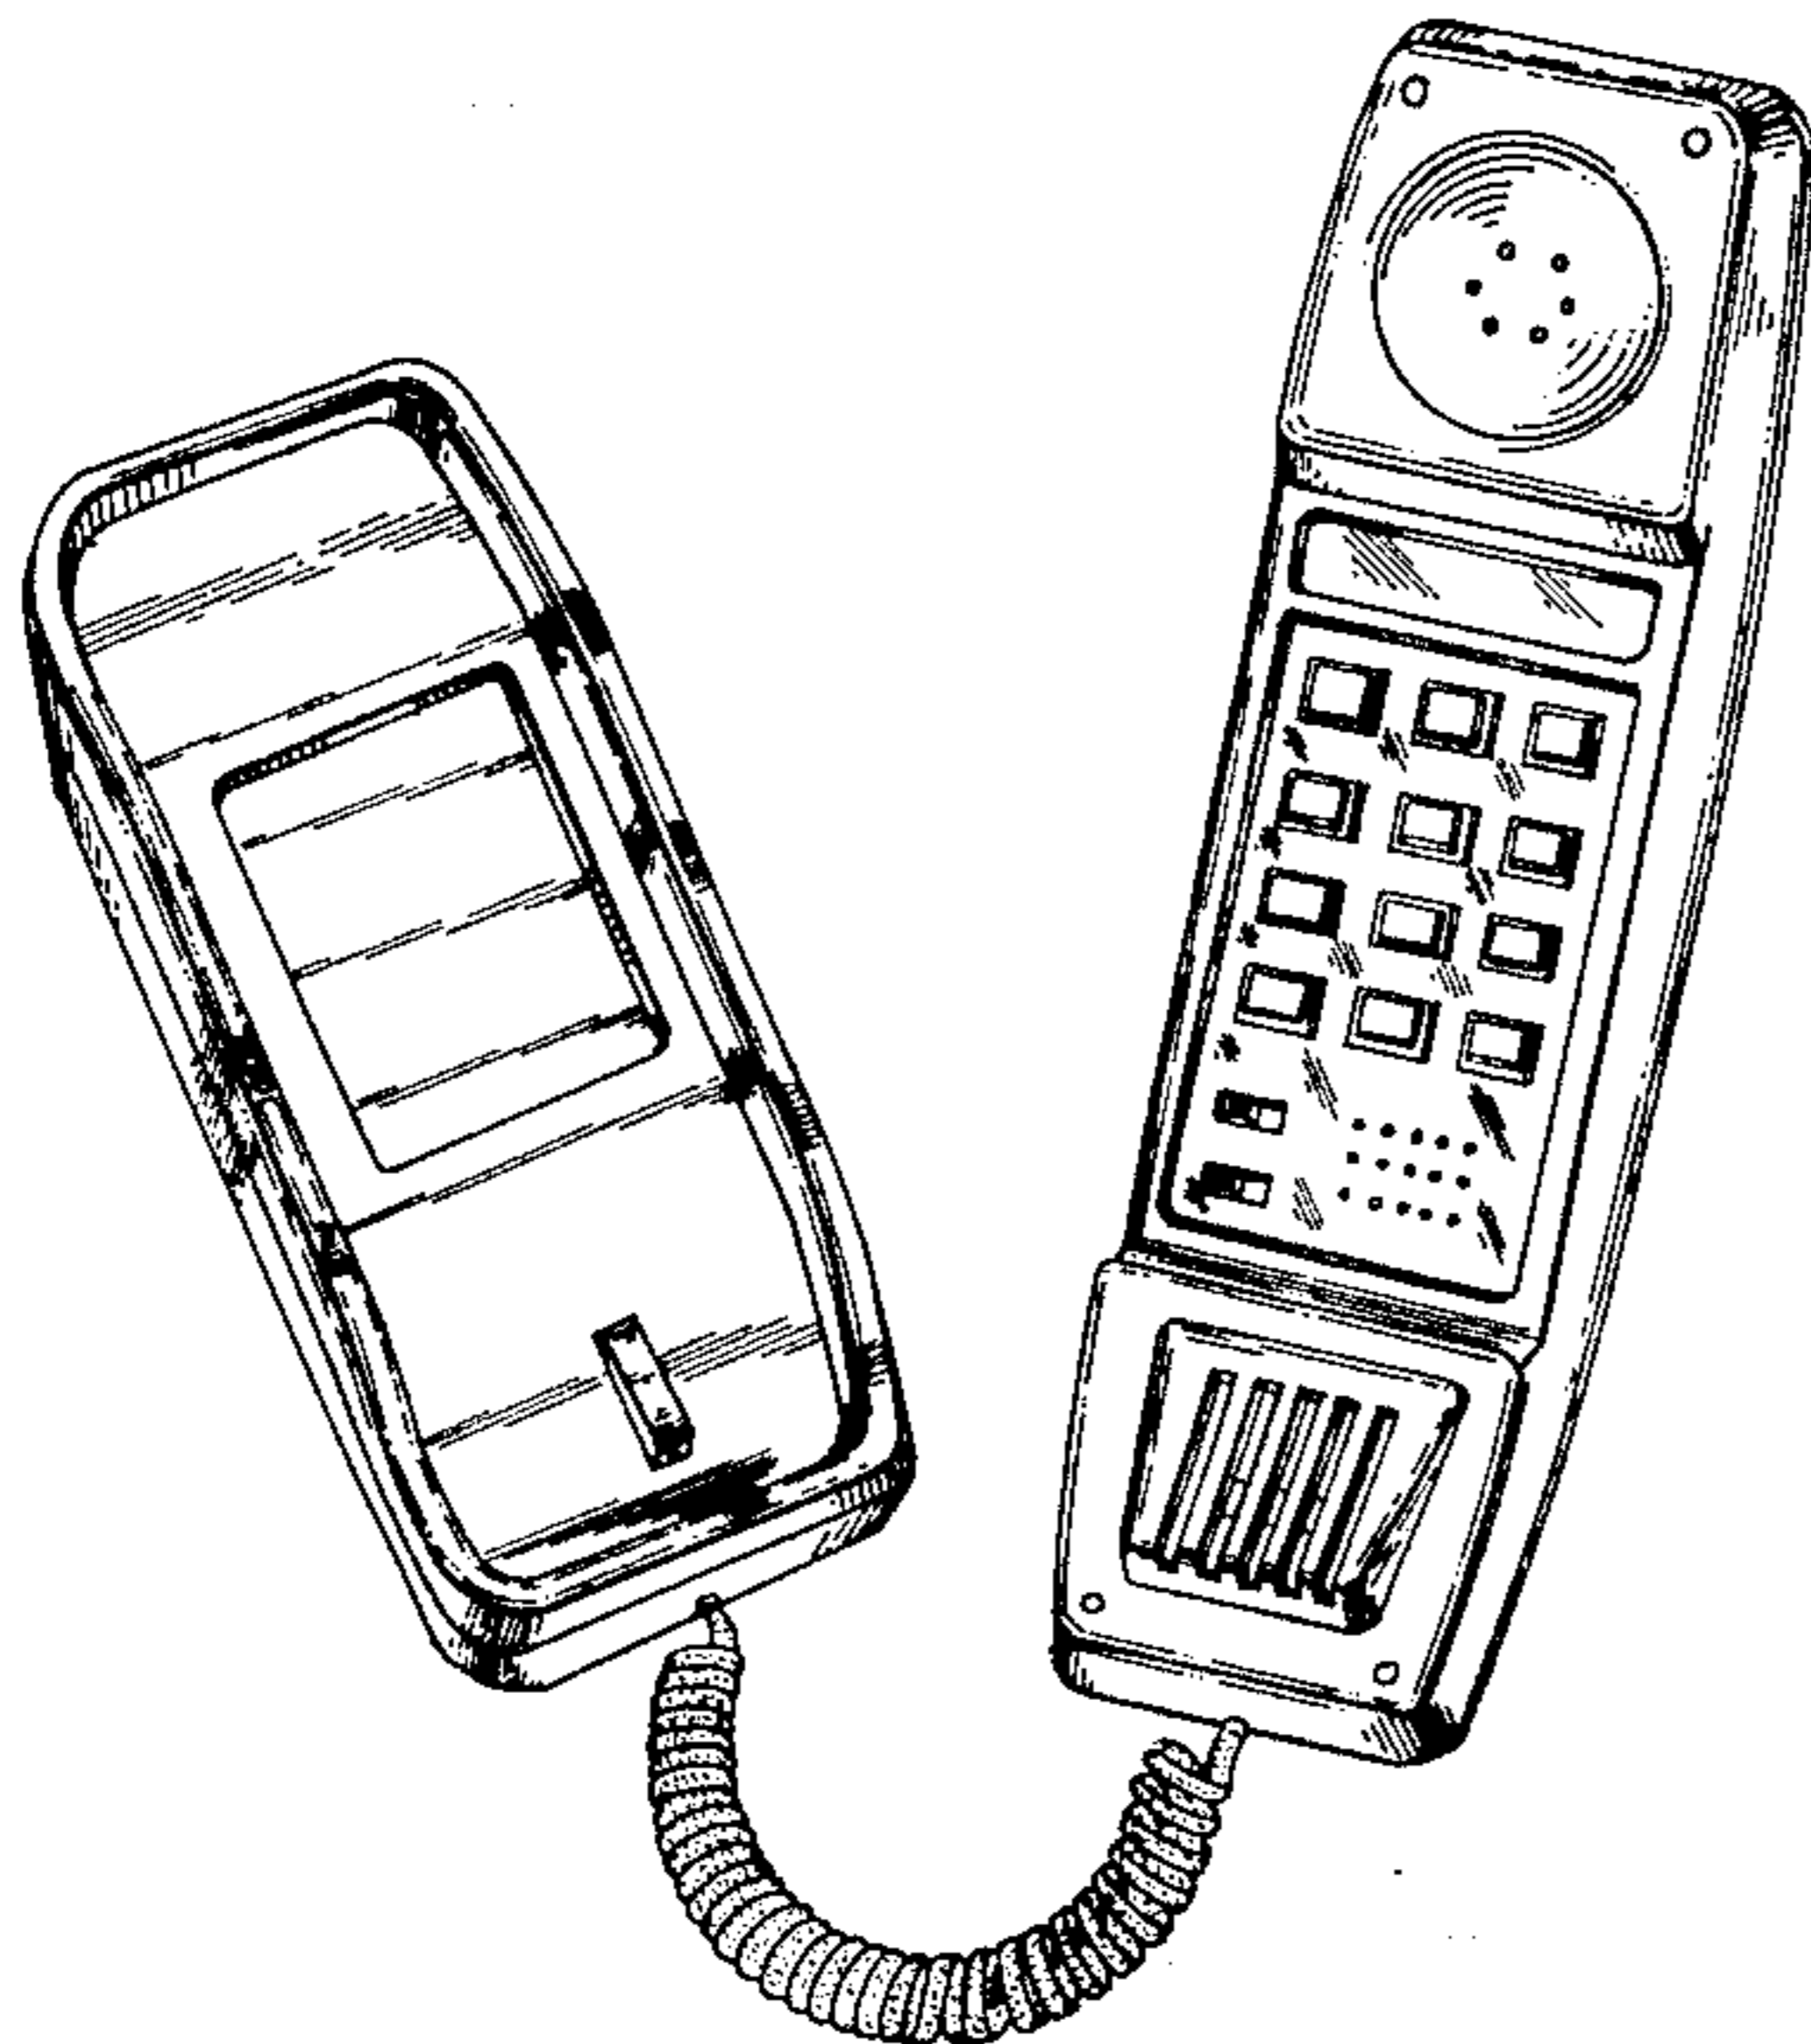

FIG. 1

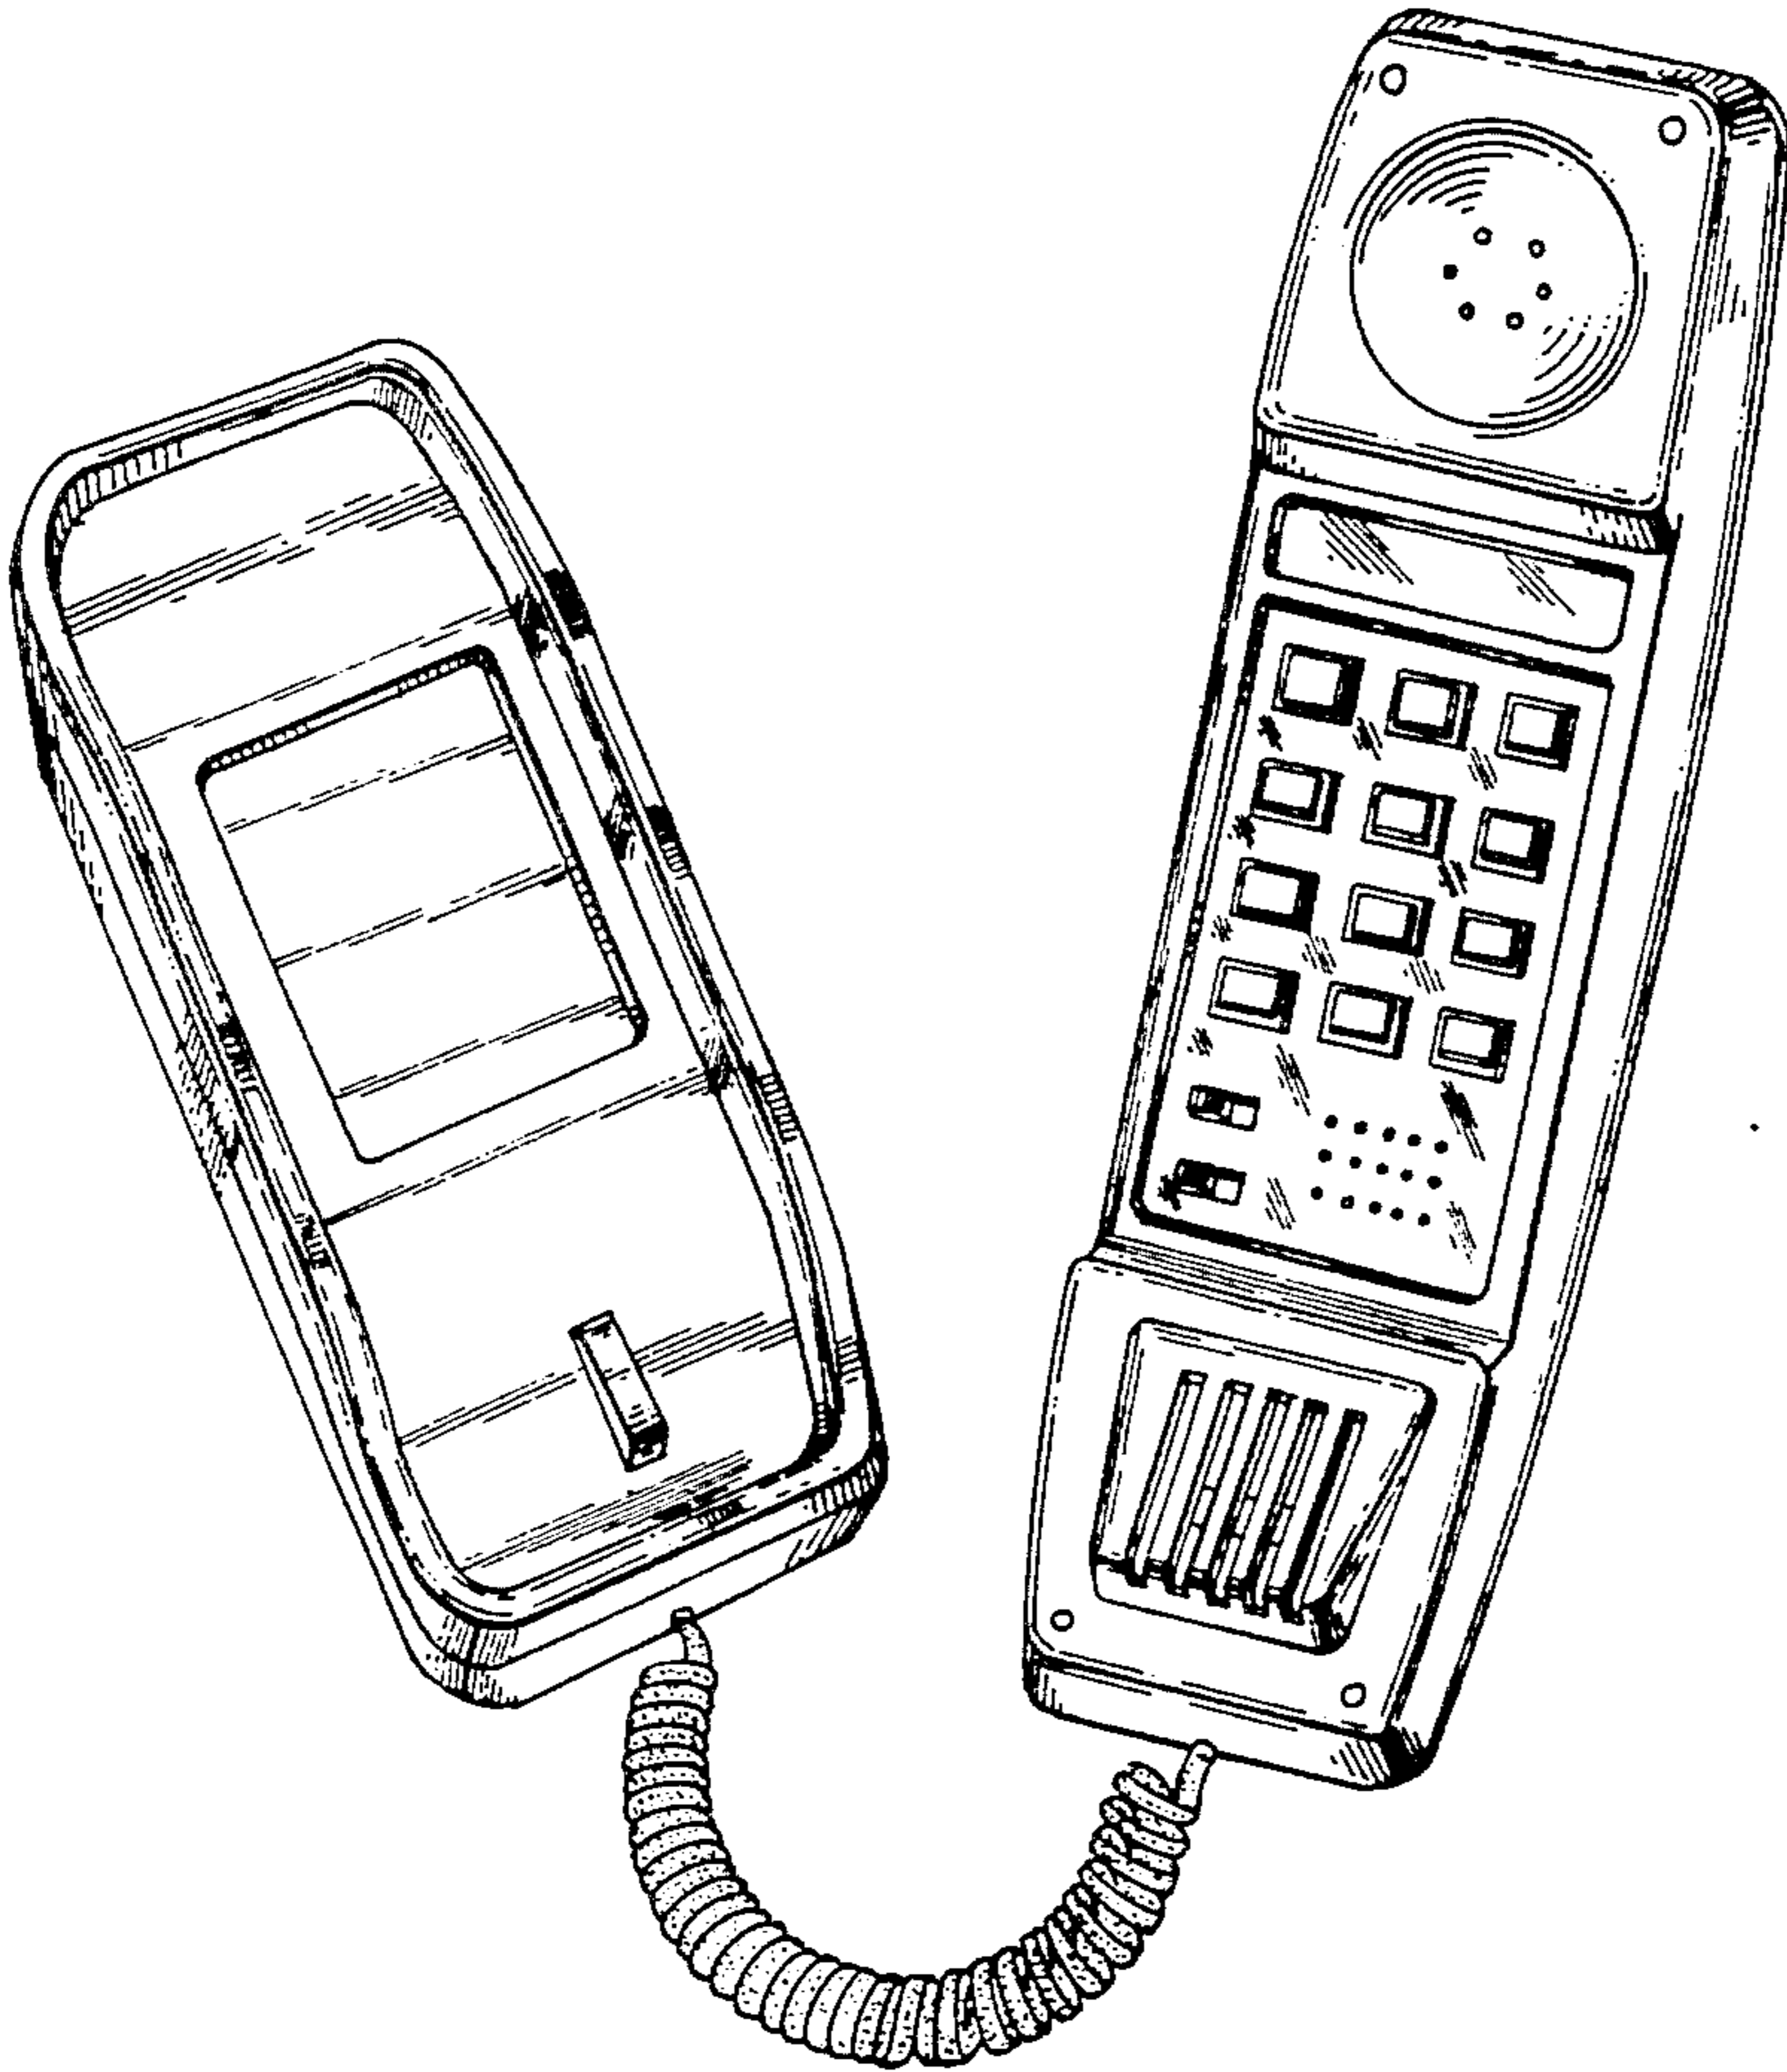

FIG. 2

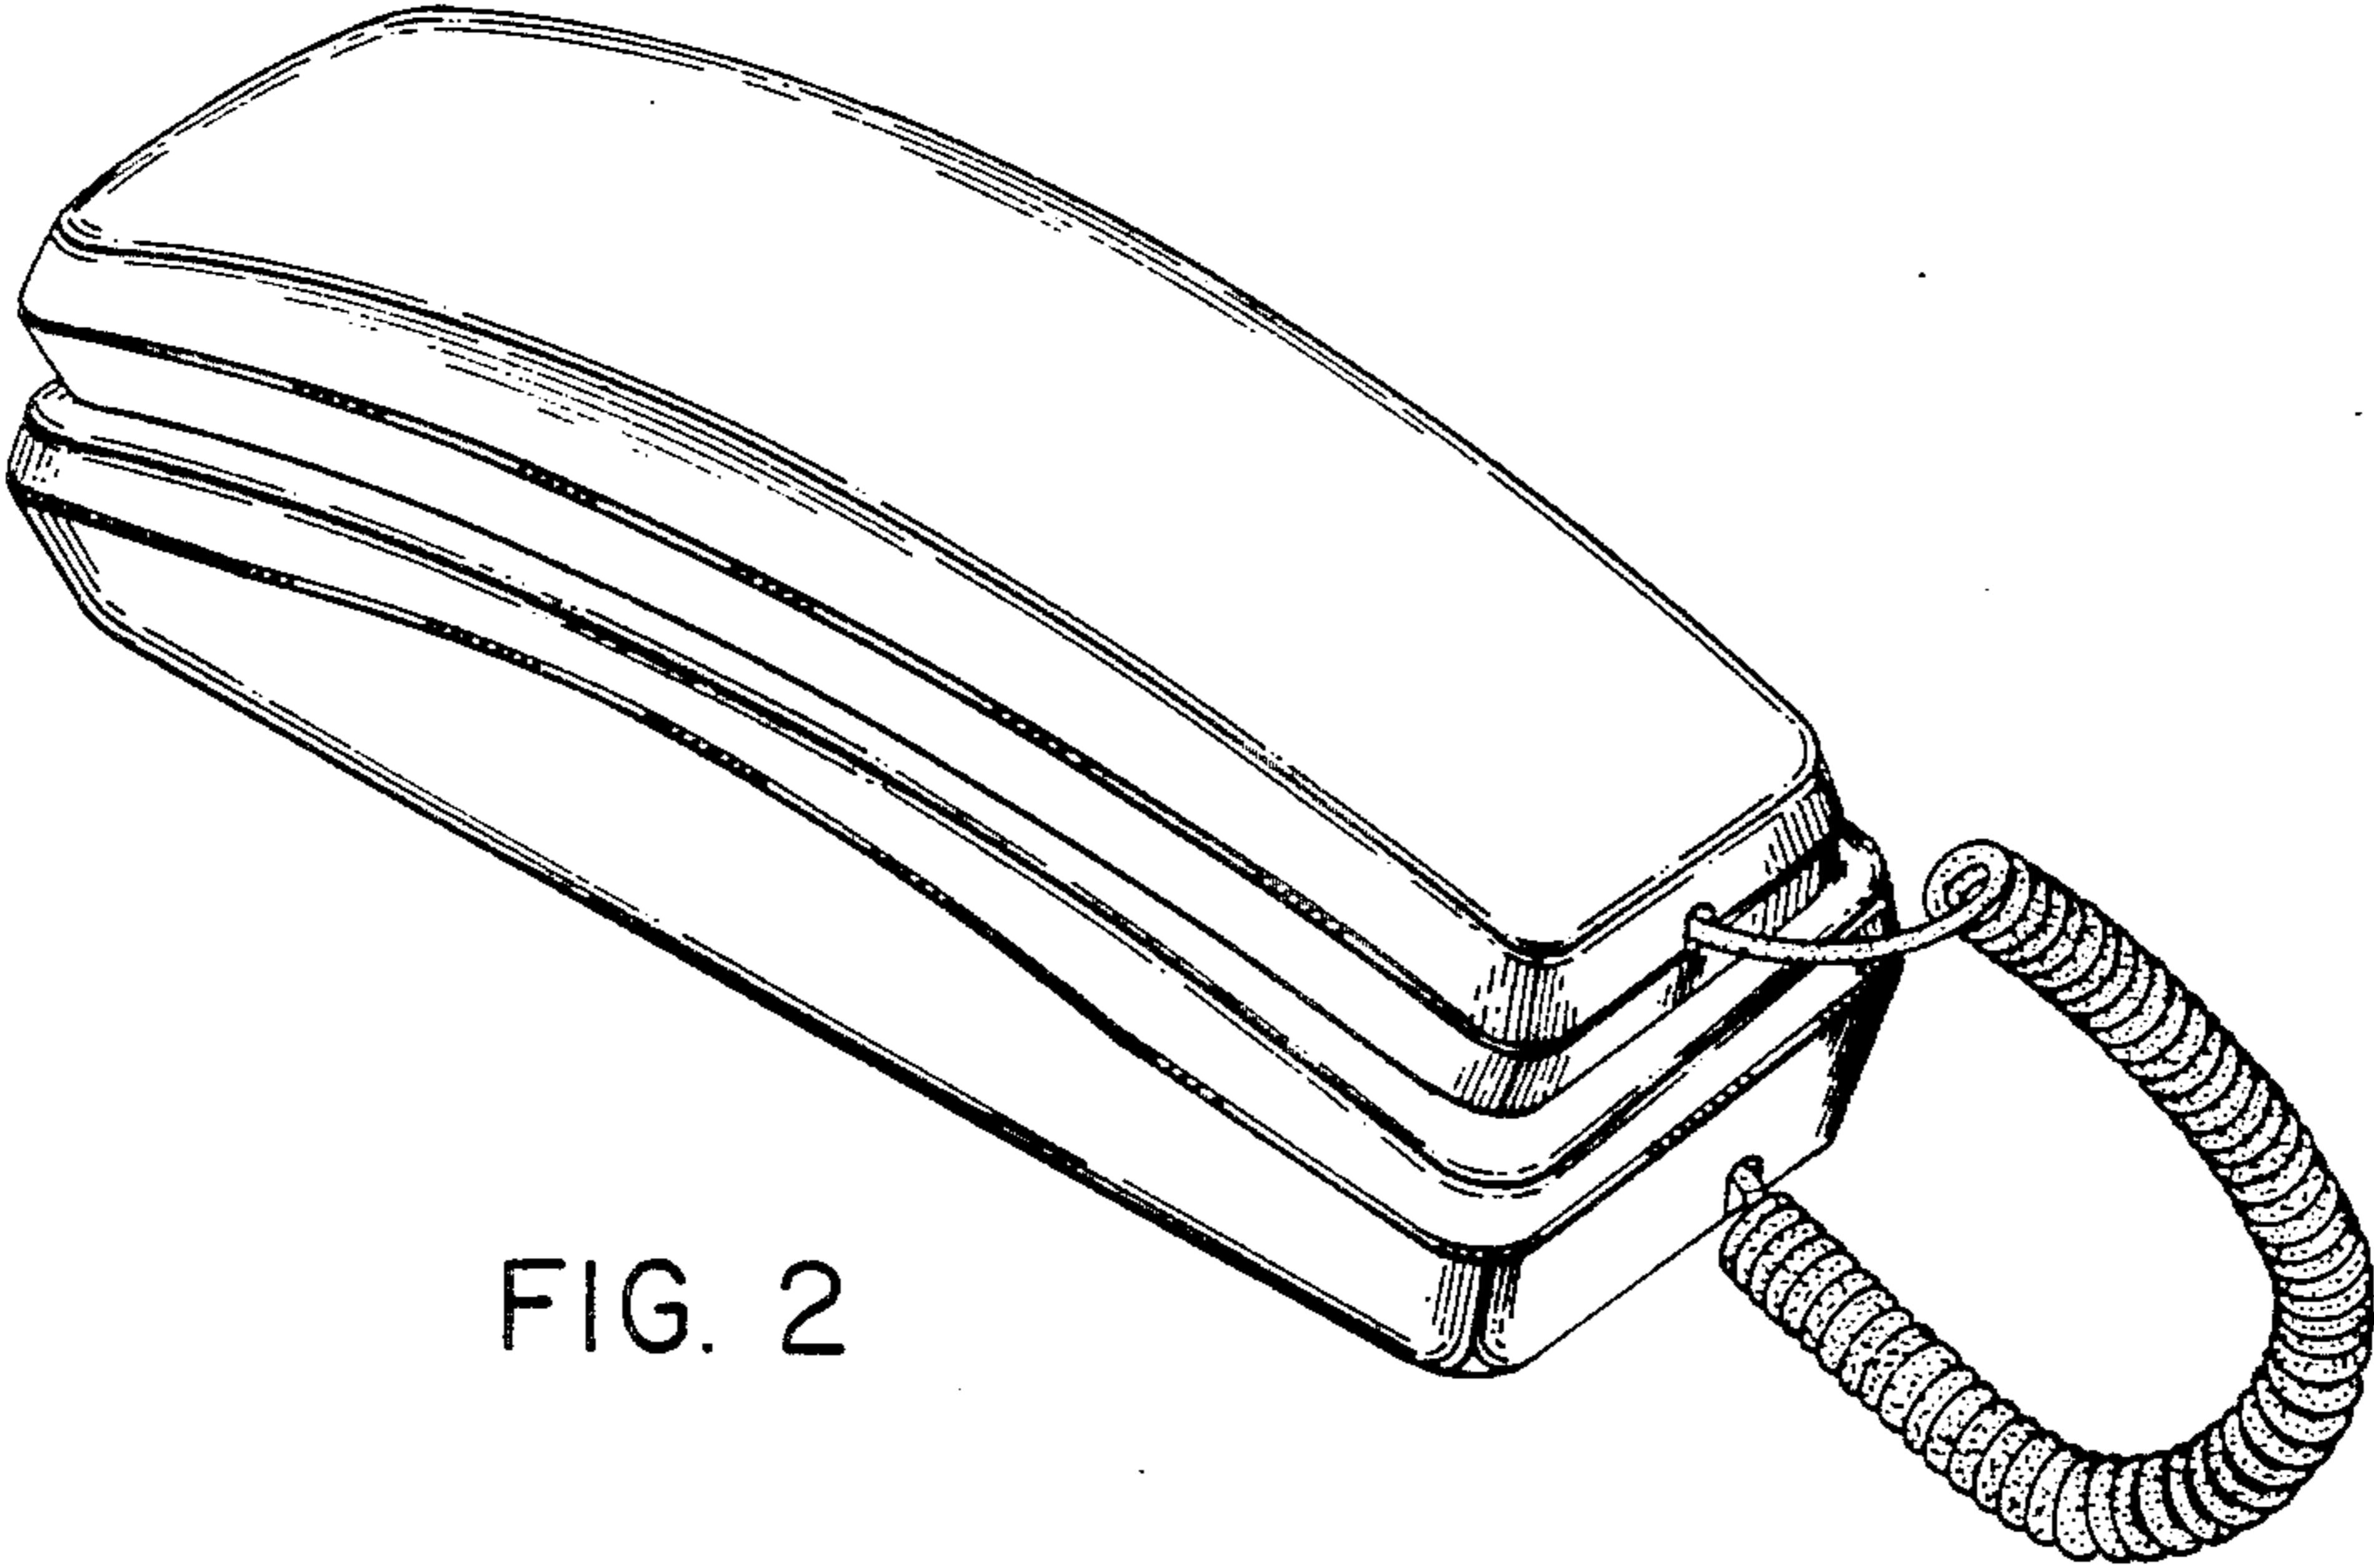

FIG. 3
