[57] CLAIM

The ornamental design for an operatory module system for a health treatment facility, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of an operatory module system for a health treatment facility, showing our new design;

FIG. 2 is a rear elevational view thereof;

FIG. 3 is a right side elevational view thereof;

FIG. 4 is a left side elevational view thereof;

FIG. 5 is a top plan view thereof;

FIG. 6 is a front perspective view thereof;

FIG. 7 is a rear perspective view thereof;

FIG. 8 is a top plan view of a second embodiment of an operatory module system for a health treatment facility, wherein the only difference resides in the inclusion of a lighting module;

FIG. 9 is a front perspective view of a third embodiment of an operatory module system for a health treatment facility;

FIG. 10 is a top plan view thereof; and

FIG. 11 is a top plan view of a fourth embodiment of an operatory module system for a health treatment facility, which differs from the third embodiment only in the inclusion of a lighting module.
