[57] CLAIM

The ornamental design for a two piece telephone, substantially as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a two-piece telephone showing my new design, with the handset removed from and spaced apart from the base;

FIG. 2 is a perspective view of the handset base in storage position;

FIG. 3 is a right side elevational view of the base, the view of the side opposite being a mirror image thereof;

FIG. 4 is a right side elevational view of the handset, the view of the opposite side being a mirror image thereof;

FIG. 5 is a bottom view of the base;

FIG. 6 is an elevational view of the end of the base opposite the cord end; and

FIG. 7 is an elevational view of the end of the handset opposite the cord end.

In FIGS. 3, 4, and 5, the cord is shown in truncated form for convenience of illustration; and the components of the telephone set are shown apart from each other for similar reason.
