[57] **CLAIM**

The ornamental design for a dual wheel combination lock for luggage or similar type article-retaining container, as shown and described.

DESCRIPTION

FIG. 1 is a top perspective view in the mounted and closed position of a dual wheel combination lock for luggage or similar type article-retaining container showing my new design wherein the latching portion of the lock is shown engaged with the receiving portion of the lock;

FIG. 2 is a bottom perspective view thereof;

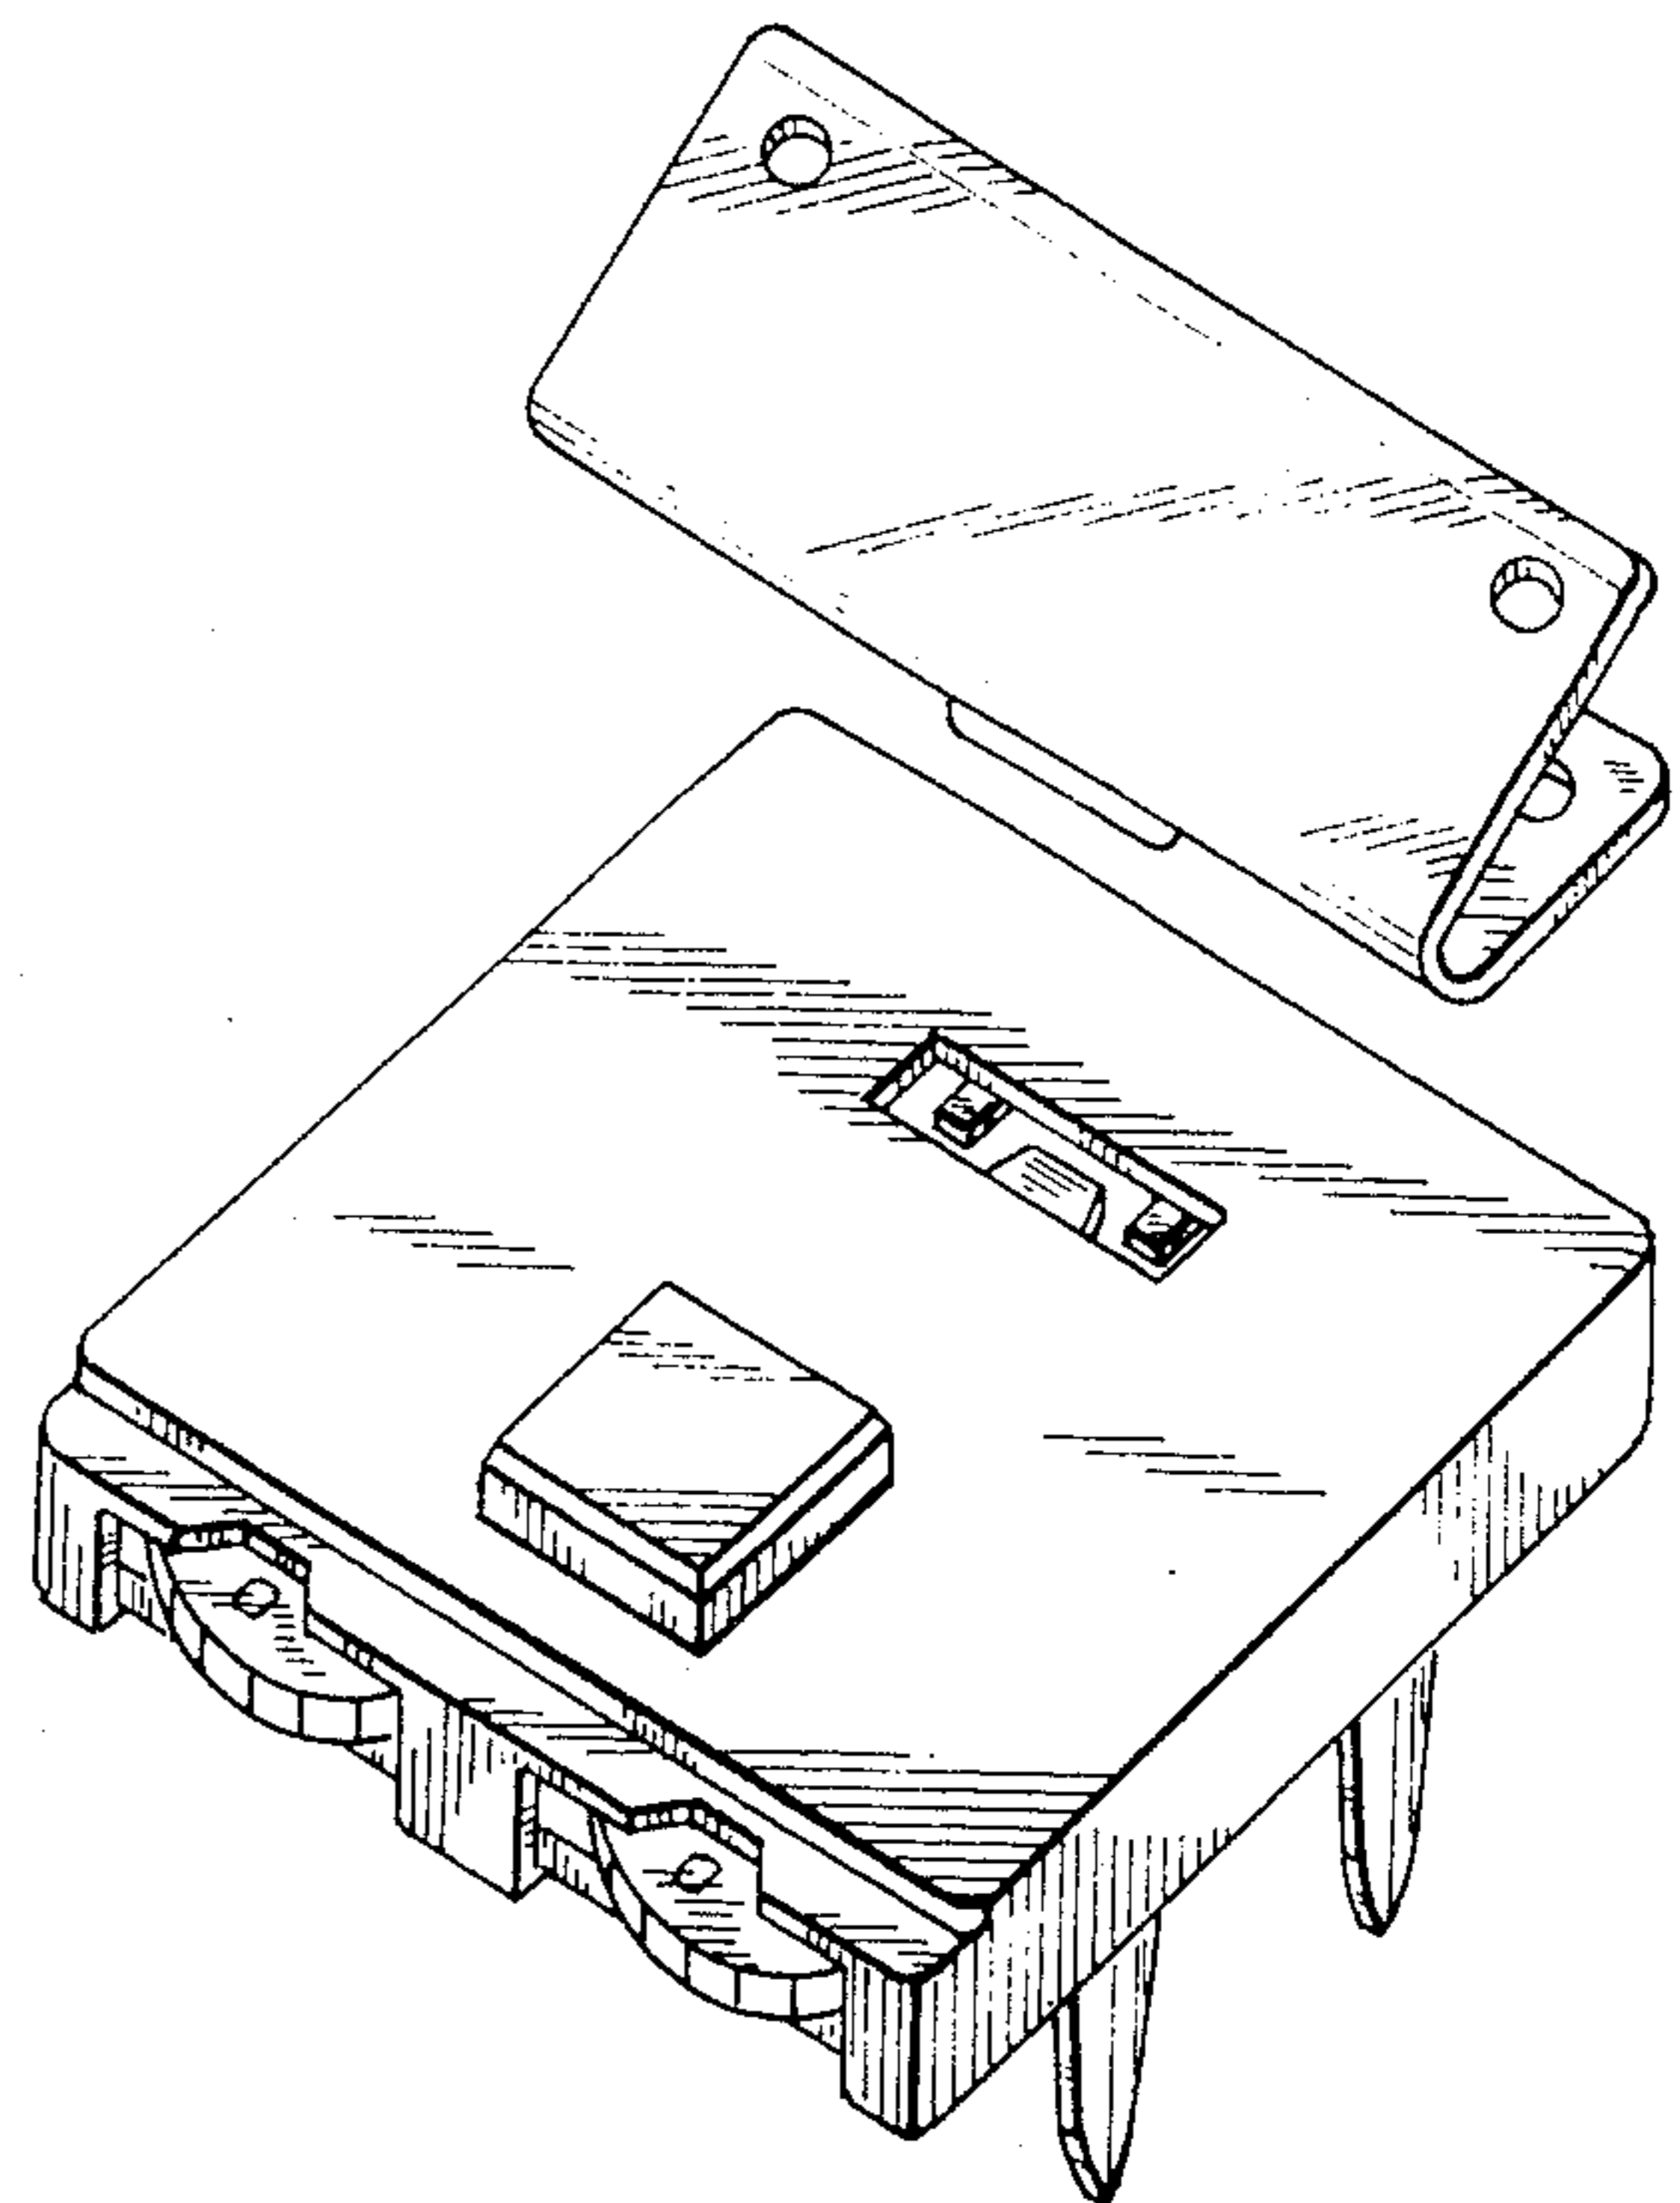

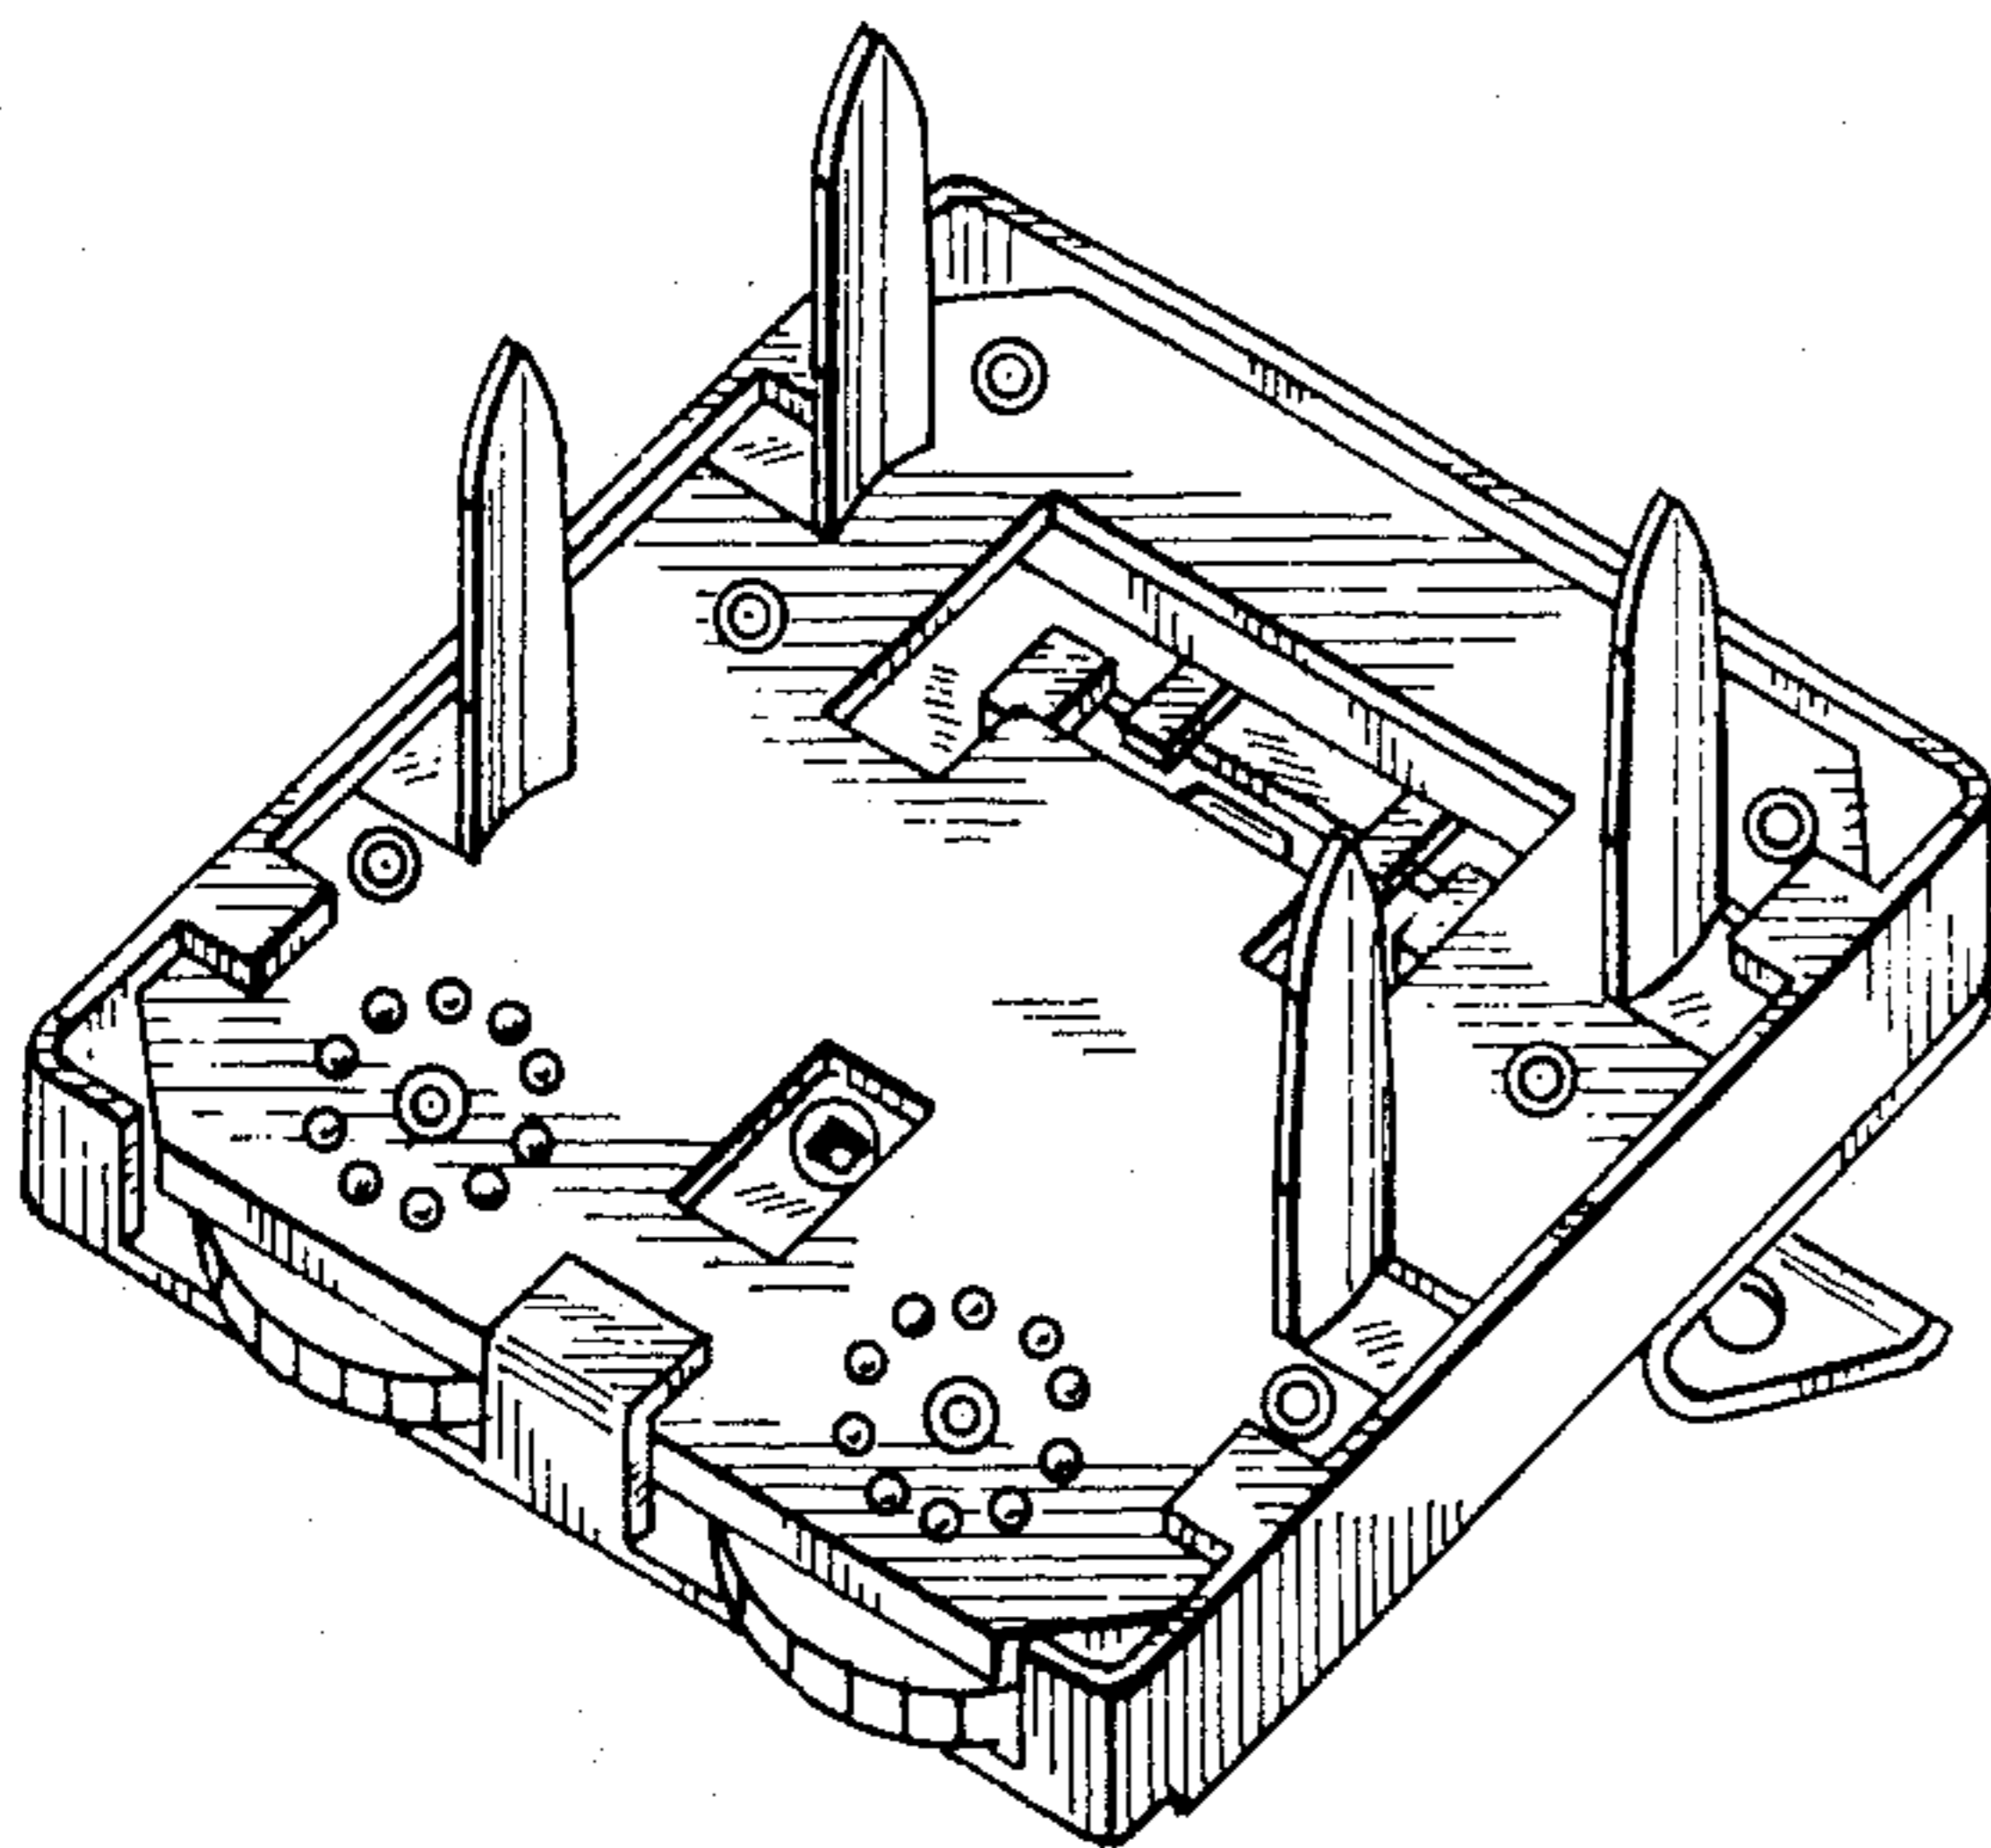

FIG. 3 is an elevational view of the front receiving side thereof, the rear side opposite being substantially flat;

FIG. 4 is an exploded left side elevational view of the lock shown in FIG. 1, the side opposite being a mirror image;

FIG. 5 is a top plan view thereof;

FIG. 6 is an exploded perspective view thereof, as shown in FIG. 1; and

FIG. 7 is a bottom plan view thereof.
