[57] **CLAIM**

The ornamental design for a telephone receiver and base set, as shown and described.

DESCRIPTION

FIG. 1 is a top plan view of a telephone receiver and base set showing my new design with the receiver cradled in the base;

FIG. 2 is a side elevational view thereof, with the view of the side opposite being substantially a mirror image;

FIG. 3 is a front end view thereof;

FIG. 4 is a top plan view of the telephone base;

FIG. 5 is a right side elevational view of the base, the view of the side opposite being substantially a mirror image;

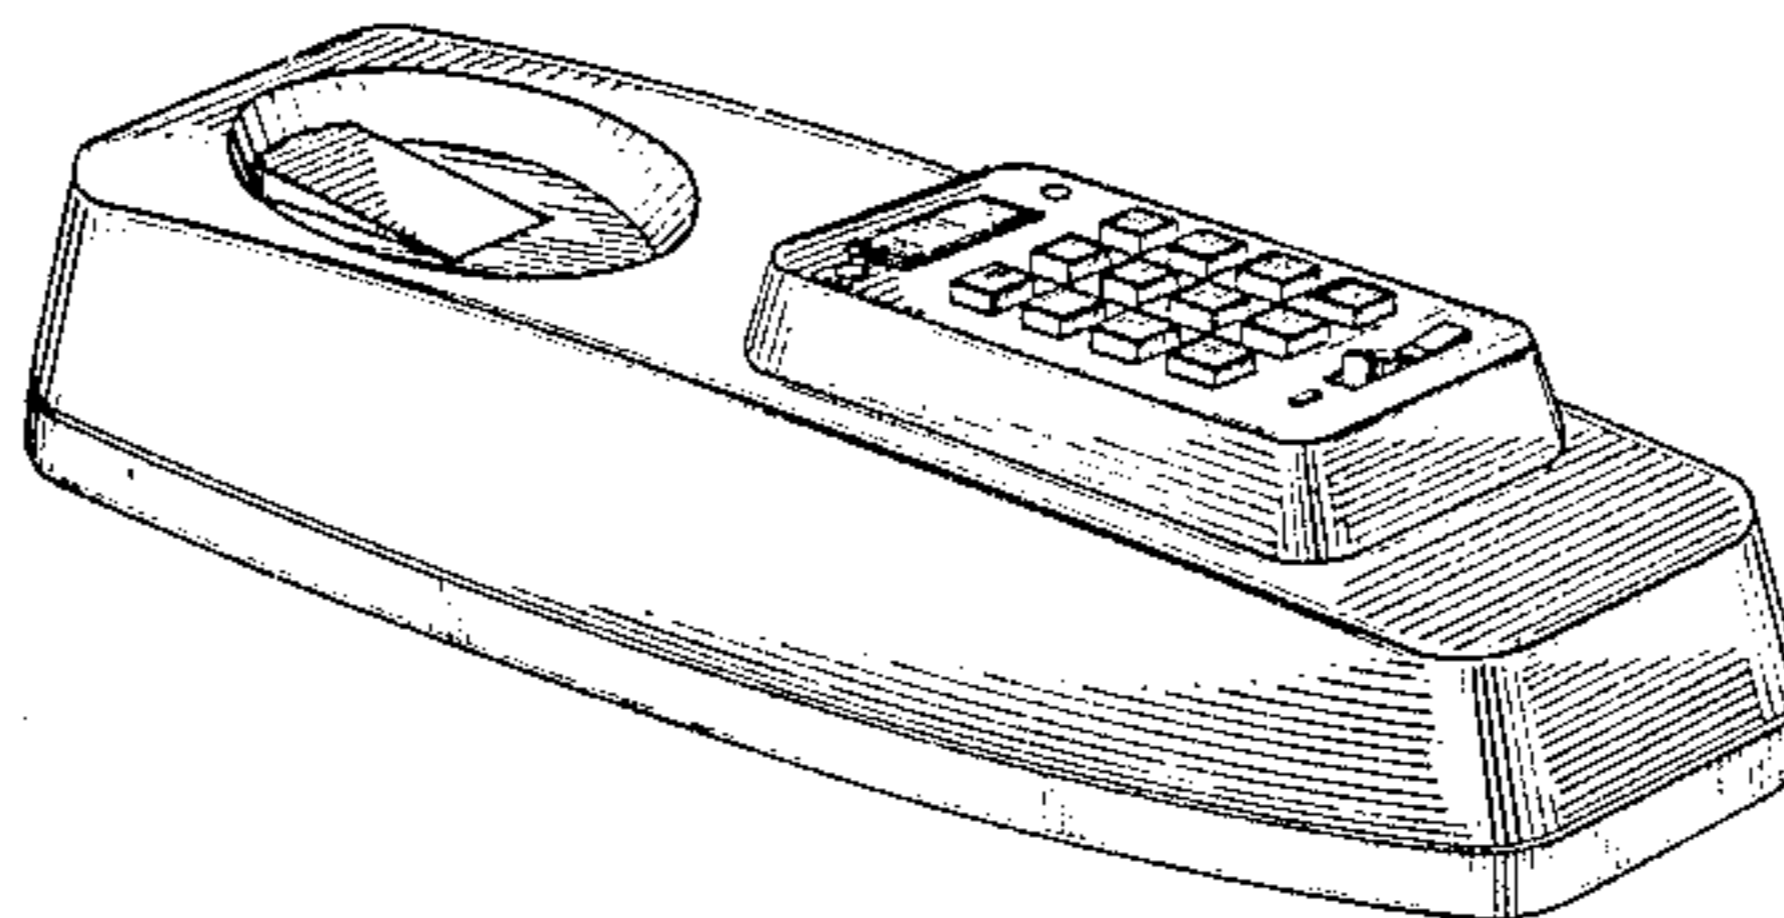

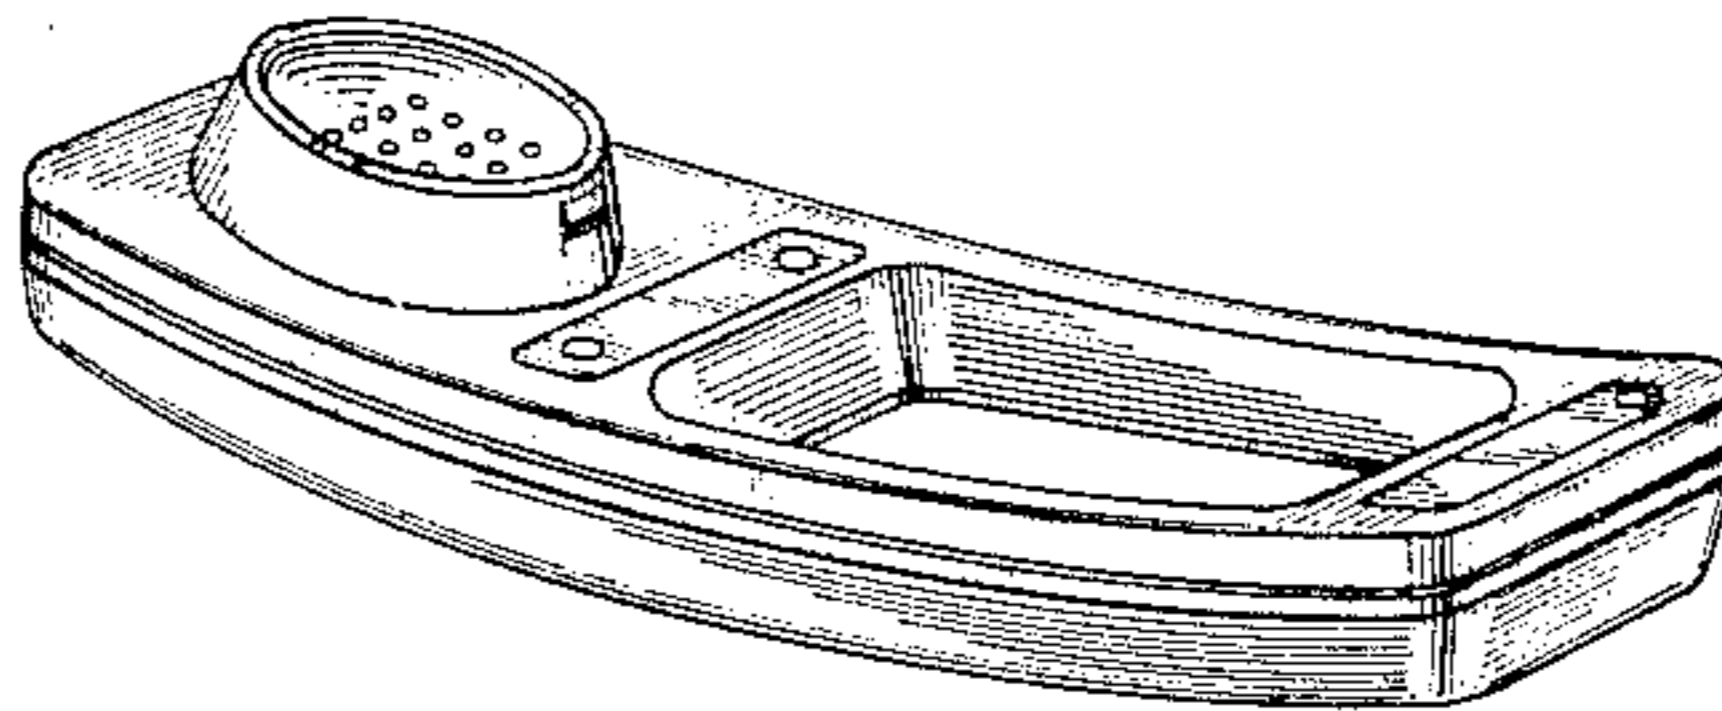

FIG. 6 is a plan view of the operative underside of the receiver;

FIG. 7 is a side elevational view of the receiver, the side opposite being substantially a mirror image;

FIG. 8 is a perspective view of the operative underside of the receiver; and

FIG. 9 is a similar perspective view of the top of the base.

In FIGS. 4-9, the components of the set are shown separately for expedience of illustration.
