[57] **CLAIM**

The ornamental design for a splash block assembly, substantially as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view of the splash block assembly of my new design as seen from a point above, to the front of, and to one side of the design. A view as seen from the same point above and in front of, but from the opposite side would be a mirror image of the view shown in FIG. 1.

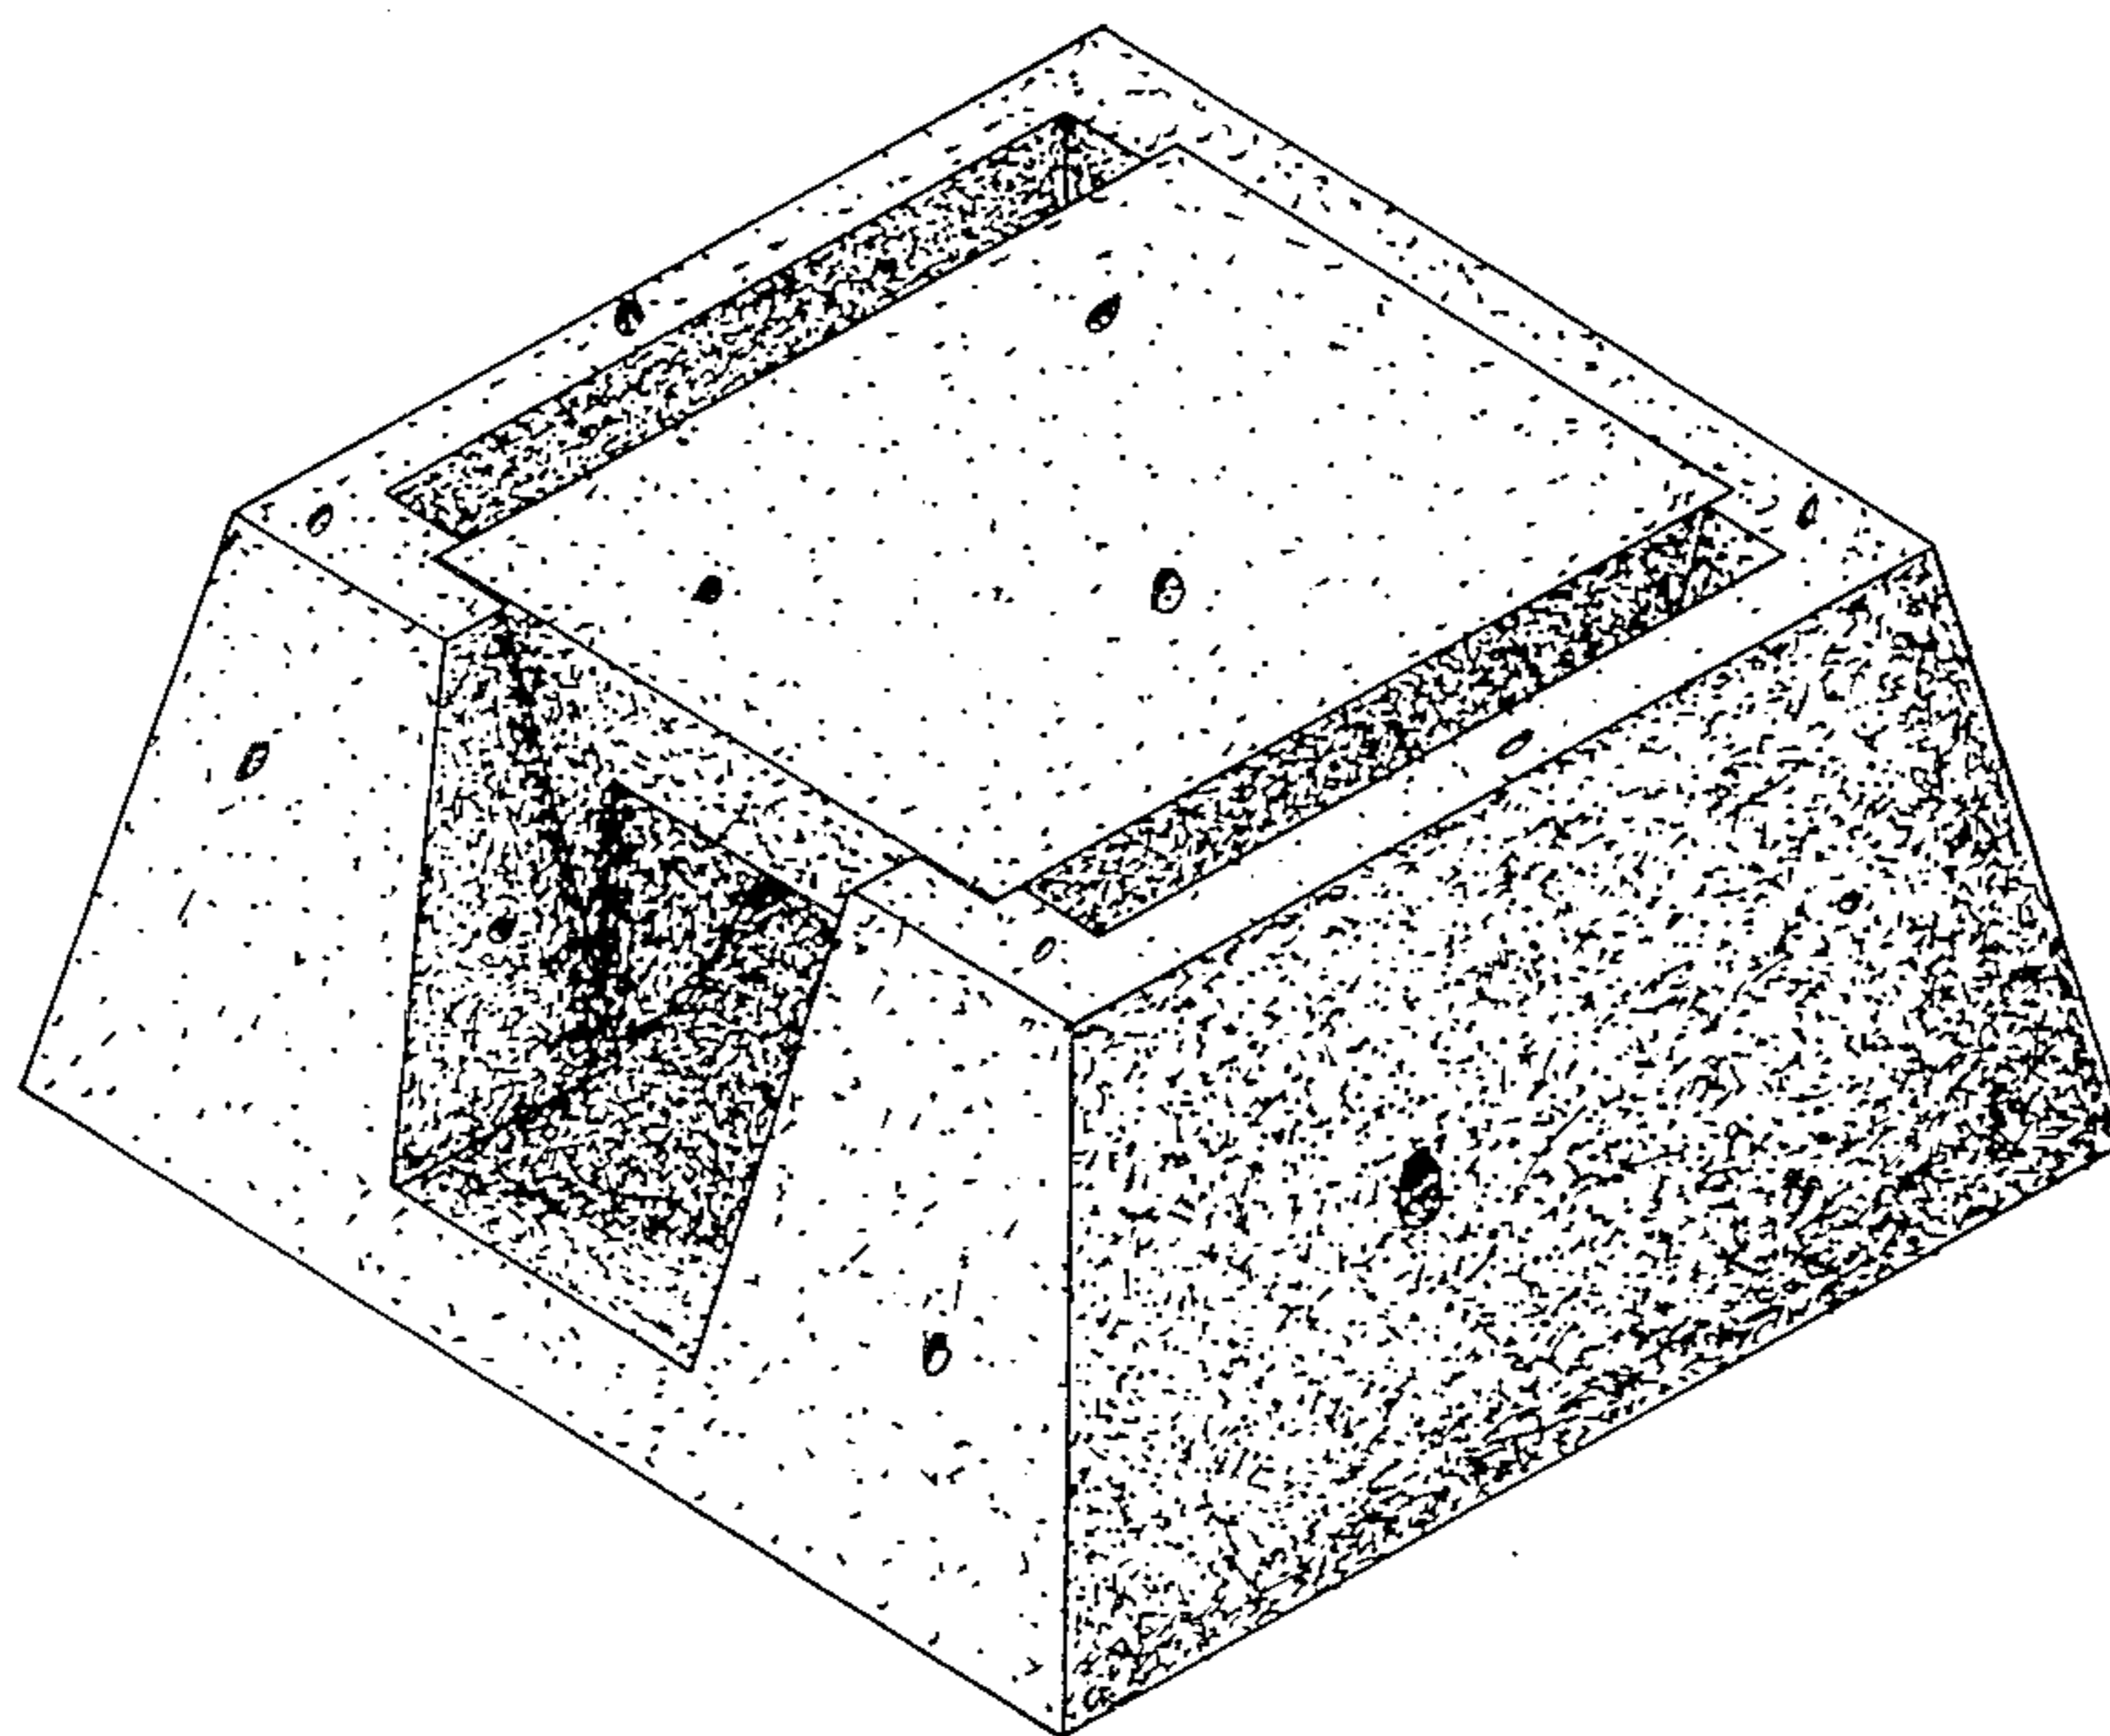

FIG. 2 is a perspective view, exploded to illustrate more clearly the components of the assembly, as seen from a point to the side of the front of the design. A view as seen from the same relative point in front of my design but from the opposite side would be a mirror image of that shown in FIG. 2.

FIG. 3 is an exploded perspective view of my design as seen from a point to one side of the rear of my design. A view as seen from the same point but on the opposite side would be a mirror image of FIG. 3.

FIG. 4 is a bottom plan view of the top element of my design as shown in FIG. 2.

FIG. 5 is a top plan view of the lower positioned element of my design shown in FIG. 2.

FIG. 6 is a plan view of the bottom of my design, reduced in scale.
