[57] CLAIM

The ornamental design for a door for data processor cabinet or the like.

DESCRIPTION

FIG. 1 is a front right side perspective view of a door for data processor cabinet or the like showing our new design;

FIG. 2 is a front elevational view thereof;

FIG. 3 is a left side elevational view thereof, the right side being a mirror image; and

FIG. 4 is a top plan view thereof, the bottom being a mirror image.

The rear view of the data processor cabinet or the like, not shown, is substantially plain and unornamented.

The broken line portion in the above figures are shown for illustrative purposes only.

FIG. 1
