[57] CLAIM

The ornamental design for a work station for process control operations, as shown and described.

DESCRIPTION

FIG. 1 is a top, front, right side perspective view of the work station for process control operations showing our new design;

FIG. 2 is a top plan view thereof;

FIG. 3 is a front elevational view thereof, the details of the keyboard being omitted for convenience of illustration;

FIG. 4 is a right side elevational view thereof, the left side being a mirror image;

FIG. 5 is a rear elevational view thereof;

FIG. 6 is a bottom plan view thereof.

The Left and Right Side view of the FIG. 1 device are substantially identical.
