[57] CLAIM

The ornamental design for an insulin syringe injector, substantially as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of an insulin syringe injector embodying my new design;  
FIG. 2 is a top plan view thereof;  
FIG. 3 is a side elevational view thereof;  
FIG. 4 is an end elevational view thereof as viewed from the left of FIG. 3;  
FIG. 5 is an end elevational view thereof as viewed from the right of FIG. 3;  
FIG. 6 is a bottom plan view thereof;  
FIG. 7 is a side elevational view thereof as viewed from the side opposite FIG. 3; and  
FIG. 8 is a perspective view thereof, showing the foot member adjusted to a retracted position for use with smaller capacity syringes.
