[57] CLAIM

The ornamental design for a tire, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view partly schematic of a tire showing my new design, it being understood that the tread pattern is repeated throughout the circumference of the tire, a portion which is shown schematically by solid lines, and that the opposite side is substantially the same as that shown; and

FIG. 2 is a greatly enlarged fragmentary developmental plan view of the tread surface thereof.
