[57] **CLAIM**

The ornamental design for an physiological pressure monitoring instrument, substantially as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of physiological pressure monitoring instrument embodying our design; FIG. 2 is a front elevational view thereof; FIG. 3 is a left side elevational view thereof; FIG. 4 is a right side elevational view thereof; FIG. 5 is a back elevational view of the instrument case, showing the side opposite that shown in FIG. 1; FIG. 6 is a top plan view thereof. FIG. 7 is a bottom plan view thereof.
