[57] CLAIM

The ornamental design for a display station for a data processing system, as shown and described.

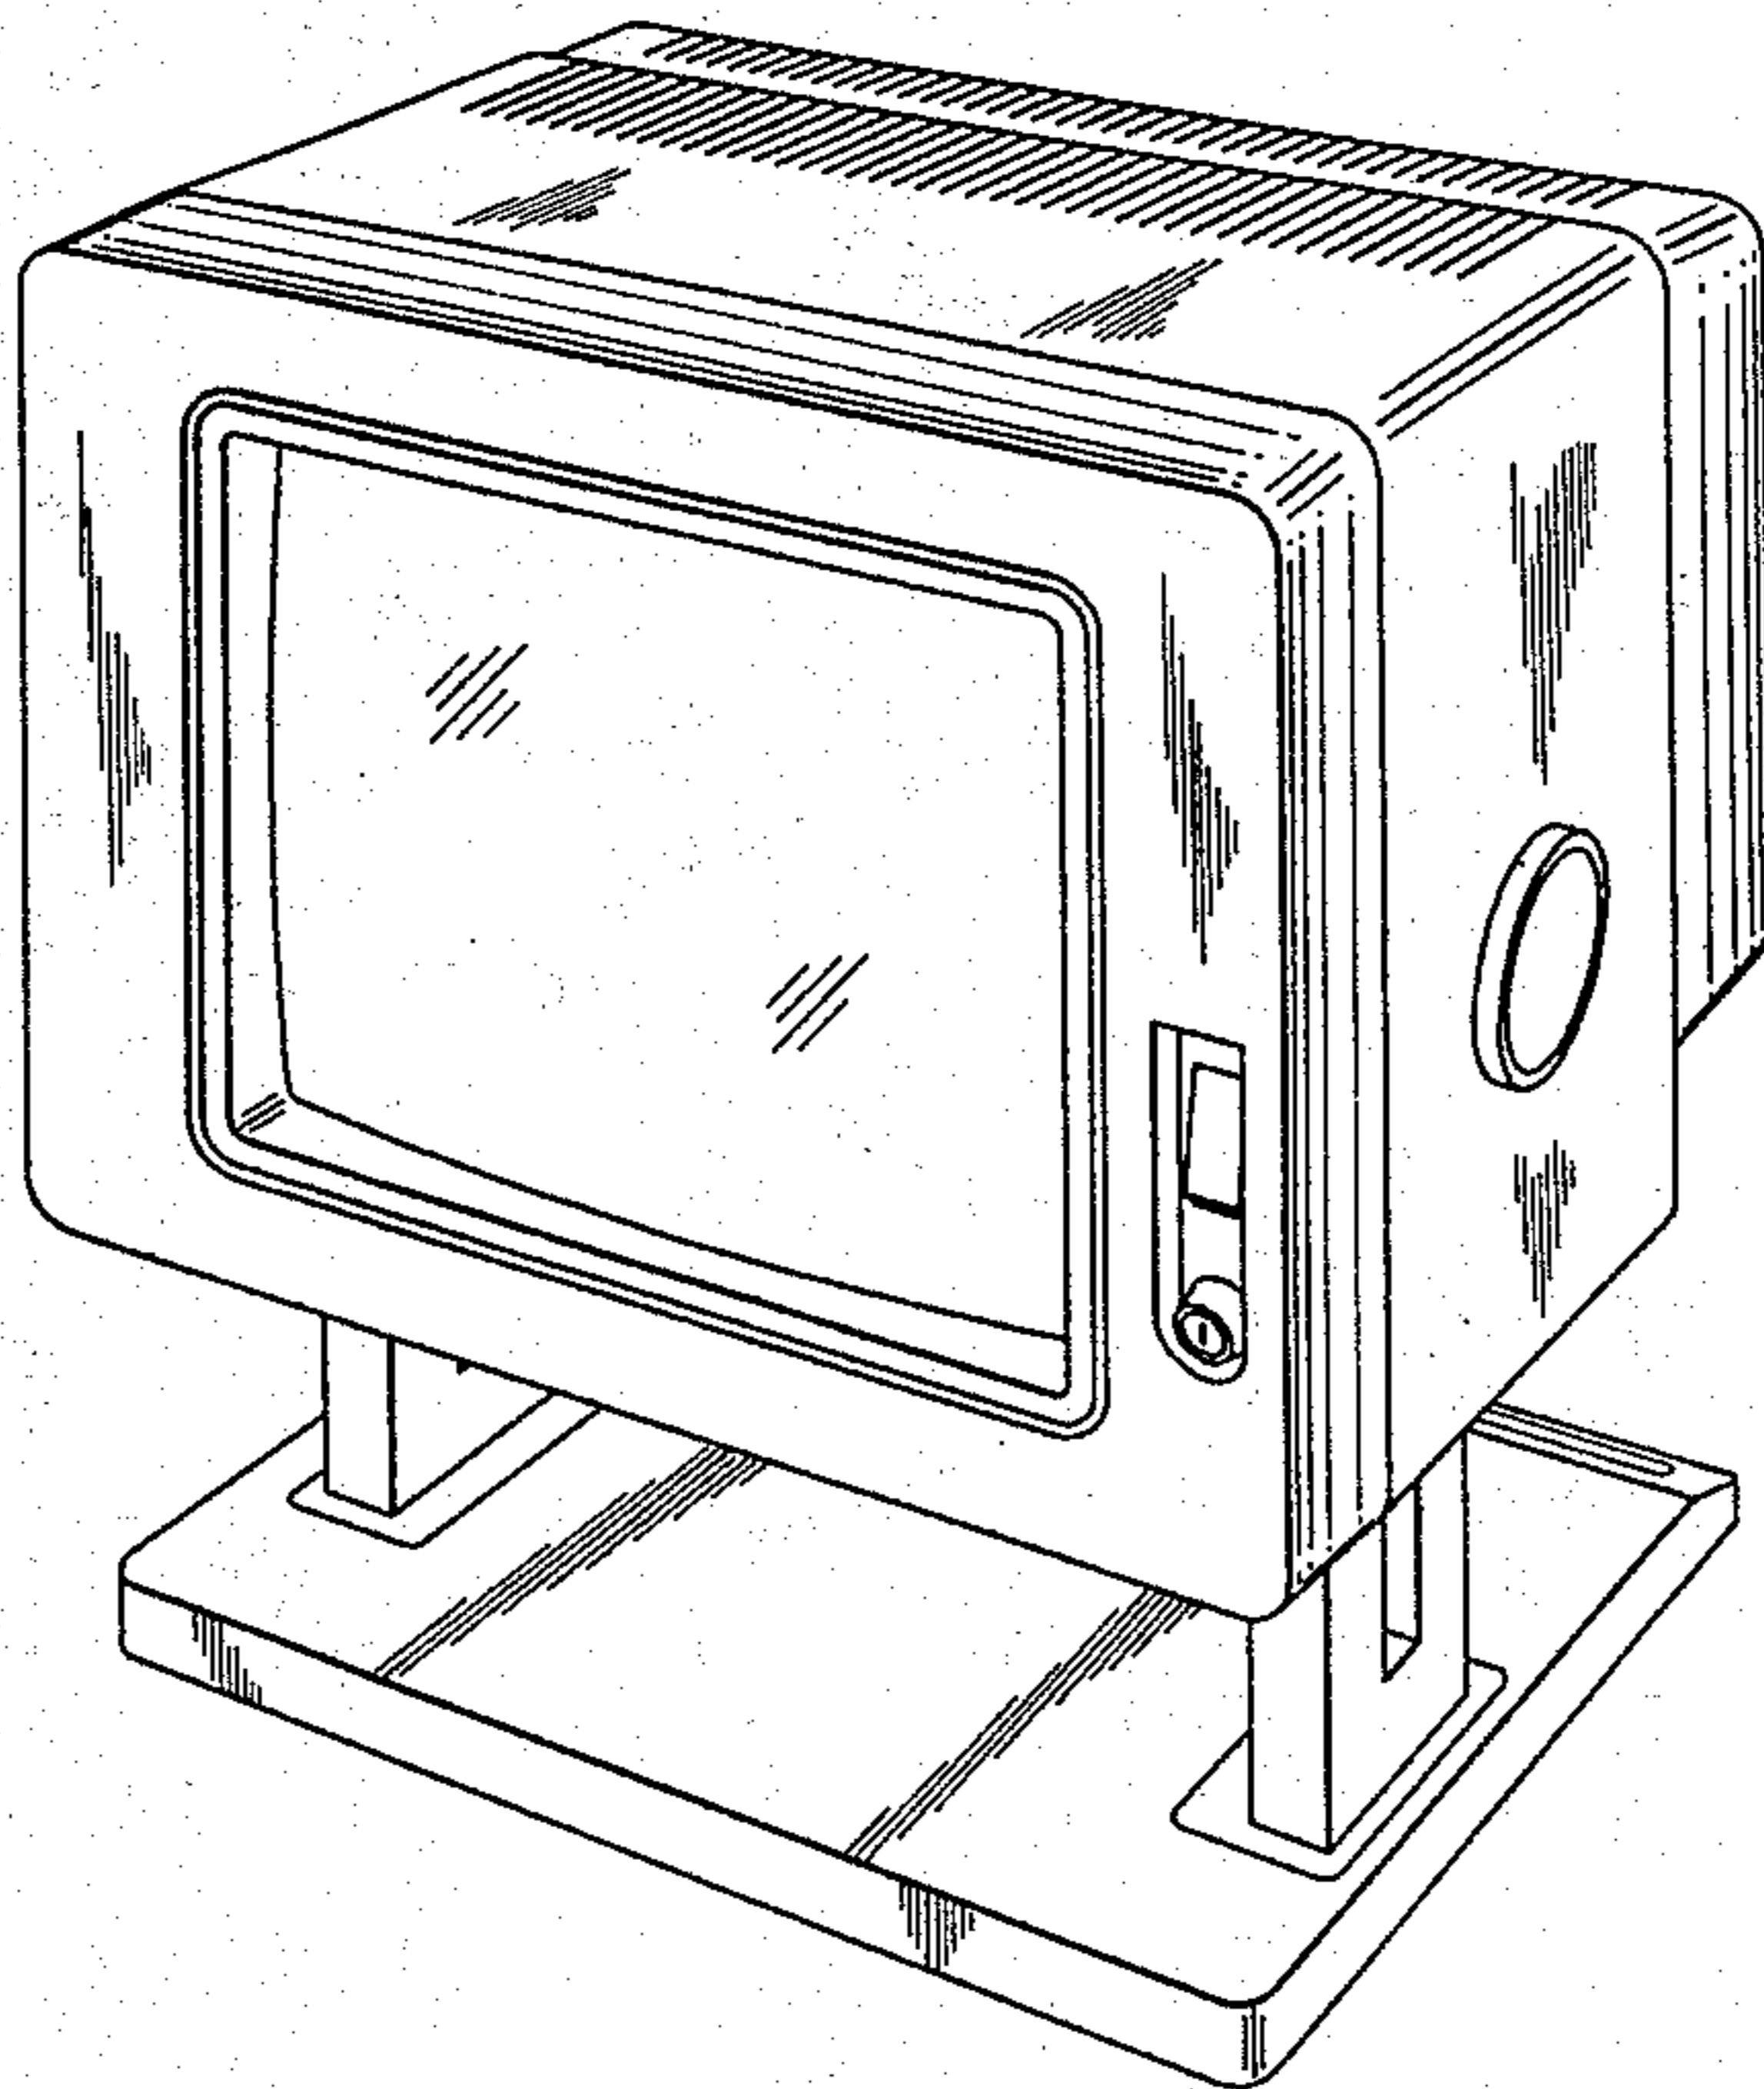

DESCRIPTION

FIG. 1 is a front three-quarter perspective view of a display station for a data processing system incorporating our new design.

FIG. 2 is a rear three-quarter perspective view thereof, the vertically movable display being in a lowered position on the legs.

FIG. 3 is a side elevation thereof.

The display head is movable vertically on the upstanding slotted legs. FIG. 1 shows the head in a raised position, while FIG. 2 shows it in a lowered position.

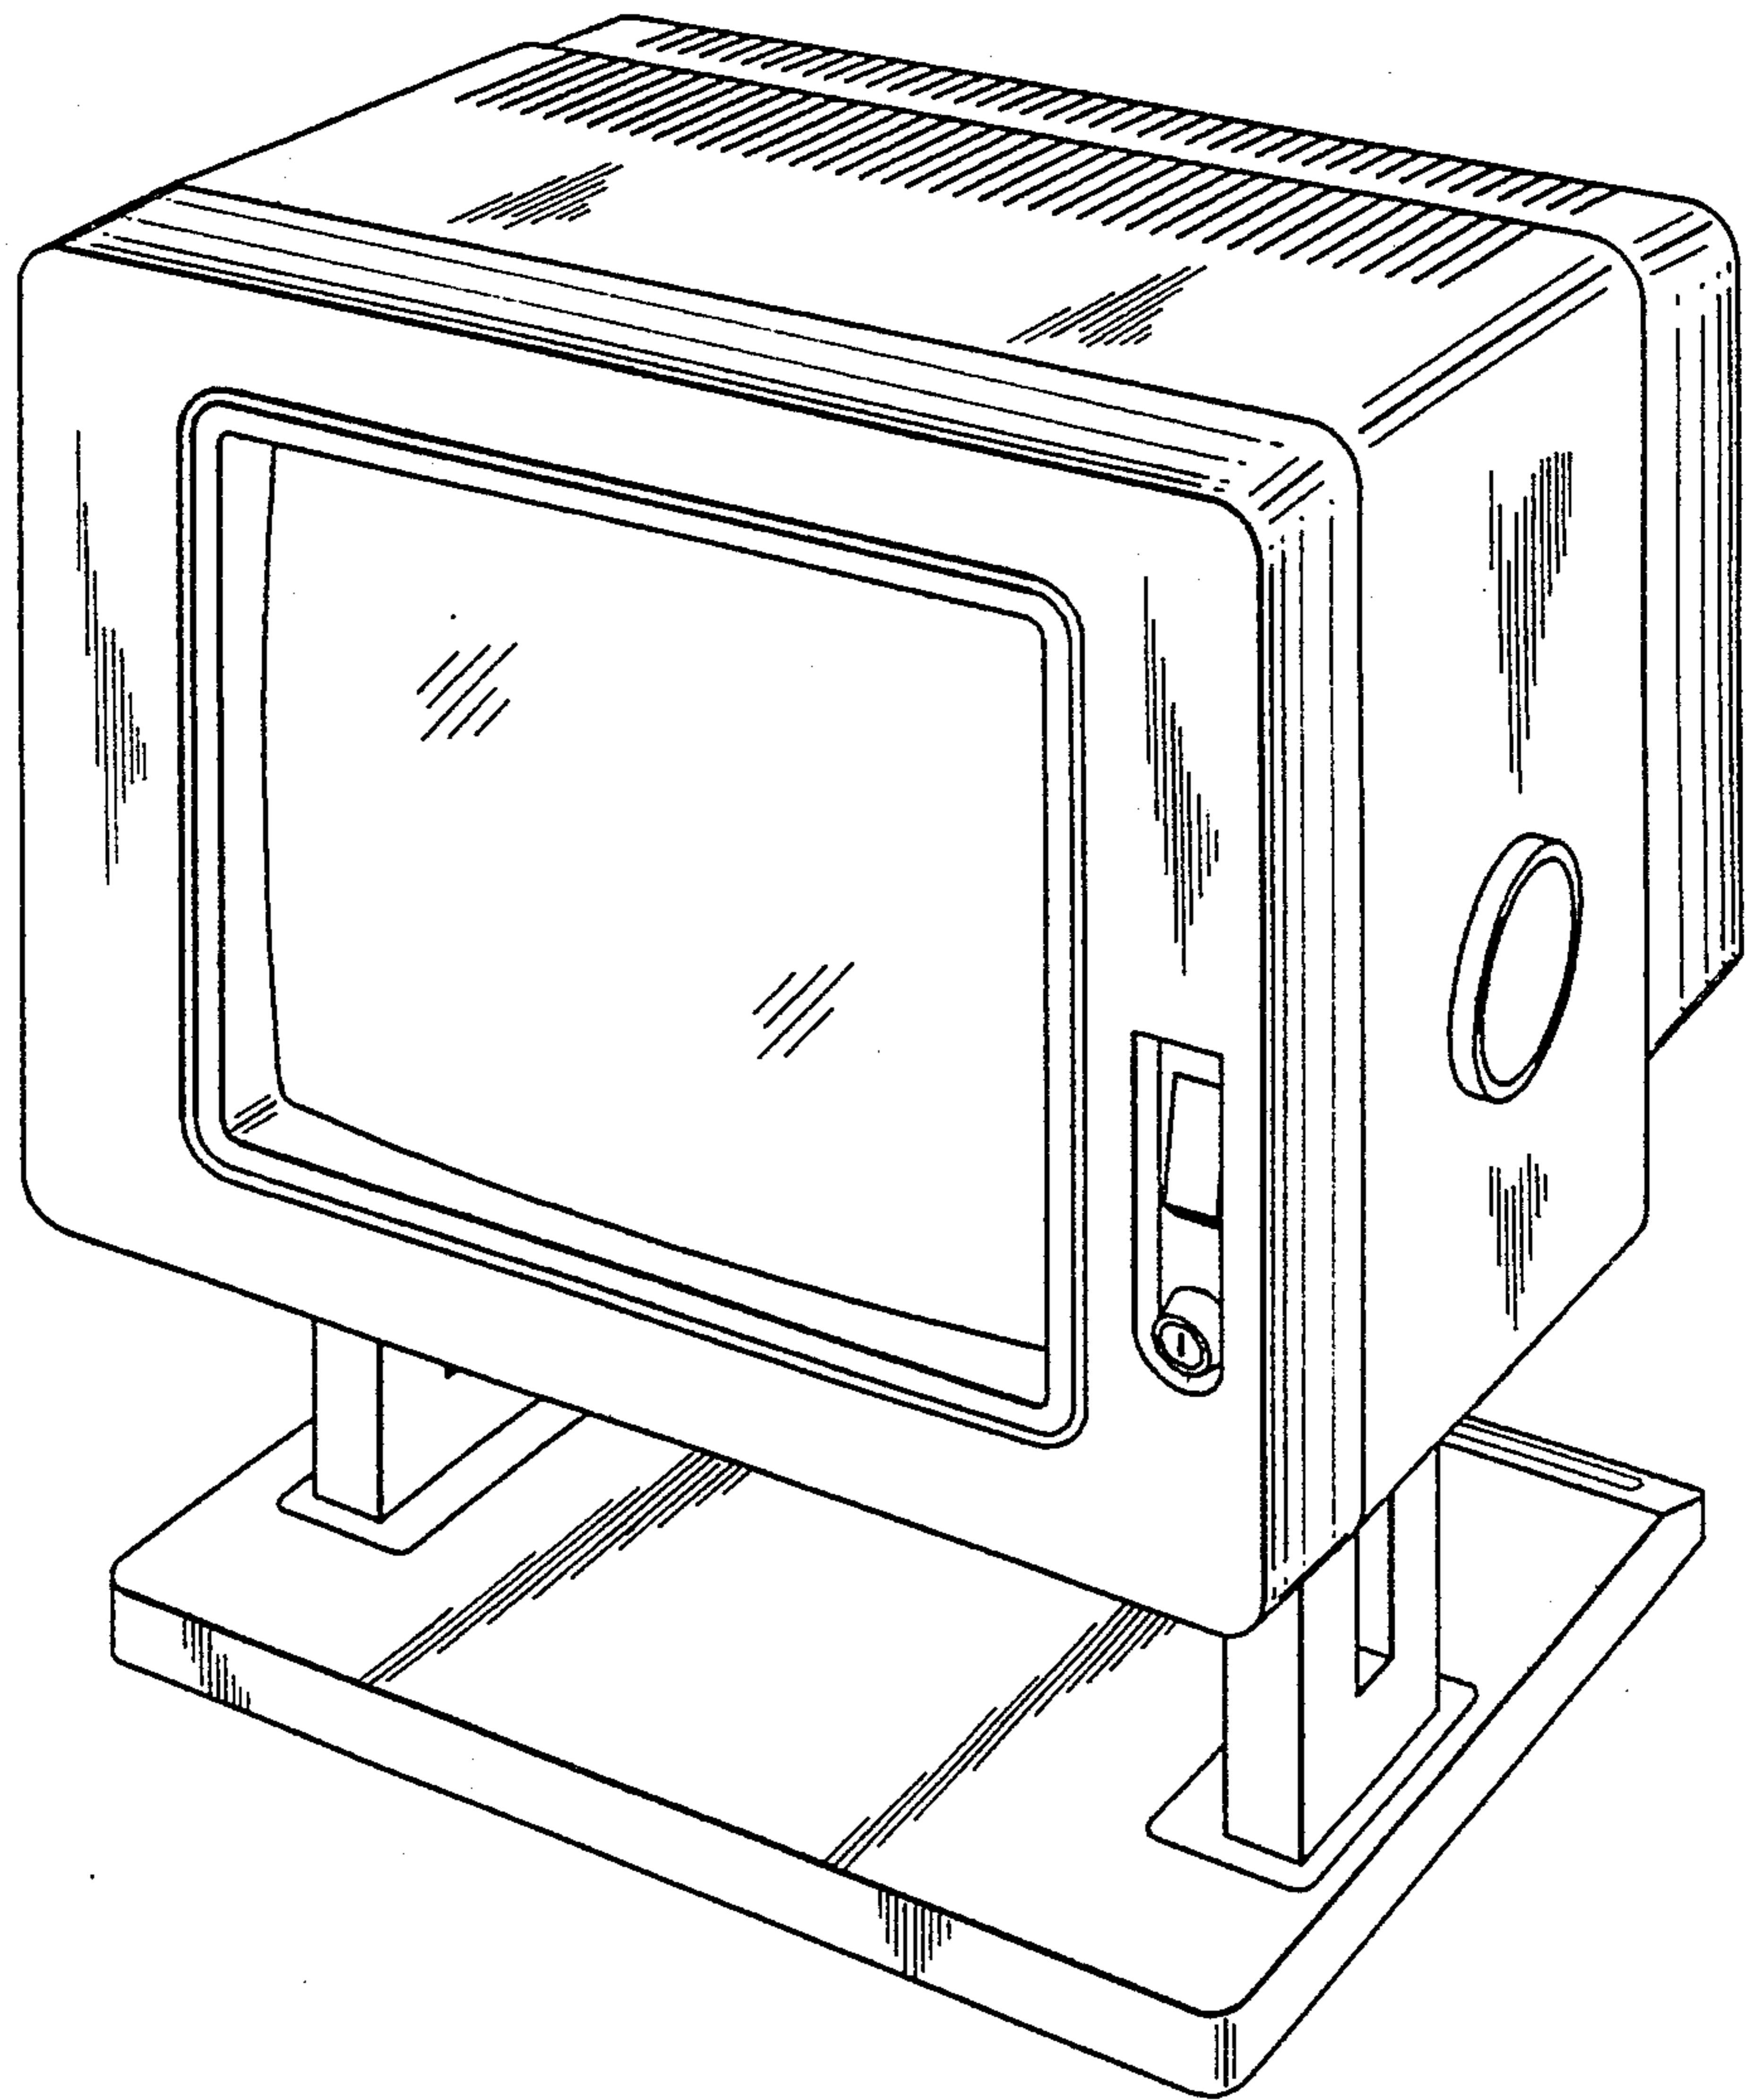

FIG. 1

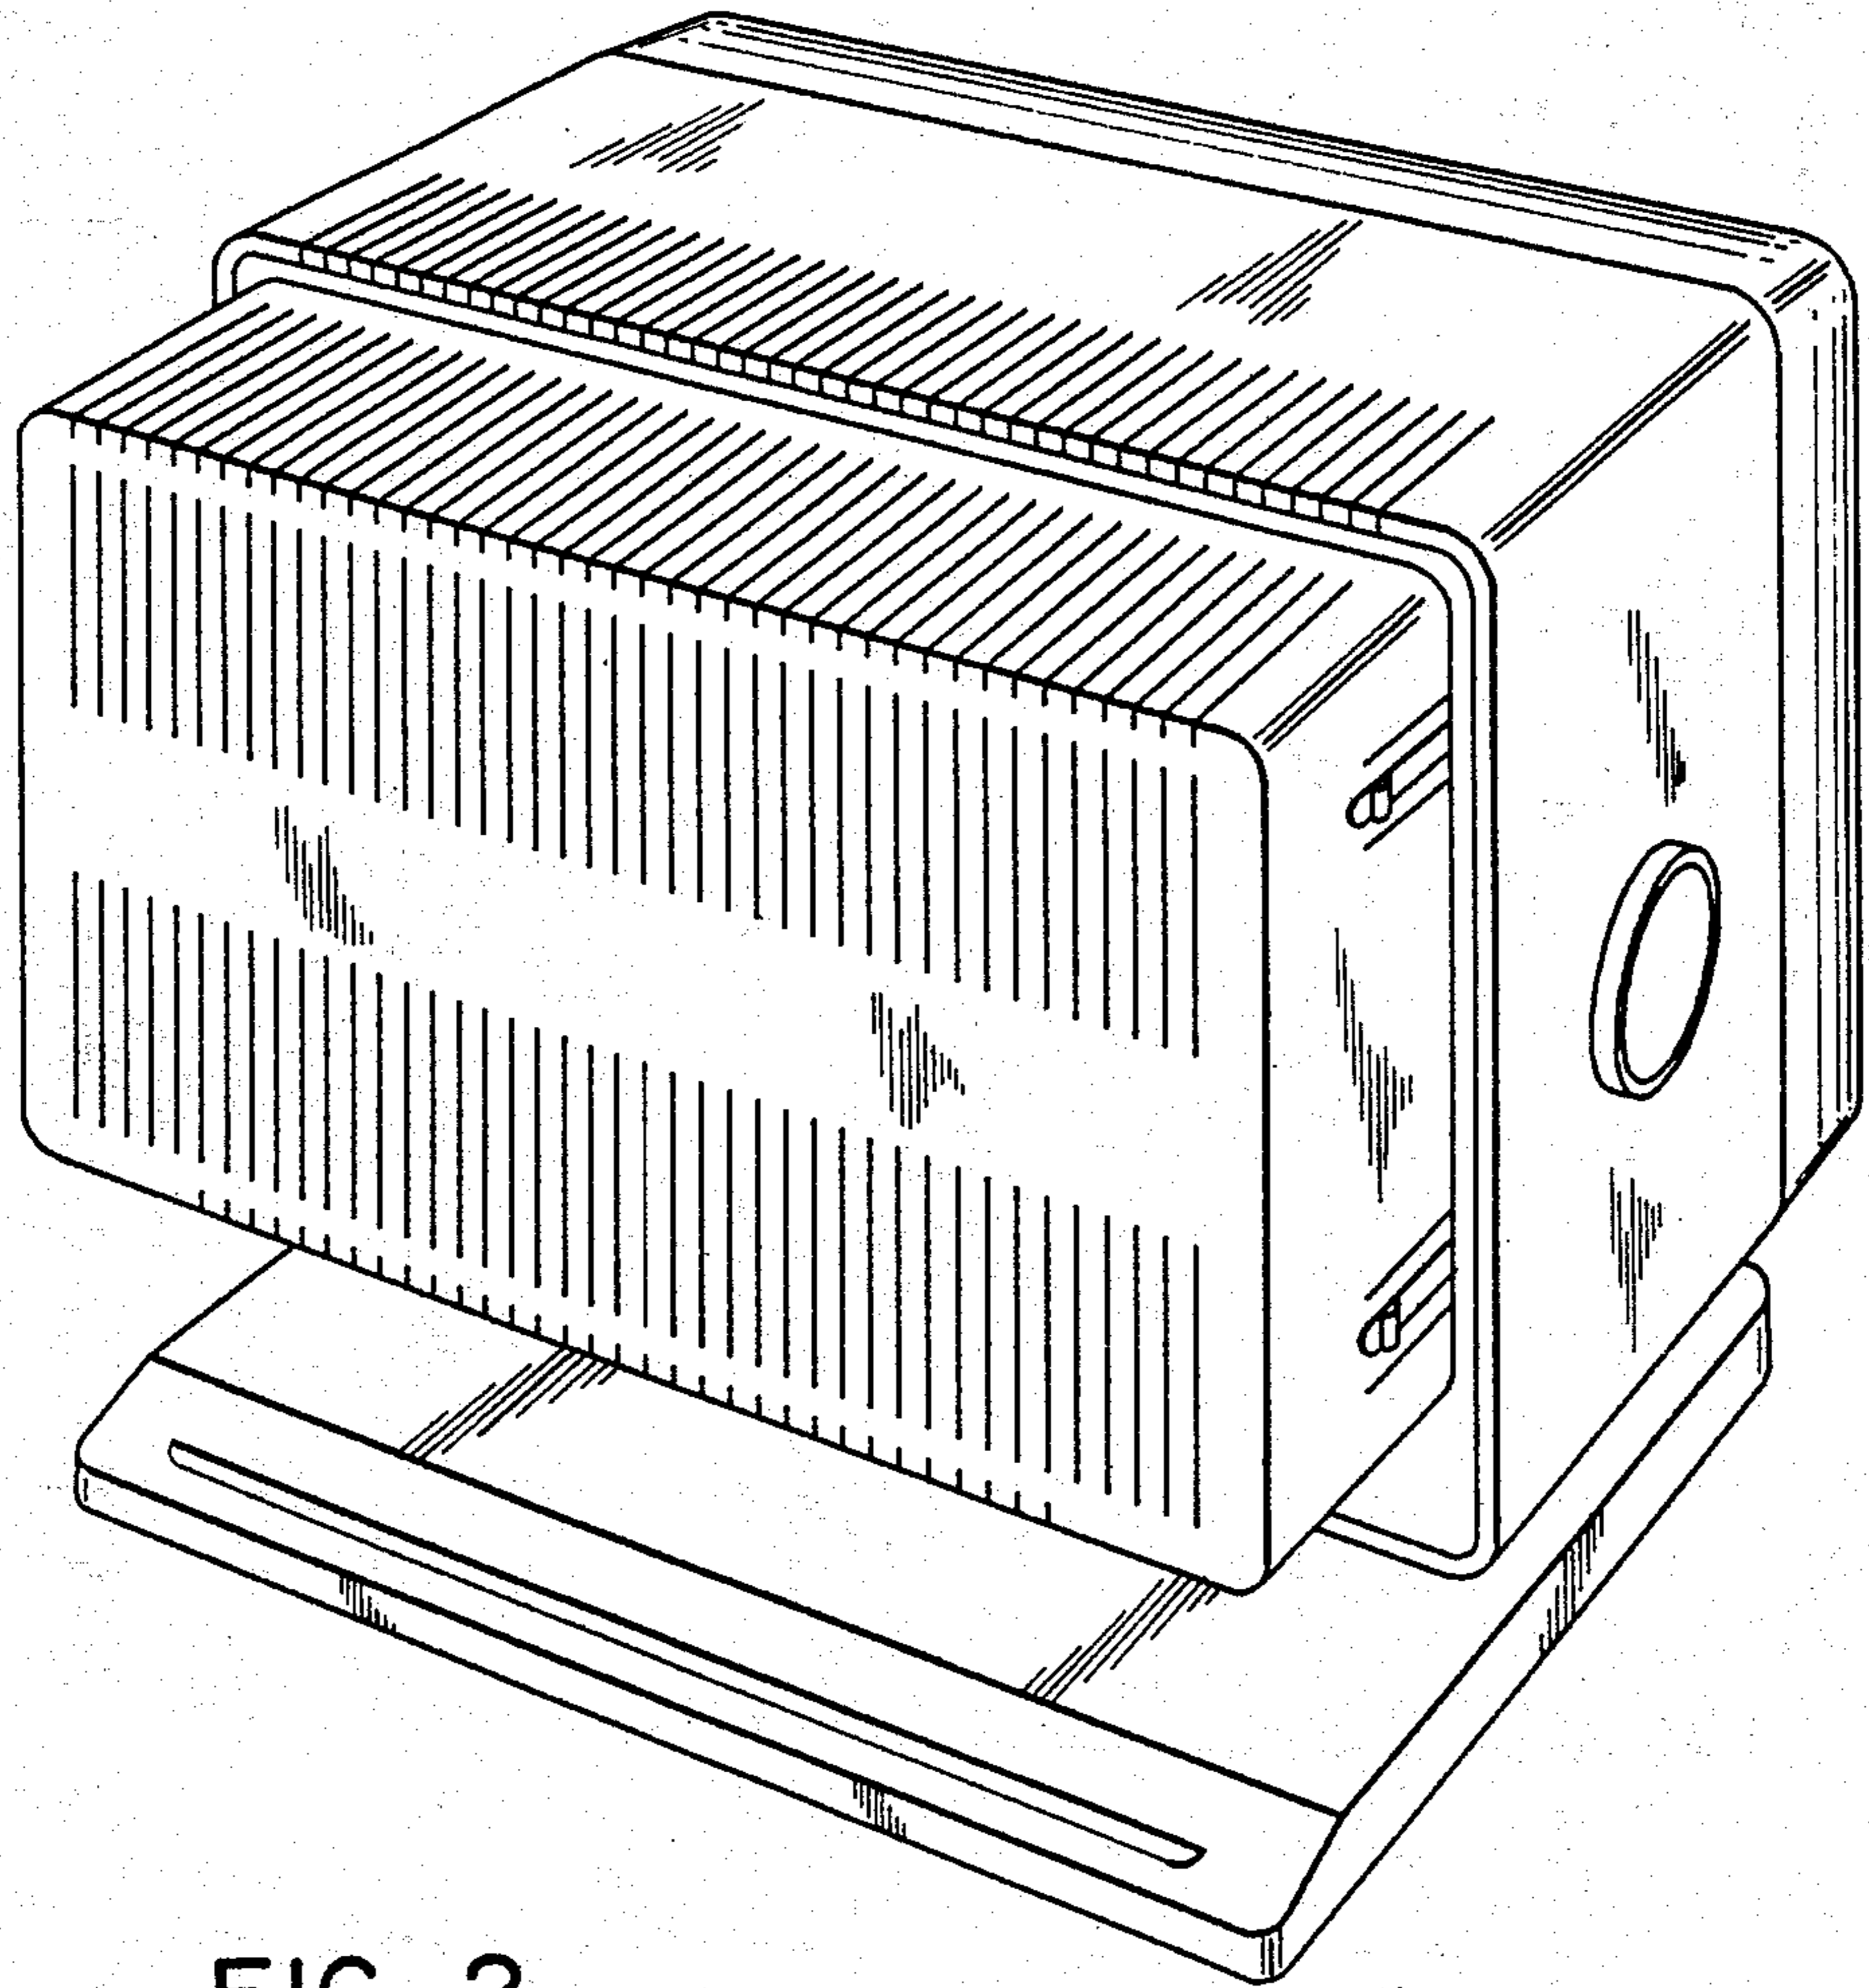

FIG. 2

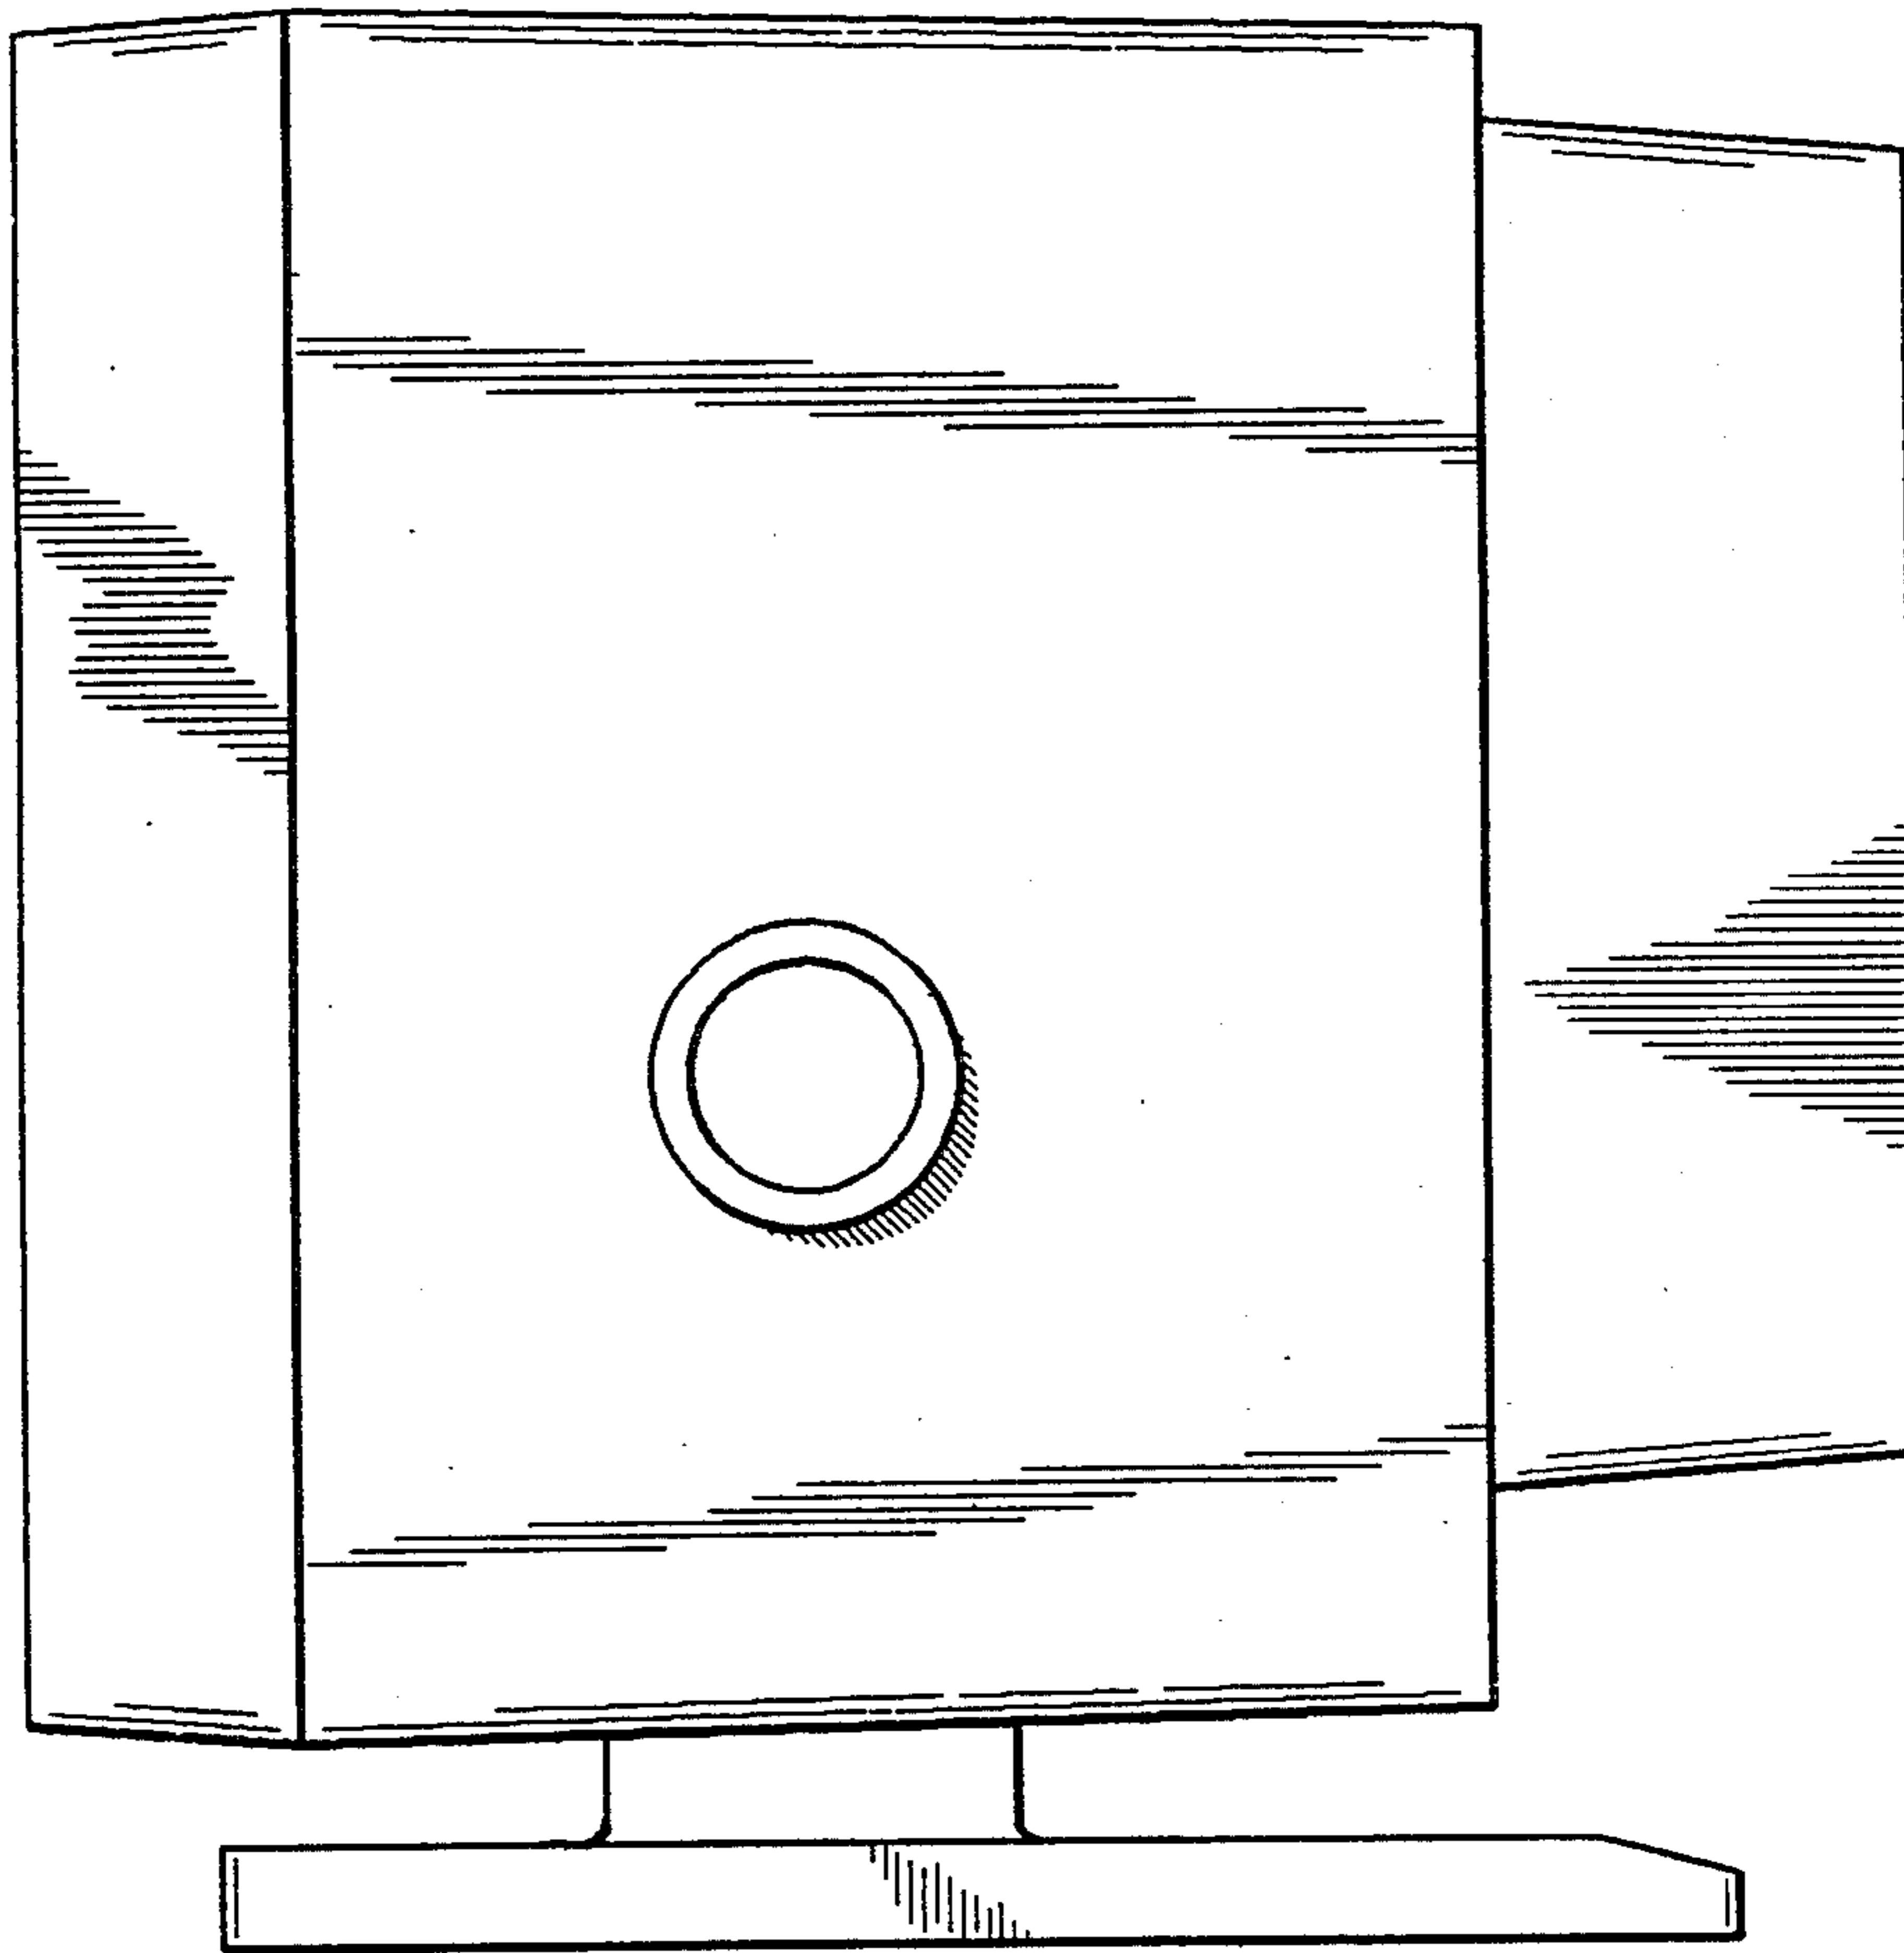

FIG. 3
