[57] CLAIM

The ornamental design for a satellite dish antenna support rib, as shown and described.

DESCRIPTION

FIG. 1 is a top and front perspective view of a satellite dish antenna support rib showing our new design; FIG. 2 is an enlarged top and front perspective view thereof;

FIG. 3 is an enlarged top plan view thereof; FIG. 4 is an enlarged front elevational view thereof, the rear elevational view is a mirror image;

FIG. 5 is an enlarged side elevational view thereof, the opposite side elevational view is a mirror image; and FIG. 6 is an enlarged bottom plan view thereof.

The satellite dish antenna support rib shown in FIGS. 2, 3, 4 and 6 is broken away to indicate indeterminate length.

The broken line showing of the internal structure is for illustrative purposes only and forms no part of the claimed design.
