[57] CLAIM

The ornamental design for a wall holder for a cordless handset telephone, as shown and described.

DESCRIPTION

FIG. 1 is a left side perspective view of a wall holder for a cordless handset telephone or similar article showing our new design wherein its adjustable center portion is extended;

FIG. 2 is a front elevational view thereof;

FIG. 3 is a left side elevational view thereof, the side opposite being a mirror image;

FIG. 4 is a rear elevational view thereof;

FIGS. 5, 6 and 7 are respectively front elevational, left side elevational, and rear elevational views, wherein the adjustable center portion is retracted into end portions of the wall holder, and the right side elevational view being a mirror image of the left; and

FIGS. 8 and 9 are respectively top and bottom plan views of the wall holder shown in FIGS. 1-7.

The broken lines are shown for purposes of illustration only.
