[57] CLAIM

The ornamental design for a housing for electrical components and the like, substantially as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a housing for electrical components and the like showing our new design; FIG. 2 is a front elevation thereof; FIG. 3 is a side elevation thereof, both sides being identical; FIG. 4 is an end elevation thereof, both ends being identical; FIG. 5 is a rear elevation thereof; and FIG. 6 is a side elevation of an alternate embodiment of FIG. 1, wherein the only difference resides in the additional rib element.

A characteristic feature of our new design are one or more circumferential ribs about the sides and ends of a housing for electrical components and the like according to our design.
