[57] CLAIM

The ornamental design for a combined shaft bearing sleeve and attachment collar for surgical cutting tools, substantially as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a combined shaft bearing sleeve and attachment collar for surgical cutting tools showing my new design, the threads which are partially shown extend into the attachment collar;

FIG. 2 is a top plan view thereof;

FIG. 3 is a bottom plan view thereof.

The characteristic feature of my design resides in the specific configuration of the attachment collar.

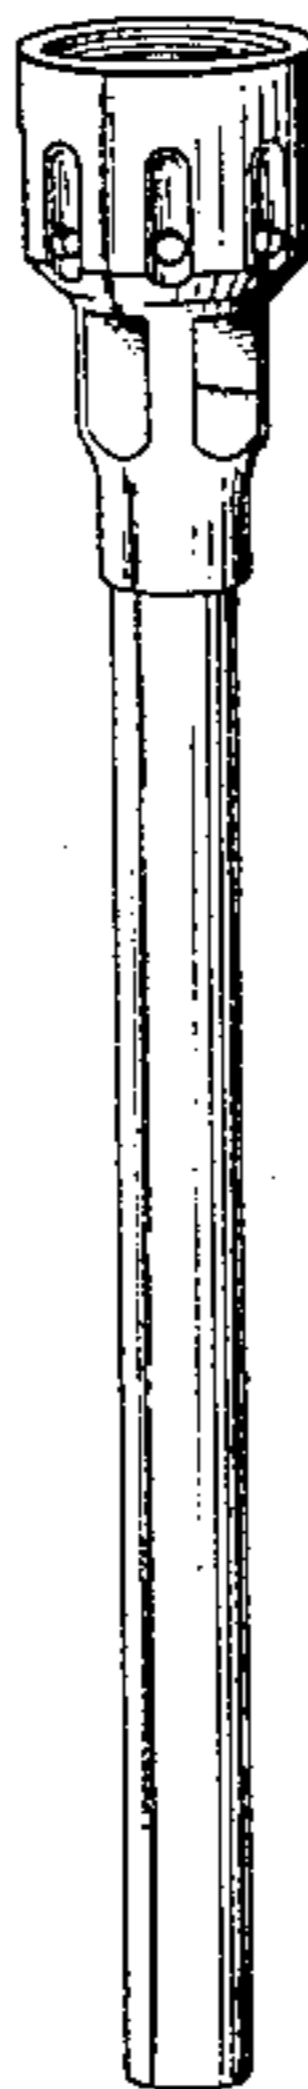

FIG. 1

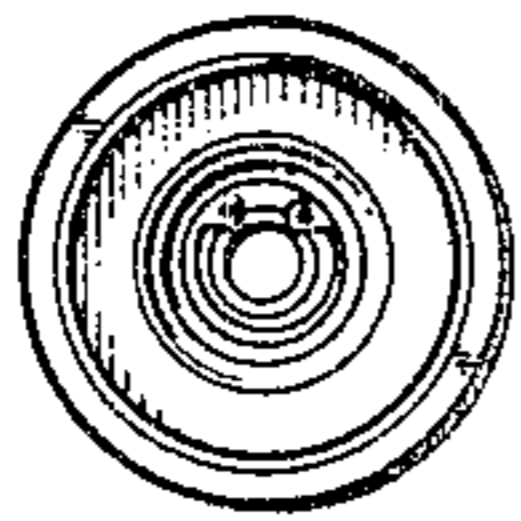

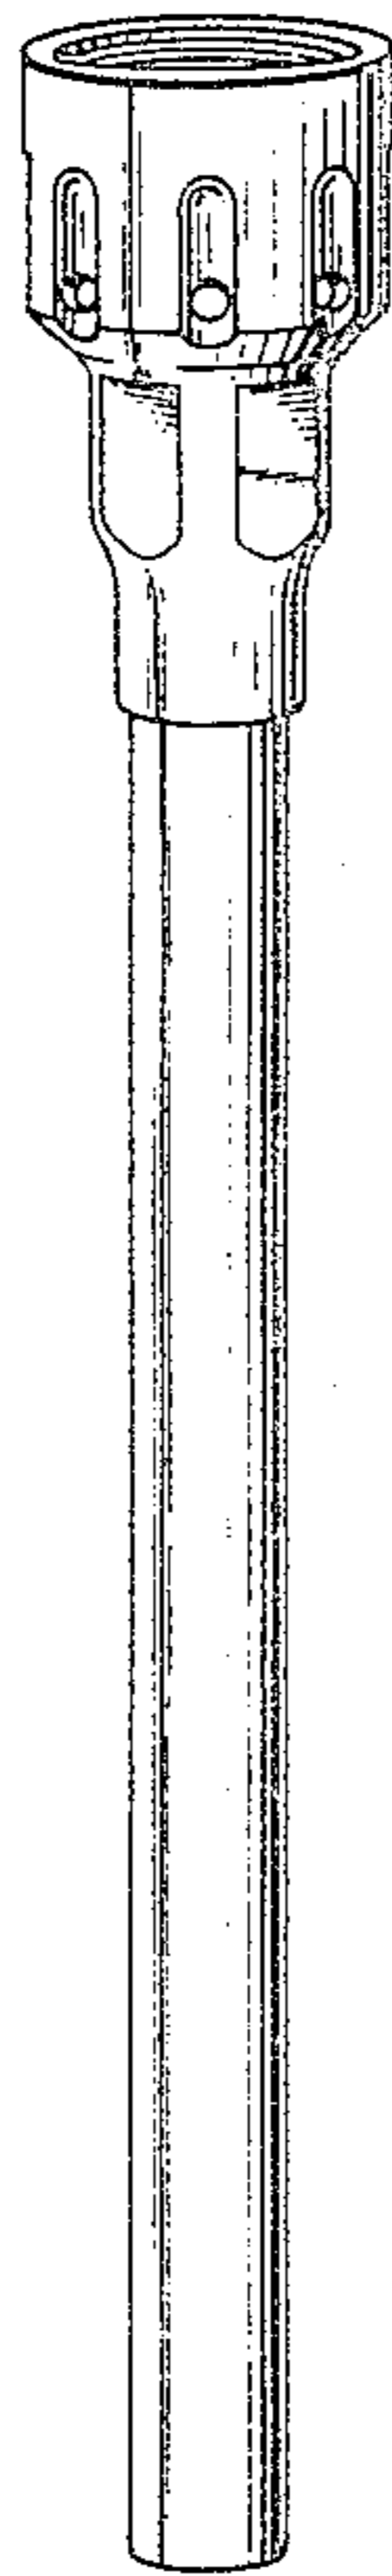

FIG. 2

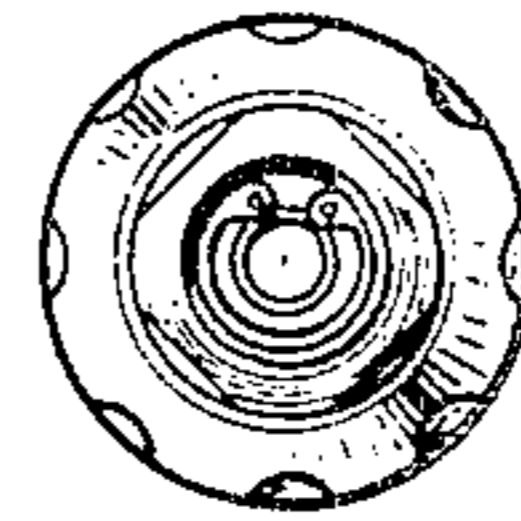

FIG. 3
