[57] CLAIM

The ornamental design for adjustable paint brush or the like, substantially as shown and described.

DESCRIPTION

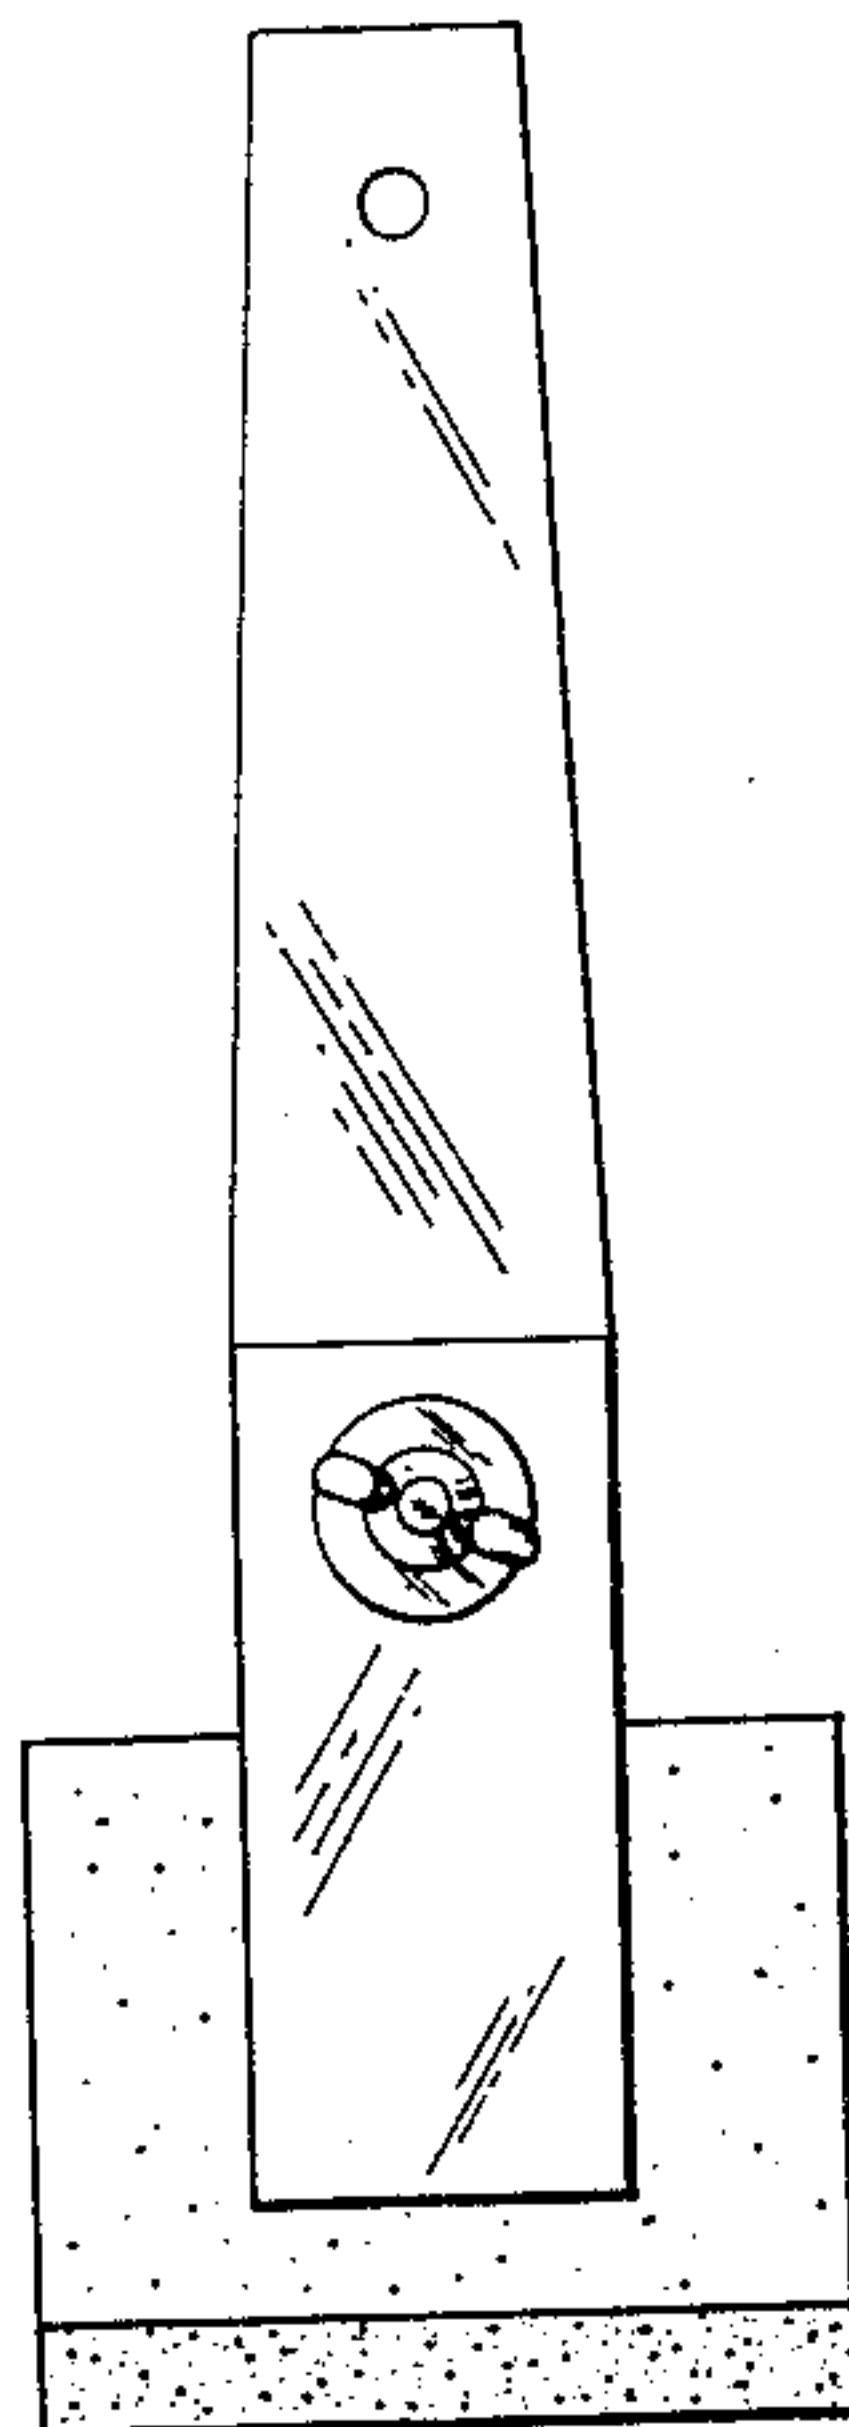

FIG. 1 is a top plan view of the adjustable paint brush or the like showing my new design;

FIG. 2 is a right side elevational view thereof with the thumb nut rotated to align the wings generally vertical and the head of the bolt being round;

FIG. 3 is a bottom view thereof with the thumb nut rotated to align the wings generally horizontal;

FIG. 4 is a reduced partial perspective view of a portion of the new design showing the holder with a wide piece of foam;

FIG. 5 is an enlarged partial perspective view of the new design showing the holder with a narrow piece of foam forming a small brush and the holder not compressing the foam.
