[57] CLAIM

The ornamental design for an emergency neck immobilizer, substantially as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of an emergency neck immobilizer showing my new design.

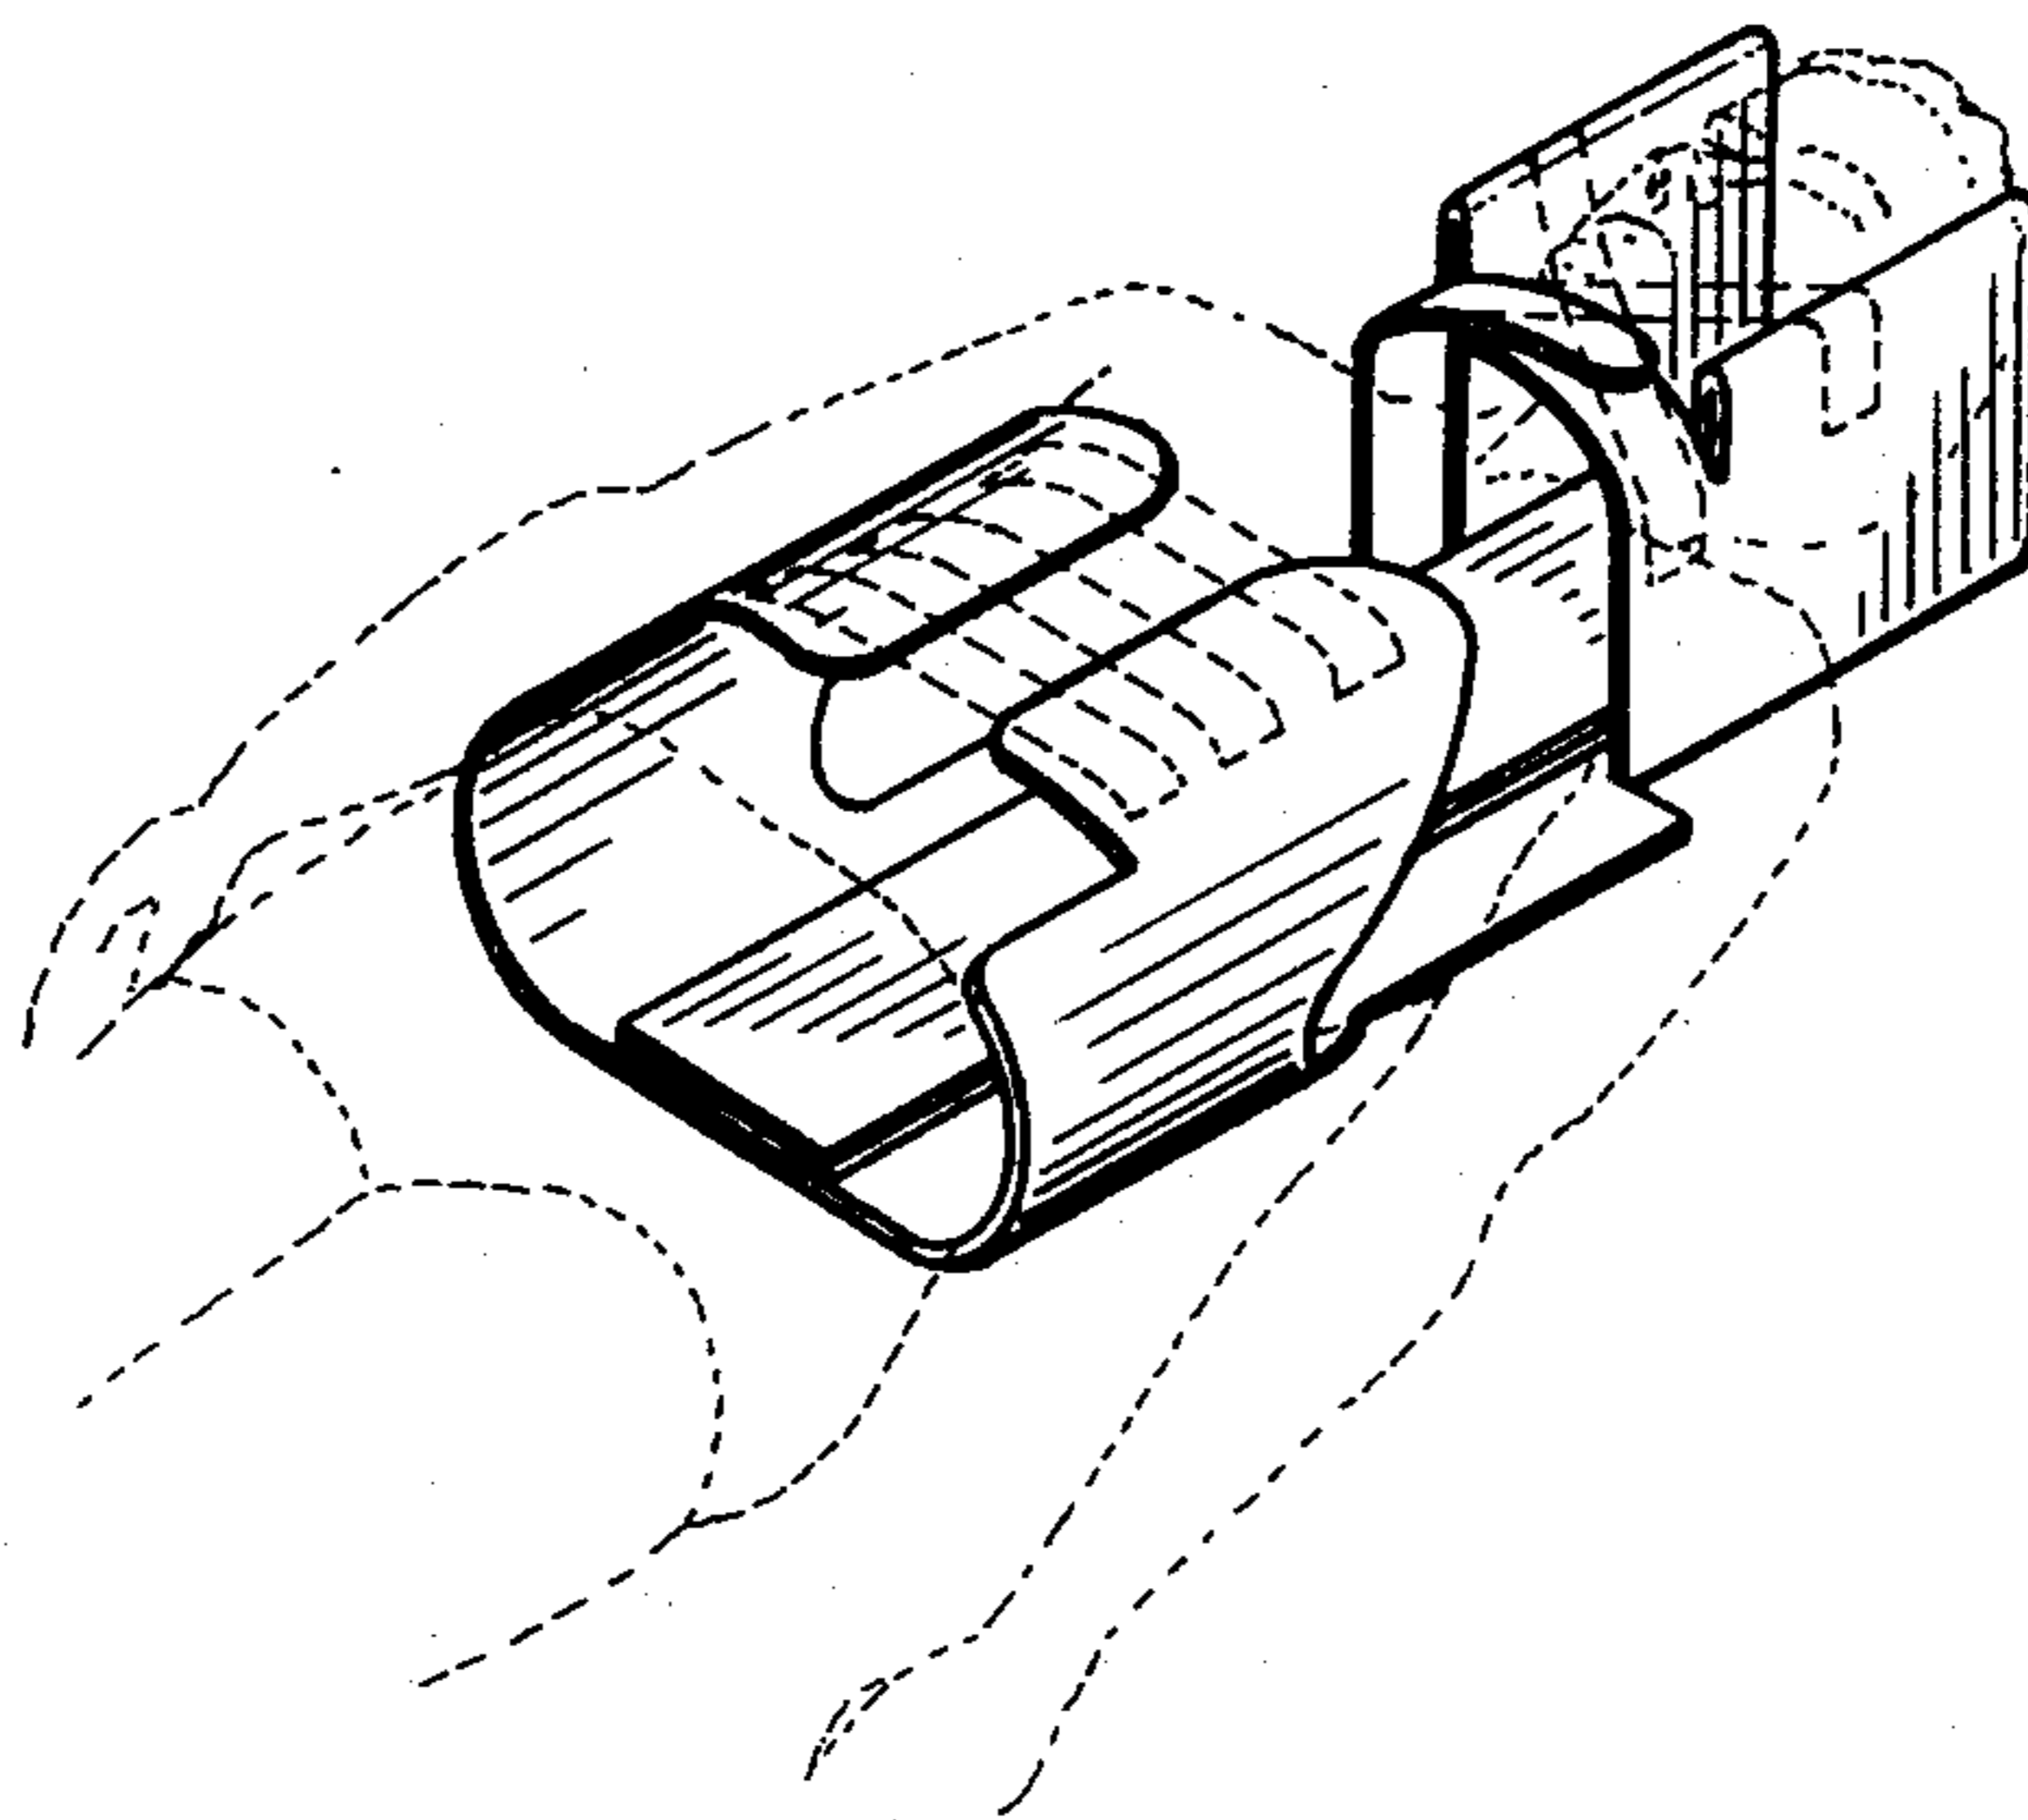

FIG. 2 is right side elevational view thereof, the left side being a mirror image.

FIG. 3 is a top plan view thereof.

FIG. 4 is a rear elevational view thereof.

FIG. 5 is a bottom plan view thereof.

FIG. 6 is a perspective view thereof illustrating the use of the instant device to immobilize a human being. The dotted line indicia on the device forms no part of the design.
