[57] CLAIM

The ornamental design for a snap-on hanger collar for pipes and the like, as shown and described.

## DESCRIPTION

FIG. 1 is a perspective view of a snap-on hanger collar for pipes and the like, showing my new design; FIG. 2 is an end elevational view thereof, the end opposite being a mirror image, it being understood that the arcuate broken line representing a pipe in supported relationship is shown for environmental association purposes only, and forms no part of the design claimed; FIG. 3 is an elevational view of one side, the opposite side being a mirror image thereof; FIG. 4 is a top plan view, the bottom plan view being a mirror image thereof; FIG. 5 is an elevational view of one end of the top half, the opposite end being a mirror image thereof; FIG. 6 is a bottom plan view of the top half thereof; FIG. 7 is an elevational view of one end of the bottom half, the opposite end being a mirror image thereof; and, FIG. 8 is a top plan view of the bottom half hereof.
