[57] CLAIM

The ornamental design for a translucent hand-held
blinking device for signaling transportation, such as bus
or taxi, as shown and described.

DESCRIPTION

FIG. 1 is a side and left end perspective view of the
translucent hand-held blinking device for signaling trans-
poration, such as bus or taxi, showing my new design;
FIG. 2 is a longitudinal cross-sectional view thereof
taken through the center of the design;
The opposite side is a mirror image of the side shown in
FIG. 1. The right end of the design is similar to the left
end but has two indentations and no pushbutton. The
words "STOP" and "BUS" and the internal circuitry
are shown in broken lines for illustrative purposes only.
