[57] CLAIM

The ornamental design for a fuel dispensing station, as  
shown and described.

DESCRIPTION

FIG. 1 is a top front perspective view of a fuel dispens-  
ing station, showing our new design, the top rear per-  
spective view being a mirror image thereof;

FIG. 2 is a bottom front perspective view thereof, the  
bottom rear view being a mirror image thereof;

FIG. 3 is a top front perspective view of a second em-  
bodiment of that shown in FIG. 1, the top rear view  
being a mirror image thereof;

FIG. 4 is a bottom front perspective view thereof, the  
bottom rear view being a mirror image thereof; and

FIG. 5 is an enlarged front elevational view of the hexa-  
hedral transaction terminal structure of FIGS. 1-4,  
shown separately for clarity of illustration.

The views opposite FIGS. 1-4 are mirror images of  
their opposite sides respectively.

The sides and rear of the hexahedral structure shown in  
FIG. 5 are the same on each of the structures as that  
shown in FIG. 2.

FIG. 1
