[57] CLAIM
The ornamental design for a bicycle tire, as shown and described.

DESCRIPTION
FIG. 1 is a perspective view of a bicycle tire showing my new design, it being understood that the tread pattern is repeated throughout the circumference of the tire as shown schematically by solid line, the opposite side being substantially the same as that shown; FIG. 2 is a side elevational view thereof; FIG. 3 is an end elevational view thereof; and FIG. 4 is an enlarged fragmentary plan view showing the tread pattern thereof in greater detail.
